Sunny Rolls the Dice: A Graphic Novel (Sunny #3) Jennifer L.

Holm, 2019-10-01 From the award-winning duo of Jennifer and Matthew Holm comes the third book in the bestselling Sunny series, *Sunny Rolls the Dice* -- full of heart, laughs, and adventure! Too cool for school . . . or the least groovy girl in the grade? Sunny's just made it to middle school . . . and it's making her life very confusing. All her best friend Deb wants to talk about is fashion, boys, makeup, boys, and being cool. Sunny's not against any of these things, but she also doesn't understand why suddenly everything revolves around them. She's much more comfortable when she's in her basement, playing *Dungeons & Dragons* with a bunch of new friends. Because when you're swordfighting and spider-slaying, it's hard to worry about whether you look cool or not. Especially when it's your turn to roll the 20-sided die. Trying hard to be cool can make you feel really uncool . . . and it's much more fun to just have fun. Sunny's going to find her groove and her own kind of groovy, with plenty of laughs along the way.

Roll Dice, Build Character R Mark Hansen, 2021-04-27 Set your imagination free! We all love fantasy and stories of the imagination. From the fairy tales of our childhood to modern stories of wizarding schools and dragons. Finding a new world to explore is exciting! In the late 70s, the Role-Playing Game (RPG) phenomenon leapt out of middle America and caught the dreams of players on fire! It was a completely new way to play games, immersive and fantastic! But many others didn't understand it, and were afraid. Many people

of faith were confused by the depictions of magic and monsters, and tragic real-life stories of unhealthy over-immersion filled the news and other media. Decades later, the games are still going strong and society's skepticism has calmed to general acceptance. But, still, even today, there are many who wonder if role-playing games can be a part of the lives of people of faith. Mark's book will show you that, no matter what rules you choose, RPGs can be not only safe, but an amazing and rewarding tool to help your children discover powerful life lessons in a way that doesn't feel like parental preaching. Kids can learn: Cooperation and teamwork Choices and consequences Kindness, acceptance, and service Social interactions And many other important life skills All while having a great time bonding with family and friends! It's why we love to... Roll Dice, and Build Character! The ideas in this book are compatible with any RPG system. This book is part of the family of novels, books, and games called, The Hero's Tale, by Mark Hansen, Brendon Hansen, and Jacob Hansen. It's a family-friendly, story-driven RPG system designed to help families and friends enjoy imaginative time together!

The Dice Man Luke Rhinehart, 1998-05-01 "One of the fifty most influential books of the last half of the twentieth century," a comic novel about a

therapist making life choices by rolling dice. (BBC) The cult classic that can still change your life . . . Let the dice decide! This is the philosophy that changes the life of bored psychiatrist Luke Rhinehart—and in some ways changes the world as well. Because once you hand over your life to the dice, anything can happen. Entertaining, humorous, scary, shocking, subversive, The Dice Man is one of the cult bestsellers of our time. “A fine piece of fiction . . . touching, ingenious and beautifully comic.” —Anthony Burgess, author of A Clockwork Orange “Luke Rhinehart and THE DICE MAN have launched a psychiatric revolution.” —London Sunday Telegraph “A blackly comic amusement park of a book.” —TIME Magazine “Weird, hilarious . . . an outlandishly enjoyable book.” —St. Louis Post-Dispatch “Witty reckless clever . . . a caper at the edge of nihilism.” —LIFE Magazine “Brilliant . . . much like CATCH-22 . . . the sex extra-juicy.” —The Houston Post “Outrageously funny.” —Fort Worth Star-Telegram “Hilarious and well-written . . . A brilliant summary of modern nihilism. Dice living will be popular, no doubt of that.” —Time Out (London)

Roll the Dice Darius Guppy, Nicholas Davies, 1996 When his father lost his home and almost everything he owned in the Lloyds insurance meltdown, Darius Guppy swore revenge. He cold-bloodedly set out to restore the family fortune by swindling Lloyds out of \$1.8 million, with a daring scheme. He tricked Lloyds out of the money by pretending he had been robbed at gunpoint of a stash of precious stones. Lloyds paid up and Guppy — at the age of 25 — was a millionaire. Nearly two years later the law caught up with him. He was disgraced and sentenced to six years in jail. Now free, Guppy tells his story in this book. He reveals his wild adventures with Lord Spencer, of gold smuggling in India, of dealings with gunmen in New York, and is passionate

love for his wife Patricia.

