Flash Math Creativity Jared Tarbell, Mary Ann Tan, Fay Rhodes, Keith Peters, Kip Parker, Connor McDonald, Ty Lettau, Brandon Williams, Paul Prudence, Ken Jokol, Pavel Kaluzhny, JD Hooze, David Hirmes, Gabriel Mulzer, 2013-12-16 It all revolves around Flash and math. It's what you do in your spare time: just take little ideas and mess around with them. This is a book of inspiration, beautiful enough to leave on the coffee table, but addictive enough to keep by your computer and sneak out while no-one's looking so you can go back to that movie that you were tinkering with 'til three o'clock this morning. It's a fun book. It's a book of iterative experiments, generative design. Each author does four experiments. Each experiment takes up four pages. We give you the code and explain the essence, then you take away your inspiration and run with it. The purpose of the book is to learn through experimentation because you are inspired to do so, not because someone is telling you to do so. Follow the [fmc](#) site link for more information.

Israeli Politics and the Middle East Peace Process, 1988-2002 Hassan A. Barari, 2004-07-31 The book is a fresh interpretation of Israeli foreign policy vis-à-vis the peace process, one that deems domestic political factors as the key to explain the shift within Israel from war to peace. The main assumption is that peacemaking that entails territorial compromise is an issue that can only be completely comprehended by understanding the interaction of domestic factors such as inter-party politics, ideology, personality and the politics of coalition. Although the bulk of the book focuses on how internal inputs informed the peace process, the book takes into account the external factors and how they impacted on the internal constellation of political forces in Israel.

Fertility Policy in Israel Jacqueline Portugese, 1998-08-30 An examination, with feminist perspective, of Israel's fertility practices and policies surrounding abortion, family planning, in vitro fertilization and the welfare state. This book exposes the complex web of issues, actors, and power relations that shape the Israeli political agenda. At the same time, it contributes to ongoing feminist debates concerning the politics of reproduction and the role of the state in contributing to the oppression of women. Israel's commitment to Zionist ideals and policies, its ambiguous relationship with Jewish Orthodoxy, and the intersection of the two at the level of gender relations have played a great role in determining the shape, scope, and direction of many government policies. This book explores the relationship between these three ideological and institutional forces in the context of development of fertility policy. In the process, it touches upon various points of interest, including the state's treatment of the Palestinian Arab minority and its relationship with the wider Palestinian national movement; the power relations and political agenda underlying policy-making in Israel; the development of Israeli social and political identity; and the use of gender to explain both the status of Israeli women and the overall unfolding of politics and policy-making.

Democratic Citizenship and War Yoav Peled, Noah Lewin-Epstein, Guy Mundlak, Jean Cohen, 2014-06-03 This edited volume explores the theoretical and practical implications of war and terror situations for citizenship in democratic states. Citizenship is a key concept in Western political thought for defining the individual's relations with society. The specific nature of these rights, duties and contributions, as well the relations between them, are determined by the citizenship discourses that prevail in each society. In wartime, including low-intensity wars, democratic societies face different challenges than the ones facing them during peacetime, in areas such as human rights, the status of minorities, the state's obligations to its citizens, and the meaning of social solidarity. War situations can affect not only the scope of citizenship as an institution, but also the relations between the prevailing discourses of citizenship and between different groups of citizens. Since 9/11 and the declaration of the 'war on terror', many democracies have been grappling with issues rising out of the interface between citizenship and war. This

volume examines the effects of war on various aspects of citizenship practice, including: immigration and naturalization, the welfare state, individual liberties, gender relations, multiculturalism, social solidarity, and state – civil society relations. This book will be of great interest to students of military studies, political science, IR and security studies in general.

This volume presents results from an AMS Special Session held on the topic in Gainesville (FL). Papers included are written by an international group of well-known specialists who offer an important cross-section of current work in the field. In addition there are two expository papers that provide an avenue for non-specialists to comprehend problems in this area. The breadth of research in this area is evident by the variety of articles presented in the volume. Results concern probability on Lie groups and general locally compact groups. Generalizations of groups appear as hypergroups, abstract semigroups, and semigroups of matrices. Work on symmetric cones is included. The Gentleman Bastard Books One and Two Scott Lynch,2013-10-31 With the long-awaited release of THE REPUBLIC OF THIEVES upon us, now is the perfect time to

go back and see where it all began, in the first two books of the GENTLEMEN BASTARD series. THE LIES OF LOCKE LAMORA: They say that the Thorn of Camorr can beat anyone in a fight. They say he steals from the rich and gives to the poor. They say he's part man, part myth, and mostly street-corner rumor. And they are wrong on every count. Only averagely tall, slender, and god-awful with a sword, Locke Lamora is the fabled Thorn, and the greatest weapons at his disposal are his wit and cunning. He steals from the rich - they're the only ones worth stealing from - but the poor can go steal for themselves. What Locke cons, wheedles and tricks into his possession is strictly for him and his band of fellow con-artists and thieves: the Gentleman Bastards. RED SEAS UNDER RED SKIES: Escaping from the attentions of the Bondsmagi Locke Lamora, the estwhile Thorn of Camorr, and Jean Tannen have fled their home city. Taking ship they arrive in the city state of Tal Varrar where they are soon planning their most spectacular heist yet; they will take the luxurious gaming house, The Sinspire, for all of its countless riches. No-one has ever taken even a single coin from the Sinspire that wasn't won on the tables or in the other games of chance on offer there. But if anyone can, it is Locke and Jean...

Foundations of Intelligent Tutoring Systems Martha C. Polson,J. Jeffrey Richardson,2013-04-15 This collection of essays -- each of which treats an integral aspect of the field -- defines several key concepts and their interrelationships, outlines basic research issues, and discusses near-term applications projects. The book examines three foundations of ITSs in detail -- expert, student diagnostic, and instructional or curricular knowledge -- and describes: * How they are embodied in computer-assisted instructional environments * How these systems accrue the advantages of advanced computer interface technologies * How ITSs will emerge in the real world of complex problem solving * How researchers must learn to evaluate the effectiveness and overall quality of these dynamic systems in a world where machine tutoring may one day be taken for granted. The Stars at War II David Weber, Steve White, 2005-07-01 TWO NOVELS IN THE NEW YORK TIMES BEST-SELLING SERIES IN ONE VOLUME¾INCLUDING THE FIRST COMPLETE AND UNCUT PUBLICATION OF THE NOVEL INSURRECTION The Shiva Option: The war wasn't going well. The alien Arachnids were an enemy whose like no civilized race had ever confronted, overrunning planet after planet. The Bugs regarded any sentient species as a handy protein source. Defeat was not an option. The Grand Alliance of Humans and other races has been driven to the wall. Whatever they do, the Bugs just keep coming. Reluctantly, they now must reactivate General Directive 18, however horrible it may be. Because when the only possible outcomes are victory or racial extermination, only one option is acceptable: The Shiva Option. *Insurrection*: And peace isn't always wonderful. Once the enemy was defeated, the central governments of the Inner Worlds were anything but willing to relinquish their wartime powers. To insure that their grip on the reins of power remained firm, the establishment plans to allow the non-human beings of the Khanate to join the Federation, thus reducing the Fringe Worlds voting bloc to impotent minority status. The ruthless bureaucrats of the Corporate Worlds are smugly confident that this power play will keep the colonial upstarts in their place. But the Fringers have only one answer to that: *Insurrection* At the publisher's request, this title is sold without DRM (Digital Rights Management).
