R MARK HANSEN

[Loaded Dice](#) Aron Christensen, Erica Lindquist, 2019-12-16 I've been running role-playing games for thirty years, but am relatively new to playing them. Erica's rolled up dozens of characters, but has only a few storytelling experiences under her belt. Together, we've written a blog about what we learned, the challenges we have to overcome, and all the solutions we've come up with to keep an RPG campaign going – The RPGuide. This is a collection of our best and favorite articles from the first year and a half year of RPGuide posts. We've got advice for handling players, building NPCs, and we debate rules and play styles. If you're an old hand at role-playing, maybe you'll find a new trick to put up your sleeve, or a fresh way of looking at gaming. And if you're new to RPGs, then you're welcome to learn from our mistakes and take advantage of our experience. You've probably read My Guide to RPG Storytelling, the Companion, or maybe From Dream to Dice, and that's what brought you around to this little collection. But if this is your first RPGuidebook, welcome! Don't worry, you don't need to read any of the others first – Loaded Dice can be used on its own. We'll even begin with a “What the heck is a table-top role-playing game?” chapter. So let's play!

[Diecraft](#) Shane Windham, 2014-08-12 From the mind which brought you Table Games, Humans Against Everything, Pinions, and many more timeless gaming experiences comes Diecraft; a labor of love for fans of both Minecraft and the role-playing genre in general. With a lower learning curve and clearer objectives than the majority of RPG's currently on the market, Diecraft sets out to give users an addictive experience that can be enjoyed by almost anyone. Games which have typically taken entire nights to play can now be enjoyed in a matter of hours. Your characters will level up from one game to the next, their objectives (as well as their starting points) will often change, and the path to winning is unlikely to ever be the same. If you've tried other RPG's and love their basic premise, but sometimes wish for something with more of the focus on destination than it tends to be on dialogue, then this game may just be the one for you. And if you like fun reasons to roll dice, then this game is definitely the one for you! Please note that this product is a guide book more than it is a complete game. The product in question does not include all things required to play Diecraft; namely a set of polyhedral dice, various printed materials, and pencils. What this book aims to do is provide the foundation one would need to play Diecraft once they had the aforementioned gaming essentials.

[Dice Tales](#) Marie Brennan, 2017-07-18 Some people play roleplaying-games for the challenge; others play them for the story. Award-winning fantasy author and freelance game writer Marie Brennan is unabashedly in the latter camp. In these essays she looks at tabletop and live-action RPGs from a narrative perspective, exploring the ways the framework of a game can generate and support (or undermine) your tale. Whether you are a player or a game master, Dice Tales offers insights on every facet of RPG storytelling, including: * generating characters with rich narrative potential * scaling plot as PCs become more powerful * managing the interaction between rules and roleplay * campaign planning at different stages * the social dynamics of collaborative creation * and more!

[Of Dice and Men](#) David M. Ewalt, 2013 Originally published in hardcover in 2013.

[D6xD6 Role-Playing Game](#) Lester Smith, 2015-05-22 From Origins Award winning designer Lester Smith. With former Dragon Magazine editor Dale A. Donovan. * Five-minute character creation. * Quick-and-easy tactical combat rules. * Endless setting possibilities. The D6xD6 role-playing game is centered on a single stat, focus. The more skills you choose, the higher your character's focus number. Choose just a few skills, and your character is very focused. Choose many, and your character becomes a jack-of-all-trades. Task rolls are 1d6 x 1d6. Roll high for things you know well; low for things you don't. That single roll serves as both level of success and turn order, making combat quick and easy. This 72-page core book contains all the game rules, plus four sample settings, each of which adds a new layer of character abilities specific to that world: L'Academie des Arcanes: In a modern world secretly threatened by fee magic, one nation dares to guard the doorway between realms and police the supernatural. Do you have what it takes to join them? Includes formulas for designing your own magic spells. Blood Type: When a biotech company's virus reaches the general populace, horrific results ensue, based on each person's blood type. Includes rules for enhanced strength, speed, and senses, based on blood type, and at the cost of blood frenzy. Ghost of a Chance: Adventure as the spirits of people who have died before their appointed time. Includes ghostly powers, and ghostly frailties. The World of Esfah: Play characters in the war-torn high fantasy world of the Origins-Award-winning Dragon Dice game, with options to use actual Dragon Dice. The World of Zero: In the telepathically linked underground hive of Queen Zero, free thinking cannot be tolerated, which makes your character a target for termination. New settings are continually being added-based on the licensed worlds of popular authors. And the game is easily adaptable to whatever genre you please. For a draft of these core worlds and sample settings, and a list of other worlds in development, visit www.d6xd6.com.

[From Dream to Dice](#) Aron Christensen, 2018-12-18 I've written two other books (so far) on my tricks and tools for running table-top role-playing games. But now it's time to put those tools to the test – making an actual RPG campaign. Right here, right now, on the page. So let's do this! I'll start with the seed of a story idea, go through world-building and character creation, then expanding that basic plot out into scenes, combats and crises. This is an up-close, behind the scenes look at how I make a game. Then I'll run the campaign for my group. The second half of this book details what went right, what went wrong, how I kept the game moving and my friends entertained. From the dream that inspired me to the dice hitting the table, this is how I run an RPG.

[36 New Dice Games](#) Kenneth P Langer, 2018-04-10 Turn off the virtual and return to the actual. In a world of virtual reality, virtual friends, and digital anonymity, there are still those who enjoy playing real games with real people. No matter how complex a video game may be there is no substitute for face-to-face interaction with friends around a table full of fun and playful game elements. And there is nothing more iconic to tabletop games than dice: plain dice, colorful dice, tiny dice with dots, polyhedral dice, lawn dice, and many other shapes and types of dice are an important part of the generation of chance elements that make games surprising and exciting. In this book, you will find 36 brand new games that use all kinds of dice in a variety of standard and unique ways. So, grab some friends, pull out a great big bag of colorful dice, play some games, and make some actual memories.