Rolling Dice Beth Reekles, 2013-08-29 Rolling Dice is the second cool, sexy YA romance from seventeen-year-old Wattpad sensation and author of The Kissing Booth, Beth Reekles. They say that the higher you climb, the harder you fall--and Madison Clarke will do anything to keep her new life from crumbling to pieces. Moving from a small town in Maine to Florida, Madison seizes the opportunity to reinvent herself. In Maine she was a loser, so when the popular kids at her new school decide to take her under their wing, she jumps at the chance. A hot boyfriend, parties, friends . . . If only there wasn't the slight problem of her friendship with Dwight, a cute, funny but totally nerdy guy in Madison's physics class. She can't deny he's fun to spend time with--when no one else is looking. Running from her past and stumbling through the present, what choices lie ahead for Madison in her new life in Florida? From the author of The Kissing Booth, Beth Reekles captures how much it takes to reinvent yourself and not leave behind your own sense of integrity. Readers will laugh, empathize, and cheer on Madison as she figures out things.

Extreme Horror Matt Shaw, 2022-07-20 They said I could not become a filmmaker. They said my screenplays were dull and clumsy with thin characterisation. My plots were predictable and endings lame. They said my directing was uninspired and ideas translated poorly to screen. They said my acting was laughable; scenes that were supposed to be tragic caused ripples of laughter. They said I would never make it and that - even if I did - no one wants horror anymore. They want fantasy. They want drama. Comedy, even has its place in the market. Not horror. It's stale. It is stagnant and done to death. Well, whatever they say, I am bringing horror back to the

mainstream. It will be shown on every television station and shared across millions of social networking profiles. I am bringing horror back whether the audience wants it or not and it's going to be extreme...

Don't Just Roll the Dice Neil Davidson, Phil Factor, Michael Pryor, 2009 How do you price your software? Is it art, science or magic? How much attention should you pay to your competitors? This short handbook will provide you with the theory, practical advice and case studies you need to stop yourself from reaching for the dice. Table of Contents Chapter 01: Some - but not too much - Economics Chapter 02: Pricing Psychology: What is your product worth? Chapter 03: Pricing Pitfalls Chapter 04: Advanced Pricing Chapter 05: What your price says about you (and how to change it) Why read this book? At Business of Software 2007 Michael Pryor held an impromptu session on how to price your software. So many people turned up, and so many people kept on arriving, that by the time they'd introduced themselves there was no time left to talk about software pricing. I've had similar experiences; in fact, How do I price my software? is probably the most common question I'm asked by software entrepreneurs and product managers. This handbook is an attempt to answer that question. Neil Davidson, Author. About the Author Neil Davidson is co-founder and joint CEO of Red Gate Software. Red Gate was founded in 1999 and now employs some 150 people. It was Cambridge News business of the year in 2006 and has been in the Sunday Times top 100 companies to work for three years running. It was founded with no VC money and little debt. Neil is also founder of the annual Business of Software conference and runs the Business of Software social network.

