The Financial Professional's Guide to Communication Robert L. Finder,2013 Today, financial clients are profoundly skeptical. They've been burned. Their consultants and advisors talk too much, use too much confusing technical jargon, work from too many boilerplate scripts, repeat too many generic caveats and useless disclaimers. Above all, clients say, their advisors don't listen well, and don't link their own needs and views to the recommendations they present. To succeed in today's radically new environment, financial advisors must first transform the way they communicate. In The Financial Professional's Guide to Communication, one of the world's leading experts on the financial client relationship shows them how to do precisely that. Drawing on his experience training elite financial professionals worldwide, Bob Finder shows how to actively listen, speak plainly with precision and passion, and engage clients with uncommon effectiveness. Finder demonstrates how to focus relentlessly on what matters most to each individual client, and then deliver intensely relevant recommendations with clarity and impact, in your own voice. You'll learn how to bring imagination, creativity, and even entertainment to your presentations and conversations, and use constructive criticism to keep improving with every new client meeting. Using these proven techniques, you can deliver truly extraordinary levels of professionalism and service, gain the powerful new competitive

edge you're desperately searching for - and earn equally powerful rewards for yourself.

Minority Relations Greg Robinson, Robert S. Chang, 2016-12-26 The question of how relations between marginalized groups are impacted by their common and sometimes competing search for equal rights has become acutely important. Demographic projections make it easy now to imagine a future majority population of color in the United States. Minority Relations sets forth some of the issues involved in the interplay among members of various racial, ethnic, and sexual minorities. Robert S. Chang initiated the Intergroup Conflict and Cooperation Project and invited historian Greg Robinson to collaborate. The two brought together scholars from different backgrounds and disciplines to engage a set of interrelated questions confronting groups generally considered minorities. This collection strives to stimulate further thinking and writing by social scientists, legal scholars, and policymakers on inter-minority connections. Particularly, scholars test the limits of intergroup cooperation and coalition building. For marginalized groups, coalition building seems to offer a pathway to addressing economic discrimination and reaching some measure of justice with regard to opportunities. The need for coalitions also acknowledges a democratic process in which racialized groups face significant difficulty gaining real political power, despite such legislation as the Voting Rights Act.

All too often, frustration, disappointment, and hurt feelings are the result. Relationships fail when there is no planned road map that provides direction; when personal agendas are unclear; when people rush into sex before knowing enough about the other person, resulting in the biggest factor that destroys relationships—bad surprises; and when communication skills are weak. That's what this book is all about. It provides a commonsensical road map for both men and women. It stresses being an authentic person and not a game player. It points out the importance of clarified expectations for compatibility and gives a simple five-step communication tool that is applicable in any kind of relationship issues.
