What is one of the first things to learn when you study a foreign language? The alphabet, of course. There are 33 letters in the modern Russian alphabet. 10 of them are vowels (а, е, ё, и, о, у, ы, э, ю, я),1is semi vowel, 20 are consonants and 2 signs (hard and soft) that are not pronounced, used as a modifier that alter a preceding consonant . Russian alphabet is just one of many more or less similar Cyrillic alphabets. Since Russian alphabet is the most widespread variation of Cyrillic people often think that these two are the same thing. Cyrillic alphabets form a large alphabet family or Cyrillic writing system. You may feel that using English as a common language, it won't matter whether your children learn Russian or not. How can parents support their child's learning process? Here the solution is! This book enables your kids to practice and learn letters, words in an interesting way. Content of the book: For each alphabet letter there will be a page. - 1st page has an outline of a letter with the image that starting with that letter, name in Russian, English with the phonics of Russian name and image. - The children can color the letter and images that are allocated for each letter. - 2nd page is for next alphabet. - This book has similar setup for all the alphabets till page number 35. - Pages 36-51 contains all alphabets in single pages with space for practice. - 51-70 is having box spaces to practice Russian alphabet further.
