Rolemaster Blog Monthly Peter Rudin-Burgess,2017-11-16 The RolemasterBlog is a fan run blog written by GMs and players of probably the best roleplaying game ever written, not that we are biased! About the only thing that Rolemaster does not have is a community of small independent adventure writers. People who write and publish their own adventures for the rest of the Rolemaster fans to play and enjoy. The reason for that is that the monsters that you need to create those adventures are protected by copyright and without monsters it is nigh on impossible to create adventures for most campaigns. In this issue we have gone back to Rolemaster's roots and converted the original D&D monsters, this time from 5e, back to Rolemaster so anyone can use them. This first collection introduces 15 races from Ogres to Owlbears and Kobolds to two headed Ettins. You can use these monsters to surprise your players in a regular game or as something new and exciting for a new campaign.

Role-Playing Games of Japan Björn-Ole Kamm,2020-08-28 This book engages non-digital role-playing games—such as table-top RPGs and live-action role-plays—in and from Japan, to sketch their possibilities and fluidities in a global context. Currently, non-digital RPGs are experiencing a second boom worldwide and are increasingly gaining scholarly attention for their inter-media relations. This study concentrates on Japan, but does not emphasise unique Japanese characteristics, as the practice of embodying an RPG character is always contingently realised. The purpose is to trace the transcultural entanglements of RPG practices by mapping four arenas of conflict: the tension between reality and fiction; stereotypes of escapism; mediation across national borders; and the role of scholars in the making of role-playing game practices.

Zones of Control Pat Harrigan,Matthew G. Kirschenbaum,2016-04-15 Examinations of wargaming for entertainment, education, and military planning, in terms of design, critical analysis, and historical contexts. Games with military themes date back to antiquity, and yet they are curiously neglected in much of the academic and trade literature on games and game history. This volume fills that gap, providing a diverse set of perspectives on wargaming's past, present, and future. In *Zones of Control*, contributors consider wargames played for entertainment, education, and military planning, in terms of design, critical analysis, and historical contexts. They consider both digital and especially tabletop games, most of which cover specific historical conflicts or are grounded in recognizable real-world geopolitics. Game designers and players will find the historical and critical contexts often missing from design and hobby literature; military analysts will find connections to game design and the humanities; and academics will find documentation and critique of a sophisticated body of cultural work in which the complexity of military conflict is represented in ludic systems and procedures. Each section begins with a long anchoring chapter by an established authority, which is followed by a variety of shorter pieces both analytic and anecdotal. Topics include the history of playing at war; operations research and systems design; wargaming and military history; wargaming's ethics and politics; gaming irregular and non-kinetic warfare; and wargames as artistic practice. Contributors Jeremy Antley, Richard Barbrook, Elizabeth M. Bartels, Ed Beach, Larry Bond, Larry Brom, Lee Brimmicombe-Wood, Rex Brynen, Matthew B. Queen Victoria's Bomb Ronald Clark,2013-05-14 A sudden intolerably bright fireball lights up a remote and deserted Indian plateau. Searing heat melts rock into incandescent pools of glowing liquid. The earth heaves. A monstrous thunderclap of sound reverberates over the land. An ominous mushroom-shaped cloud boils skywards. For years afterwards, strange plants and even stranger human mutants are discovered in the area, warped spawn of a mysterious and deadly force. Just another atomic test? Not exactly. Because it was Professor Huxtable's brainchild. And the professor is one of the most devoted and loyal servants of Queen Victoria?

Born to Run James Grippando,2009-10-06 “[A] thrill-a-minute novel.” —USA Today Jack Swyteck is back in action in *Born to Run*—the eighth outing for the danger-prone Miami lawyer in author James Grippando’s New York Times bestselling series. In this timely and spellbinding thriller, Swyteck is embroiled in shady Washington D.C. politics when his own father is selected by the President to replace the Vice President, killed in a hunting accident. *Born to Run* crackles with suspense, surprises, and razor sharp wit—“a fun 200-proof yarn,” the Washington Post raves—and serves as indisputable evidence, as crime fiction superstar Harlan Coben attests, that “Grippando grips from page one.”
