William Ernest Henley

Chaucer 1340-1400 Richard West, 2000 The year of the millennium marks the 600th anniversary of the death of Geoffrey Chaucer. This first poet of the English language stands before the gateway of the early modern age at a time when the elite languages of French and Latin were giving way to the vernacular of the common people. Richard West weaves a fascinating picture of a man whose own character has always puzzled lovers of his comic masterpiece, *The Canterbury Tales*. How did he remain so apparently cheerful and serene through one of the cruellest eras of history? As a child he survived the Black Death, later he fought in France during the Hundred Years War, served as a diplomat in Italy, and became an MP at the time of the Peasants' Revolt and the murder of Richard II. Richard West sees Chaucer as the creator not only of English poetry, but of the national character and humour, the forerunner of Shakespeare and Dickens - in many ways, as the first Englishman.

The Literary Lineage of the King James Bible, 1340-1611 Charles C. Butterworth, 2018-01-09 This book is a volume in the Penn Press Anniversary Collection. To mark its 125th anniversary in 2015, the University of Pennsylvania Press rereleased more than 1,100 titles from Penn Press's distinguished backlist from 1899-1999 that had fallen out of print. Spanning an entire century, the Anniversary Collection offers peer-reviewed scholarship in a wide range of subject areas.

Boccaccio and the Book Rhiannon Daniels, 2017-07-05 As a new digital era increasingly impacts on the 'age of print', we are ever more conscious of the way in which information is packaged and received. The influence of the material form on the reading process was no less important during the gradual shift from manuscript to early print

culture. Focusing on the physical structure and presentation of manuscripts and printed books containing texts by one of the most influential authors of the medieval period, Rhiannon Daniels traces the evolving social, cultural, and economic profile of Boccaccio's readership and the scribes and printers who laboured to reproduce three of his works: the *Teseida* , *Decameron* , and *De mulieribus claris* . Rhiannon Daniels is a British Academy Postdoctoral Fellow in the Department of Italian at the University of Leeds.

The Growth of English Schooling, 1340-1548 Jo

Ann Hoeppner Moran, 2014-07-14 In contrast to the prevailing view, this book reveals the educational revolution of the 1500s to have grown from an earlier expansion of elementary and grammar education in the fourteenth, fifteenth, and early sixteenth centuries. Originally published in 1985. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Making of the West, Volume B: 1340-1830

Lynn Hunt, Thomas R. Martin, Barbara H. Rosenwein, Bonnie G. Smith, 2012-01-04 Students of Western civilization need more than facts. They need to understand the cross-cultural, global exchanges that shaped Western history; to be able to draw connections between the social, cultural, political, economic, and intellectual happenings in a given era; and to see the West not as a fixed region, but a living, evolving construct. These needs have long been central to

The Making of the West. The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context, enabling students to witness the unfolding of Western history, understand change over time, and recognize fundamental relationships.

The Portuguese in the Age of Discovery c.1340-1665

David Nicolle, 2012-11-20 From humble beginnings, in the course of three centuries the Portuguese built the world's first truly global empire, stretching from modern Brazil to sub-Saharan Africa and from India to the East Indies (Indonesia). Portugal had established its present-day borders by 1300 and the following century saw extensive warfare that confirmed Portugal's independence and allowed it to aspire to maritime expansion, sponsored by monarchs such as Prince Henry the Navigator. During this nearly 300-year period, the Portuguese fought alongside other Iberian forces against the Moors of Andalusia; with English help successfully repelled a Castilian invasion (1385); fought the Moors in Morocco, and Africans, the Ottoman Turks, and the Spanish in colonial competition. The colourful and exotic Portuguese forces that prevailed in these battles on land and sea are the subject of this book.