Rolling the Iron Dice Scot Macdonald, 2000-07-30 Does history provide lessons for foreign policy makers today? Macdonald combines cognitive

psychology theories about analogical reasoning, international relations theories about military intervention, and original archival research to analyze the role of historical information in foreign policy decision making. He looks at the role of historical analogies in Anglo-American decision making during foreign policy crises involving the possible use of force in regional contingencies during a crucial period in the 1950s when the West faced an emerging Soviet threat. This study analyzes the influence of situational and individual variables in a comparison of more than ten leaders from two nations facing four different crises. *Rolling the Iron Dice* describes the often significant effect of historical analogies on perceptions of the adversary and of allies, time constraints, policy options and risks, as well as the justification of policy in four crises: the 1950 Korean invasion; the 1951-53 Iranian oil nationalization incident; the 1956 Suez crisis; and the 1958 crisis in Lebanon and Jordan. Contrary to both the slippery slope and the escalation models of military intervention, Macdonald argues that leaders decide extremely early in a crisis, often on the basis of an historical analogy, but also based on perceptions of the rationality of an adversary, whether to use military force. Their decision does not change unless the adversary capitulates to every demand.

A Single Roll of the Dice Trita Parsi, 2012-01-24 Have the diplomatic efforts of the Obama administration toward Iran failed? Was the Bush administration's emphasis on military intervention, refusal to negotiate, and pursuit of regime change a better approach? How can the United States best address the ongoing turmoil in Tehran? This book provides a definitive and comprehensive analysis of the Obama administration's early diplomatic outreach to Iran and discusses the best way to move toward more positive relations between the two discordant states. Trita Parsi, a Middle East foreign policy expert with extensive Capitol Hill and United Nations experience, interviewed 70 high-ranking officials from the U.S., Iran, Europe, Israel, Saudi Arabia, Turkey, and Brazil—including the top American and Iranian negotiators—for this book. Parsi uncovers the previously unknown story of American and Iranian negotiations during Obama's early years as president, the calculations behind the two nations' dealings, and the real reasons for their current stalemate. Contrary to prevailing opinion, Parsi contends that diplomacy has not been fully tried. For various reasons, Obama's diplomacy ended up being a single roll of the dice. It had to work either immediately—or not at all. Persistence and perseverance are keys to

any negotiation. Neither Iran nor the U.S. had them in 2009.

Grab five dice at a local 99 cents store, a pencil, and this book, and see if you can roll... ...a pair ...two pairs ...three of a kind ...full house ...four of a kind ...evens only ...odds only ...three in a row ...four in a row ...five in a row

Does God Roll Dice? Joseph Bracken, 2012-04-01 Albert Einstein is often quoted as saying that God does not play dice, claiming an orderly and predictable structure to the universe. Today, advances and presumptions in the field of quantum mechanics pose a serious challenge to such a position.

It's a challenge not only for nuclear physicists, but also for Christian theologians who work to explain God's providence for the world. In *Does God Roll Dice?* noted Jesuit scholar Joseph Bracken claims that something like directed chance (Teilhard de Chardin) is God's normal mode of operation in a world always perilously poised between order and chaos. Bracken adopts the relatively new concept of self-organizing or self-correcting systems out of the natural and social sciences to deal with controversial issues in the ongoing religion and science debate. At the same time he deliberately keeps the language and context of the book suitable for the intelligent non-professional reader.

A Roll of the Dice II Brett Bunge, Roy Olsen, Bill Link, Angel Vansant, Mel Murphy, Robert John Jenson, Georgette Graham, 2018-09-04 In 2017, our first anthology, *A Roll of the Dice*, was released in print and online. The stories we each contributed ranged from fantasy to horror and everything in between. Each tale was connected to the next by four symbols, taken from story dice that we rolled. When it came time to do this second anthology, story dice again seemed like the perfect way to link each piece together. So we rolled. And then, after some debate, we rolled them again. Finally, after even more discussion (would you really expect less from a group of writers?) we settled on four: the world, a clock, fire, and a turtle. These components are what you'll find here. Just as in the first collection, the dice chose for us. Each story is different, but these parts will provide a bridge between stories. We

are the Science Fiction, Fantasy, and Horror Writers of Spokane. Welcome to our worlds.
