Wake-Up Call Robert Traydon,2016-01-25 It is the year 2035 and life on Earth is continuing much as it has for the last half century. The human population has increased faster than expected and is now thought to exceed nine billion people. This unrelenting human expansion has led to increasing environmental degradation. Edward Payton, a renowned environmental scientist, is appalled that world leaders are far more concerned about the stagnating global economy, terrorism and illegal immigration, than the deteriorating environment. But a day arrives when all of this changes! Supreme Beings representing the Galactic Federation revisit the planet after a 50 000 year hiatus. What they find is absolutely horrifying. Whereas 50 000 years ago the planet was regarded as the galaxy's greatest miracle in terms of diversity of life, it is now on the brink of catastrophic environmental collapse. The Supreme Beings quickly establish what the cause of the environmental devastation is, and are shocked. Their mission to research the planet suddenly becomes one to save it...

2035 Revelation Freddy Campbell,2016-06-28 2035 Revelation It is April 2035. The world is controlled by a central government. In a Level Three dormitory in a megacity in Southern England, one hundred men are asleep. One of them has a vivid dream. He wakes up in the morning with the rest of his unit. He forgets about the dream as he goes about his daily tasks. He has been trained to follow every instruction. He has no name, no family. Only a number. But the dream is the beginning of a journey.

Aliens 2035 Ronald C. Meyer,Mark Reeder,2023-11-27 A riveting sci-fi thriller that takes the reader into the heart of the dangers of alien intelligence's already among us. What starts out as a fight against a Russian oligarch by Michigan's Upper Peninsula Potawatomi Indian tribe to help the Bigfoot take their next evolutionary leap turns into a deadly battle between extraterrestrial entities for control of the Bigfoot's supernatural powers of interdimensional travel. A diverse team of American investigators led by tribal leader Larry Redhawk must shield both Bigfoot and human civilizations from competing non-human intelligences, or humanity will be thrown back into a technological dark age.

Technolife 2035 Elina Hiltunen,Kari Hiltunen,2015-10-05 Technology constantly evolves, usually slowly and insidiously – but always just as surely. Things that are currently being developed in laboratories will be in the public domain as different products and applications perhaps as soon as in a few years' time, and as more refined versions in around ten years' time. This book deals with the future of technology, and explores the influence new technologies may have on life within the next twenty years. It is divided into three parts, the first of which discusses technological development and the forces and counter-forces related to it. This section also reviews how advances in technology are forecasted, and what kinds of parties make these predictions, and provides examples of forecasts for the next couple of decades. The second part of the book investigates the various areas of technology and their related trends. This section discusses current technological studies which may have concrete impacts in everyday life in a few decades, such as those in the fields of energy, transportation, biotechnology, materials, ICT, robotics, medical technology and space technology. The third part of the book introduces the authors' visions of how technology may develop by 2035, and presents three different scenarios, or future worlds. These will demonstrate the possible directions in which technological development can take us. The scenarios are introduced through two main characters, Romeo and Juliet (adapted from Shakespeare's play) in the year 2035. Even though technology is constantly changing, the writers believe that, even years into the future, the significance of human relations will remain the greatest influence on human life.

