Rolemaster Blog Monthly Peter Rudin-Burgess,2017-11-16 The RolemasterBlog is a fan run blog written by GMs and players of probably the best roleplaying game ever written, not that we are biased! About the only thing that Rolemaster does not have is a community of small independent adventure writers. People who write and publish their own adventures for the rest of the Rolemaster fans to play and enjoy. The reason for that is that the monsters that you need to create those adventures are protected by copyright and without monsters it is nigh on impossible to create adventures for most campaigns. In this issue we have gone back to Rolemaster's roots and converted the original D&D monsters, this time from 5e, back to Rolemaster so anyone can use them. This first collection introduces 15 races from Ogres to Owlbears and Kobolds to two headed Ettins. You can use these monsters to surprise your players in a regular game or as something new and exciting for a new campaign.

Monster Manual Mike Mearls,Stephen Schubert,James Wyatt,2008 Describes the characteristics and attributes of a variety of monsters, zombies, demons, giants, werewolves, animals, and aliens for use in the Dungeons and Dragons game.

Role-Playing Game Studies Sebastian Deterding,José Zagal,2018-04-17 This handbook collects, for the first time, the state of research on role-playing games (RPGs) across disciplines, cultures, and media in a single, accessible volume. Collaboratively authored by more than 50 key scholars, it traces the history of RPGs, from wargaming precursors to tabletop RPGs like Dungeons & Dragons to the rise of live action role-play and contemporary computer RPG and massively multiplayer online RPG franchises, like Fallout and World of Warcraft. Individual chapters survey the perspectives, concepts, and findings on RPGs from key disciplines, like performance studies, sociology, psychology, education, economics, game design, literary studies, and more. Other chapters integrate insights from RPG studies around broadly significant topics, like transmedia worldbuilding, immersion, transgressive play, or player–character relations. Each chapter includes definitions of key terms and recommended readings to help fans, students, and scholars new to RPG studies find their way into this new interdisciplinary field.

Day of the Rangers Ambush Alley Ambush Alley Games,2012-03-20 In the early 90s, Somalia was a country in chaos. As civil war raged, warlords carved out their own territories, enforcing their will through militia gangs, while famine compounded the situation. As a joint US–UN mission struggled to maintain order, the warlords began to unite behind Mohamed Farrah Aidid, who was to proclaim himself President of Somalia and embark upon a campaign to force the peacekeepers out of the country. Operations against Aidid and his strongholds intensified, culminating in the famous Operation Gothic Serpent, and the rescue

mission to save a downed Black Hawk helicopter carried out by US Rangers and Delta Force operatives. Day of the Rangers, the latest companion for Force on Force, provides wargamers with all the background, orders of battle, and scenarios they need to immerse themselves in the epic battle for Mogadishu.

Metrophage Richard Kadrey, 2014-11-04 New York Times bestselling author Richard Kadrey's first novel—the cult classic dystopian cyberpunk tale—now back in print after twenty years in a special signed, collectible edition. Welcome to the near future: Los Angeles in the late 21st century—a segregated city of haves and have nots, where morality is dead and technology rules. Here, a small group of wealthy seclude themselves in gilded cages. Beyond their high security compounds, far from their pretty comforts, lies a lawless wasteland where the angry masses battle hunger, rampant disease, and their own despair to survive. Jonny was born into this Hobbesian paradise. A street-wise hustler who deals drugs on the black market—narcotics that heal the body and cool the mind—he looks out for nobody but himself. Until a terrifying plague sweeps through L.A., wreaking death and panic. And no one, not even a clever operator like Jonny, is safe. His own life hanging in the balance, Jonny must risk everything to find the cure—if there is one. The book will include a Q & A with Cory Doctorow.

Cold War Gone Hot Ambush Alley Ambush Alley Games, 2011-11-20 My fellow Americans, I'm pleased to tell you today that I've signed legislation that will outlaw Russia forever. We begin bombing in five minutes.†? – Ronald Reagan, 1984. With these words, spoken as a sound check to a radio broadcast, President Reagan came dangerously close to igniting the long-simmering Cold War. Although Soviet forces were placed on alert following reports of this comment, the full-scale conflict between the West and the Soviet Bloc did not break out. Cold War Gone Hot, the latest companion volume for Force on Force, looks at the 44-year history of the Cold War and asks: what if?†? With the orders of battle, vehicle stats and missions included in this volume, Force on Force players can simulate the advance of Soviet tanks across Western Europe, a thrust into Alaska, or any number of other plausible scenarios where history took a slightly different path.

Dungeons & Dragons: Forgotten Realms Ed Greenwood, 2013-01-15 Forgotten Realms creator Ed Greenwood opens the adventures of an unlikely new band of heroes who get into a bit more trouble than usual in the fabled port city of Waterdeep, but soon discover some of the seedier corners of the wider Realms — the hard way! Joined by artist Lee Ferguson and Sal Buscema, this new series kicks off a deadly tale with a kidnapping that is more — and less — than it seems.

Burnished Rows of Steel Jeremy Davies,2016-01-05 Most who read the Declaration of Independence find three foundational liberties promised to our citizens: life, liberty, and the pursuit of happiness. An increasing number of citizens seem to be discovering the fourth: the right to alter or abolish a form of government that leads invariably to tyranny. Since leaving the military and his security contracting work behind, Dave has been preparing himself for the time when exercising the right to alter or abolish may become necessary. When he is approached on behalf of some powerful men who are prepared to risk their fortune to strike a blow against the political tyranny embodied by the president, Dave is prepared to accept the role of assassin. As he prepares to accept the mission of a lifetime, an alternate narrative begins to unfold. He struggles to discover whether the hit will be on behalf of a besieged gun maker or whether it has been orchestrated by members of the president's own party, who feel that his death would rescue the chances of their party heading into an election. As the motive becomes clear, so does Dave's course of action. He is caught in a race against time to thwart their plans, not for the leader of a country but for the life of a friend.
