Jan Paul Strid

*The Viking-age Rune-stones* Birgit Sawyer, 2000 There are over 3000 runic inscriptions on stone made in Scandinavia in the late Viking Age. This book is the first attempt by a historian to study the material as a whole. The analysis reveals significant regional variations that reflect different stages in the process of conversion, and the growth of royal power. Many monuments were declarations of faith or manifestations of status; but virtually all reflect inheritance claims, and cast unexpected light on the prehistory of the inheritance customs found in later Scandinavian law codes. The results of this analysis make a significant contribution to understanding developments in other parts of the Germanic world, as well as Scandinavia. The inclusion of a digest of the data-base on which this book is based will facilitate further study of this rich vein of evidence.

Myths of the Rune Stone David M. Krueger, 2015-10-01 What do our myths say about us? Why do we choose to believe stories that have been disproven? David M. Krueger takes an in-depth look at a legend that held tremendous power in one corner of Minnesota, helping to define both a community's and a state's identity for decades. In 1898, a Swedish immigrant farmer claimed to have discovered a large rock with writing carved into its surface in a field near Kensington, Minnesota. The writing told a North American origin story, predating Christopher Columbus's exploration, in which Viking missionaries reached what is now Minnesota in 1362 only to be massacred by Indians. The tale's credibility was quickly challenged and ultimately undermined by experts, but the myth took hold. Faith in the authenticity of the Kensington Rune Stone was a crucial part of the local Nordic identity. Accepted and proclaimed as truth, the story of the Rune Stone recast Native Americans as villains. The community used the account as the basis for civic celebrations for years, and advocates for the stone continue to promote its validity despite the overwhelming evidence that it was a hoax. Krueger puts this stubborn conviction in context and shows how confidence in the legitimacy of the stone has deep implications for a wide variety of Minnesotans who embraced it, including Scandinavian immigrants, Catholics, small-town boosters, and those who desired to commemorate the white settlers who died in the Dakota War of 1862. Krueger demonstrates how the resilient belief in the Rune Stone is a form of civil religion, with aspects that defy logic but illustrate how communities characterize themselves. He reveals something unique about America's preoccupation with divine right and its troubled way of coming to terms with the history of the continent's first residents. By considering who is included, who is left out, and how heroes and villains are created in the stories we tell about the past, *Myths of the Rune Stone* offers an enlightening perspective on not just Minnesota but the United States as well.

**The Book of Runes, 25th Anniversary Edition** Ralph Blum, 2008-11-11 The Book of Runes is something very special: a part of the ancient past and, perhaps, a part of your future... Based on a tradition over one thousand years old, the Runes are seen by many as

a contemporary Oracle and collectively, have established themselves as a remarkable aid in practical decision making. Blum has expanded and refined the runic system, making the Runes one of the most profoundly useful self-help tools of the new century.

**Rune Cards** Ralph Blum, 2004-01-15 This title is an introduction to the oracle of the Runes which can be used as a tool for self-counselling. The 25 cards represent the Runes themselves and can be used to guide you on a journey beyond the material to the creative and spiritual.

**Nordic Runes** Paul Rhys Mountfort, 2003-05-05 A comprehensive and practical guide to the ancient oracle based on the runic alphabet of the Norse • Reveals the symbolism and divinatory significance of the 24 rune staves • Provides clear instructions on how to craft your own rune stones • Explains the role of runes in the Norse wisdom tradition and its influence on such works as Tolkien's *Lord of the Rings* Nordic runes are a potent and profoundly transformative magic system that gives contemporary readers access to the ancient wisdom tradition of Northern European cultures. The runes have deep resonances within the pagan Norse world of gods and goddesses, giants, dwarves, warriors, and wizards, which have greatly influenced the work of J.R.R. Tolkien, among others. Norse tradition attributes the discovery of the runes to the All-Father Odin--a god of inspiration and secret wisdom and the mythical prototype for runecasters, who established the pattern for gaining his knowledge. *Nordic Runes* addresses three major areas: Runelore, the history of this 2000-year-old Norse oracle; Runestaves, the meaning of the individual runes of the Elder Futhark alphabet and their powerful mythological, magical, and practical lessons for daily life; and Runecasting, a comprehensive guide to the oracular application of the ancient runes, including their crafting, divination, and self-development. As *Nordic Runes* shows, the runes do more than simply reflect the path of fate; they help develop and enhance intuition. By learning to cast and interpret the runes, the user becomes receptive to the energy currents in material reality and empowered in the arts of its transformation.

**The Book of Runes** Francis Melville, 2016-09-29 Both an alphabet and tools of divination and magic, Norse runes are beautiful and iconic. Learn their meanings and how to use their magic.