Raft 2035 David Wood,2020-01-26 The fifteen years from 2020 to 2035 could be the most turbulent of human history. Revolutions are gathering pace in four overlapping fields of technology: nanotech, biotech, infotech, and cognotech, or NBIC for short. In combination, these NBIC revolutions offer enormous new possibilities: enormous opportunities and enormous risks. Rapid technological change tends to provoke a turbulent social reaction. Old certainties fade. New winners arrive on the scene, flaunting their power, and upturning previous networks of relationships. Within the general public, a sense of alienation and disruption mingles with a sense of profound possibility. Due to the increased scale, speed, and global nature of the ongoing NBIC revolutions, the disruptions that followed in the wake of previous industrial revolutions - seismic though they were - are likely to be dwarfed in comparison to what lies ahead. Amidst these turbulent waves, RAFT 2035 offers a Roadmap to Abundance, Flourishing, and Transcendence. RAFT issues a bold call to action, to encourage more people around the world to recognise the true scale of the opportunities ahead, to set aside distractions, and to build effective coalitions in pursuit of a set of 15 goals to be achieved by 2035. Written by the Chair of London Futurists, David Wood, RAFT shows that futurism isn't just about describing futures that are likely or possible. It's also about highlighting futures that are highly desirable, and seeking to change the arc of human history in the light of that insight. The 15 goals of RAFT range from significantly improved mental wellbeing, a radical new social contract, transformations in education and politics, a sustainable relationship with the environment, reductions in the threat of violence and crime both locally and internationally, and a renewed focus on humanity's journey into new realms of both inner and outer space. For each goal, two interim targets for 2025 are identified, as important steps towards the radically better future that is within our grasp. It's often said that technology is poised to make humans stronger and more intelligent. But RAFT emphasises the possibility of a change that is much more important - the potential for technology to make us kinder and more empathetic. It's a message that deserves to be widely heard. - David Pearce, Philosopher, and advocate of Paradise Engineering In RAFT, David Wood challenges all of us to reconsider how technology can best serve ethics, safety, and values that uplift the human spirit. A future that champions the very best aspects of what it means to be human is within our grasp, if we can humanise technology, and harmonize the interests of advanced civilization with nature. - Nell Watson, Chair of EthicsNet.org and IEEE's Certification for Ethics in Transparency The need for a different set of politics is more pressing than ever. RAFT is a framework for the transition we need to make which is beyond the faultlines of traditional political positions. - Hannes Sjöblad, Co-founder DSruptive Sweden, and Chief Disruptive Officer of Epicenter Stockholm I've often enjoyed listening to David Wood set out his hopes and fears for the future. In RAFT 2035 he applies his formidable insight to the very important question of securing a truly great future, for the United Kingdom and beyond, by 2035. - Matt O'Neill, Futurist Keynote Speaker, Futurist. Matt RAFT 2035 maps out the possibilities and the trade-offs our exponential world is going to need. Continuing as before with tiny incremental steps is no longer an option: we need a RAFT of big ideas to make a step-change. Let's pick up these ideas and get on board for a brave new 2035. Paul Imre, VP of Education, Data Science Speakers Club, Toastmasters International

Metro 2035 Дмитрий Глуховский,2016-02-25 Have you ever had to think about what will happen to the people if you give them the opportunity to start all over again? No government, no laws, rules. As we begin to behave in the new world? To begin I create new laws or simply come together and live in harmony and love? The book Metro 2035 Dmitry Glukhov very well describes the world after World War III. In the first two parts of the people are just trying to survive in the underground to escape the awful creatures and radiation. Now everything has changed, it is possible to get out and start all over again.

Metro 2035 Dmitrij Gluhovski,2020-11-25 OVDE MOSKVA. DA LI ME ČUJETE? PETERBURG? VLADIVOSTOK? VORONJEŽ? NOVOSIBIRSK? ČUJETE LI? OVDE MOSKVA! MI SMO ŽIVI! NE ZNAM DA LI STE NAS RANIJE ČULI... MI VAS NISMO. MISLILI SMO DA SMO JEDINO MI OSTALI. MISLILI SMO...DA VIŠE NIKOG NEMA. NIKOG I NIČEG, RAZUMETE? Metro 2035 konačno otkriva istinu! Dve hiljade trideset pet, godina velikih preokreta. Malobrojni preživeli još uvek se kriju po mračnim tunelima Moskovskog metropolitena, podeljeni u gradove-države i koncentrisani samo na to da prežive još jedan dan. Godine u podzemlju već počinju da ostavljaju posledice na ljude, bolesti su sve učestalije, nada da je još neko preživeo polako počinje da kopni. Nekadašnji heroj Artem sada je slomljen i razočaran, stalker omražen zbog preteranog izlaganja radijaciji, a na sve to i brak mu je u krizi. Međutim, po cenu da ga proglaše ludim, Artem kreće u odiseju kroz podzemni i nadzemni svet, praćen misterioznim starcem Homerom, kako bi dokazao da signal koji je uspeo da uhvati preko radija nije samo varka uma i da zaista, negde na površini, postoji utopijsko mesto Polarne Zore, čiji su stanovnici uspeali da prežive i da očuvaju tekovine civilizacije. Mračni, polupotopljeni tuneli prepuni su opasnosti i Artem će ubrzo uvideti da svaka stanica ima svoju malu prljavu tajnu. A najveća iznenađenja dočekaće Artema upravo na dnevnoj svetlosti...
