**Qualitative Research and the Modern Library** Valeda Dent Goodman, 2011-07-30 Qualitative Research and the Modern Library examines the present-day role and provides suggestions for areas that might be suited to this type of research for the purposes of evaluation. The author discusses how the results from such research might be applied, and the overall impact of using this type of research to inform development of a more user-centred organisation. The book provides a thoughtful look at the implications of using qualitative research to inform decision-making processes within libraries and is written by an author and library researcher with international experience in various types of libraries, implementing/improving programs and services, and supporting user needs. Fills a gap in the current literature that hasn't been found in journal articles written on this topic Contains practical applications of qualitative research principles, with practical examples of select projects Written by an author and library researcher with international experience in various types of libraries, including work with large-scale qualitative studies, research design and evaluation of library services

Canadian Literary Landmarks John Robert Colombo, 1984-01-01 Here is a list of three dozen of the top literary locales in the country. The selection of sites is necessarily subjective, yet it attempts to represent geographical, historical, social, and cultural concerns as well as strictly literary interests. Had this list been prepared by the editors of Michelin Guide, they would have added asterisks or stars to the entries: \* Interesting. \*\* Worth a detour. \*\*\* Worth a journey. It is the opinion of the author of Canadian Literary Landmarks that all thirty-six sites are Worth a journey. It is recognized that the average person is unlikely to visit No. 1, not to mention No. 36, but as these sites happen to be the first and last entries in the book, they mark a convenient and symbolic beginning and ending. (No. 1 being L'Anse aux Meadows, Epaves Bay, Nfld. and No. 36 being the North Pole, NWT).