*Runes for Beginners* Melissa Gomes, 2021-12-15 Everything You Need to Know to Interpret, Read and Cast Rune Stones Runes are enigmatic by nature. This is because the word rune itself originates from the Old Norse word *runa*, which means secret and comes likely from either the Proto-Germanic *runo*, which means secret or whisper. Since they are ancient symbols, the runes mean little to the untrained eye. But with practice and a little experience with them, you can activate their magical energies to create positive, impactful change in your life. Even so, what are runes exactly? Runes were considered magical symbols used by spirits to communicate with humanity. Not only are runes considered a writing system, but they are engraved stones used to perform magical spells, cast divination, and even add power to conventional writing. The runic alphabet is referred to as the Futhark and consists of 24 symbols. Runic inscriptions are found all over the world, but especially in Northern Europe. The runic alphabet is broken down into three groups: The Younger Futhark (16 symbols), the Elder Futhark (24 symbols) and the Anglo-Saxon Futhark (between 26 and 33 symbols). The knowledge of runes has been passed down through the centuries, and it is an important form of divination for modern pagans. In *Runes for*

Beginners, best-selling author Melissa Gomes explores the history and mythology of the runes, as well as their day-to-day uses in divination, magic, and witchcraft. *Runes for Beginners* is completely accessible to those with no experience in Norse mythology, heathenry or paganism. It is written with an eye toward those starting on their journey into the Viking spirit. Melissa provides a basic introduction to runes and their lore, and she explains how to get in touch with them through the senses. You will emerge from this guide with a solid understanding of the Nordic runes' role in heathenry and with a firm foundation of knowledge to build your own runic practice, regardless of your religious or spiritual pagan path. The rune symbols are central to Nordic pagans' magical systems and can be used in various ways depending upon the tradition and your intent. Each runic symbol represents a specific type of energy, and these energies can be used to achieve a multitude of goals, spanning from protection to fertility, wisdom, or love. Runes can be used as divination tools in the ordinary sense that we use tarot cards today, or in a magical sense to interpret fate. In *Runes for Beginners*, you'll learn how to use runes for divination, magic, and witchcraft, including:

- History of runes and their role in Norse Magic
- The origins of rune wisdom in Norse Mythology
- An overview of the Elder Futhark runes, including their names and magical uses
- Elder Futhark rune meanings for both divination and spellwork
- Tips for successful divination
- Rituals for casting the runes

Mastering runes can be a lifelong journey, but this book will get you started on the right path. 3 Bonuses are included in the book as well, so go check them out! **Rune Stones for the New Ages** Ronald Kaufmann, 1987

**Nightside of the Runes** Thomas Karlsson, 2019-02-12 Reveals the occult wisdom and multidimensional layers of meaning hidden in the Nordic Rune stones • Explores the practice of the Uthark divination system encoded within the traditional exoteric Futhark system of reading the runes • Traces the relationship between the rune stones and numerology, the Cabbala, alchemy, Gothicism, and sigil magic • Examines the history of the runes and the ancient spiritual mysticism of Odin Uncovering the dark side of the Nordic rune stones hidden beneath their traditional interpretation, Swedish scholar and runologist Thomas Karlsson examines the rune work of Swedish mystic and runologist Johannes Bureus (1568-1652) and professor Sigurd Agrell (1881-1937), both of whom devoted their lives to uncovering the secret uses of rune stones concealed from all but the highest initiates. Karlsson begins by examining the Uthark system of divination--the Left Hand Path of the runes--that lies hidden under the traditional Futhark system. According to the lore of Uthark, a cryptographic ruse was used to make it impossible for the uninitiated to know the true order of the runes. Exploring Agrell's decryption of the Uthark system, Karlsson reveals similarities between the numerology of ancient mystery cults and the Runic tradition. He explains the multidimensional meaning of each rune from the Uthark perspective, their relationships with the nine worlds of Norse cosmogony, and the magical powers of runes--rows and the three aettir rune groupings. He details how to create your own magically-charged runes, direct and activate the force of the runes, and use them for rune meditation, divination, sigil magic, galders (power songs), and rune yoga. Karlsson also examines the secret dimensions of the 15 "noble" runes, the Adulrunes, based on the theories of Johannes Bureus. Using his knowledge of the Cabbala and alchemy, Bureus created magical symbols with the Adulrunes as well as one symbol containing all 15 Adulrunes, which Bureus called the "Adulruna." Karlsson explains Bureus' spiritual system of initiation, the Gothic Cabbala, revealing the connections between old Norse wisdom and the Cabbala. He explores Bureus' Adulrune practices and explains how Bureus outlined

seven levels of meaning for each rune, with those initiated into the highest rune levels able to conjure spirits and raise the dead. Covering more than just rune practices, Karlsson's exploration of the dark or night side of the runes provides a comprehensive guide to Norse spirituality and the ancient spiritual mysticism of Odin.

Days, weeks, months, or even years later, go back to revisit whatever was going on in your life. Rune Stones Channel Intuition Most of us have ESP, but in our culture we haven't used it in so long that the ability is hidden away, rusting from disuse. While we may no longer need our intuition to sense the presence of a prowling saber-toothed tiger, we might instead focus the energy on how to best approach a grumbling life's partner, a difficult co-worker, or make a business decision. Use Intuition to Better Your Life Naturally, when ESP breaks through, it's inconsistent, inaccurate-and hard to trust. However, reading runes exercises intuition muscles. So naturally it follows, over time, intuition becomes more consistent and reliable.

*Goddess Runes* P. M. H. Atwater, 1996 This comprehensive guide to the casting and divination of rune stones includes a unique set of ancient Nordic runes which invites readers to explore the profound power of their own feminine inner wisdom and intuition. The book clearly explains how to create and care for one's own set of runes, as well as how to cast, read, and interpret the stones.
