*Service Worlds* John Bryson,Peter Daniels,Barney Warf,2013-04-15 As the twenty-first century begins, significant changes are occurring in the way that services and goods are produced and consumed. One of the key drivers of this change is information and communications technology (ICT). It has transformed the role of space and time in patterns of economic development, in the rise of globalization and in the scale and structure of organizations. ICT has therefore accelerated the process of continual change and evolution that is the hallmark of both the capitalist economy and of organizations. Giving a student-friendly account of the diversity of theoretical perspectives, this outstanding book aids understanding the evolving economic geography of advanced capitalist economies. A series of detailed firm and employees' case studies from Europe, North America and the Asia Pacific, are used to inform useful theoretical case studies, which also investigate the significance of increased blurring of the lines between services and manufacturing functions in the production and consumption process.

**HC 129 - High Speed Rail (London - West Midlands) Bill** Great Britain. Parliament. House of Commons. High Speed Rail (London - West Midlands) Bill Select Committee,Great Britain: Parliament: House Of Commons: High Speed Rail (London - West Midlands) Bill Select,2016-02-26 This report contains the final directions and recommendations of the Select Committee on the High Speed 2 Phase One Hybrid Bill after 160 days of sittings over nearly two years. Our responsibility was to hear petitions from those specially and directly affected by the Bill and, where we believed it was appropriate, to suggest modifications, assurances, undertakings or mitigation to address petitioners' concerns. The Committee directed a number of amendments to the proposed HS2 Phase One project. Notably they have directed a longer Chilterns bored tunnel, greater noise protection for Wendover, better construction arrangements in Hillingdon, and a remodelled maintenance depot at Washwood Heath to maximise local job opportunities. There should be a coherent approach to the redevelopment of Euston. In many cases not specifically mentioned in this report we have intervened to encourage fairness, practical settlements, the giving of assurances, or better mitigation. The Committee recommended amendments to the operation of the discretionary compensation schemes which they believe will result in greater fairness and a more functional property market in areas near to the proposed line. They also suggest improvements to the procedure for dealing with hybrid bills.

It highlights the challenges currently facing the fashion industry in terms of hyper-competition, definition of ever-faster trends, changing consumer demands etc. In fact, the fashion industry is heavily influenced by the digital revolution in the music industry, which has changed the face of individual music consumption and social reference, and therefore, also has impacts on fashion consumption and social reference. This understanding is crucial in order to realign any fashion company's strategies to the demands of modern fashion consumers. In terms of content, the book first discusses the social perspective of fashion and music. This includes an analysis of music as a key influencer of fashion trends, both theoretically and on the basis of a case study on grunge music. Then the role of music in the fashion business is addressed, and covers in-store music and the role of music in fashion communication. Following up, the role of fashion in the music business is analyzed. This includes the trend of co-design of fashion collections, music artists' role of differentiation by style, and the market for music fashion merchandise articles (both theoretically and drawing on a case study). In closing, potential lessons learned from the music industry are developed for the fashion industry. This includes an analysis of the digital revolution and the advent of the crowdfunding idea (both theoretically and in a case study).
