*China* Edward Rutherford, 2021-05-13 THE INTERNATIONAL BESTSELLER 'Bravo; this is a big, complex and utterly involving portrait of 19th-century China' THE TIMES The internationally bestselling author portrays the great clash of East and West in his new epic: China in the nineteenth century: a proud and ancient empire forbidden to foreigners. The West desires Chinese tea above all other things but lacks the silver to buy it. Instead, western adventurers resort to smuggling opium in exchange. The Qing Emperor will not allow his people to sink into addiction. Viceroy Lin is sent to the epicentre of the opium trade, Canton, to stop it. The Opium Wars begin - heralding a period of bloody military defeats, reparations, and one-sided treaties which will become known as the Century of Humiliation. From Hong Kong to Beijing to the Great Wall, from the exotic wonders of the Summer Palace and the Forbidden City, to squalid village huts, the dramatic struggle rages across the Celestial Kingdom. This is the story of the Chinese people, high and low, and the Westerners who came to exploit the riches of their ancient land and culture. We meet a young village wife struggling with the rigid traditions of her people, Manchu empresses and warriors, powerful eunuchs, fanatical Taiping and Boxer Rebels, savvy Chinese pirates, artists, concubines, scoundrels and heroes, well-intentioned missionaries and the rapacious merchants, diplomats and soldiers of the West. Fortunes will rise and fall, loves will be gained and lost. This is an unforgettable tale told from both sides of the divide. The clash of worldviews, of culture and heritage, is shown in a kaleidoscope of jaw-dropping set pieces. China is a feat of the imagination that will enthrall, instruct and excite, and show us how things once were, and how the turmoil of the nineteenth century led to modern China's revolution and rebirth.

**Collaborative Filtering with RSS** Ingo Schommer, 2007 The increasing amount of information on the internet makes it hard to filter out relevant parts. Every second hundreds of news-articles and blog-entries are written. A subscriber to this constant stream of information quickly loses overview - a typical needle-in-a-haystack problem. Especially in the field of news-reading, software can help to increase efficiency by personalized filtering mechanisms. This filtering can be predictive based on previous user-choices, but also heeds the power of social networks: Users help each other by marking relevant information. The author Ingo Schommer investigates the conceptual and practical development of a web-based news-reader with advanced filtering features. Research is conducted in the field of information visualization and filtering as well as in competitive products and their shortcomings. The solution will mainly target pro-users who are already accustomed with news-reading, the modern information junkies.

**The Dip** Seth Godin, 2007-05-10 A New York Times, USA Today, and Wall Street Journal bestseller In this iconic bestseller, popular business blogger and bestselling author Seth Godin proves that winners are really just the best quitters. Godin shows that winners quit fast, quit often, and quit without guilt—until they commit to beating the right Dip. Every new project (or job, or hobby, or company) starts out fun...then gets really hard, and not much fun

at all. You might be in a Dip—a temporary setback that will get better if you keep pushing. But maybe it's really a Cul-de-Sac—a total dead end. What really sets superstars apart is the ability to tell the two apart. Winners seek out the Dip. They realize that the bigger the barrier, the bigger the reward for getting past it. If you can beat the Dip to be the best, you'll earn profits, glory, and long-term security. Whether you're an intern or a CEO, this fun little book will help you figure out if you're in a Dip that's worthy of your time, effort, and talents. The old saying is wrong—winners do quit, and quitters do win.

**Take Control of Your Internet Posts: Blog Your Own Way** Dale Stubbart, I create my own Websites using HTML and CSS. I've blogged with WordPress for many years. However, I'm always fighting with it to get things formatted my way. I figured if I created my own blogging system, I wouldn't have to do that. So, I created my Radical Blogging Method. You can use it too. I used HTML for the webpage and CSS for the styling. I also used my very easy-to-use Javascript Library to make my webpage more expressive, and to save me a few steps. This can all be done without any Javascript, if you wish. First, I had to figure out what a blogging system does. Then I had to replicate it, well, at least the important steps. My blogging method uses HTML and CSS, just like my webpages do. So, I just write my posts, like I write my webpages. The theme is the same as the other pages of my website, with a few extra features for the Posts. In addition to the posts, there's a list of all the posts. I made that very simple to maintain. And, there's a Feed. This Feed File tells others sites about your posts and it lets readers subscribe to your post. I've set things up, so that it's easy to maintain this feed file. In this book I explain why I did this, how I did it, and how you can use it too. Then I let you draw your own conclusion. Using my Radical Blogging Method saves me time and makes blogging a joy again.

Bike Snob BikeSnobNYC, 2011-04-29 "Equal parts critical manifesto and tender mini-memoir about a boy and his bikes" from Eben Weiss, blogger and author of *The Enlightened Cyclist* (GQ). Cycling is exploding in a good way. Urbanites everywhere, from ironic hipsters to earth-conscious commuters, are taking to the bike like aquatic mammals to water. BikeSnobNYC—cycling's most prolific, well-known, hilarious, and anonymous blogger—brings a fresh and humorous perspective to the most important vehicle to hit personal transportation since the horse. Bike Snob treats readers to a laugh-out-loud rant and rave about the world of bikes and their riders and offers a unique look at the ins and outs of cycling, from its history and hallmarks to its wide range of bizarre practitioners. Throughout, the author lampoons the missteps, pretensions, and absurdities of bike culture while maintaining a contagious enthusiasm for cycling itself. Bike Snob is an essential volume for anyone who knows, is, or wants to become a cyclist. "This is a social manual that should be bundled with every bike shipped in America." —Christian Lander, author of *Stuff White People Like* "I like to think I know a thing or two (or three) about being ruthless and relentless—either trying to win the Tour or fighting cancer. The Snob knows it too. Keeping us dorks in line is tough work. I take pleasure in getting picked on by the Snob, slightly more pleasure in reading his writing, but take the most pleasure punishing his ass (my payback) on the bike either in Central Park or on 9W/River Road. Long live the Snob." —Lance Armstrong
