Sing Musicals: A History Of Singapore Musical Theatre Kenneth Lyen, 2023-07-21 This is the first book documenting the history of the Singapore musical. It aims not only to portray what the Singapore theatre scene was like in the past, but also how the stories and language used can capture its culture, art and social life. The first musicals appeared in 1988 and for the next couple of decades there has been a flourishing of new musicals. However, this was stalled for three years during the COVID-19 pandemic with the closure of theatres. Recovery is starting again and there is a renaissance in creativity with new musicals being written and staged. This book covers original Singapore stage musicals, pantomimes, operas, movies and college musicals. It also touches on Chinese language musicals. Important playwrights, lyricists, composers, producers and directors are highlighted in the book. It ends by proposing several ways to stimulate further creation of new musicals which will have an impact on the evolution of Singapore's musical theatre. Initially influenced by Broadway and West End musicals, Singapore has evolved into its own unique style of presentation. Documentation of this development is important. The final chapter recommends how musicals can be developed further, and this can have a significant impact on the creation of future Singapore musicals. The Foreword is written by Professor Tommy Koh, the Founder President of the National Arts Council of Singapore.

Real Sadhus Sing to God Antoinette E. DeNapoli, 2014 Drawing on ethnographic research spanning ten years, Antoinette Elizabeth DeNapoli offers a new perspective on the practice of asceticism in India today. Her work brings to light the little known and often marginalized lives of female Hindu ascetics (sadhus) in the North Indian state of Rajasthan. Examining the everyday religious worlds and practices of the mostly unlettered female sadhus, who come from a number of castes, *Real Sadhus*

Sing to God illustrates that these women experience asceticism in relational and celebratory ways. They construct their lives as paths of singing to God, which, the author suggests, serves as the female way of being an ascetic. Examining the relationship between asceticism (sannyas) and devotion (bhakti) in contemporary contexts, the book brings together two disparate fields of study- yoga/asceticism and bhakti-using the singing of bhajans (devotional songs) as an orienting metaphor. This is the first book-length study to explore the ways in which female sadhus perform and thus create gendered views of asceticism through their singing, storytelling, and sacred text practices, which DeNapoli characterizes as their rhetoric of renunciation.

Phase Theory Ángel J. Gallego, 2010 This book provides a detailed and up to date review of the framework of phases (Chomsky 2000 and subsequent work). It explores the interaction between the narrow syntactic computation and the external systems from a minimalist perspective. As has sometimes been noted, Phase Theory is the current way to study the cyclic nature of the system, and 'phases' are therefore the natural locality hallmark, being directly relevant for phenomena such as binding, agreement, movement, islands, reconstruction, or stress assignment. This work discusses the different approaches to phases that have been proposed in the recent literature, arguing in favor of the thesis that the points of cyclic transfer are to be related to uninterpretable morphology (the ?-features on the heads C and v*). This take on phases is adopted in order to investigate raising structures, binding, subjunctive dependents, and object shift (word order) in Romance languages, as well as the nature of islands.

Imagine Humpty Dumpty enjoying kaya toast, Jack and Jill grilling satay on a hill and the three blind mice eating chicken rice at the hawker centre. Wouldn't that be a funny sight? Cheeky illustrations highlight aspects of Singapore hawker culture that children will have fun identifying. Young readers (and not so young ones) can sing or read these hawker food rhymes and follow the familiar rhythms, while naming the well-loved hawker fare that appear in the rhymes.

I Play & Sing Melvin Stuart Ferdinands, Joseph Kelly Ferdinands, 2012-05-18 Stalwarts of the local music scene, Mel & Joe have played, sung and done it all. Household names since they first appeared on television in 1971, Mel & Joe are not only two of Singapore's best-loved musical talents, they are living proof of our rich musical past and vibrant present. From the early days of Talentime and the black-and-white broadcasts of RTS (Radio Television Singapore) to their glorious heydays with one of Singapore's top bands, Gypsy, they continue to rock on with passion. Throughout their musical journey, family support – parents, siblings, wives and daughters – has been instrumental in giving them the love and inspiration that was needed to strive to continue to be the best they can be

musically. Music brings the brothers even closer, and at the same time, continues to forge a strong spirit of camaraderie that they share with their audiences.

A Grammar of Central Alaskan Yupik (CAY) Osahito Miyaoka,2012-12-06 The volume is a major grammar of Central Alaskan Yupik (CAY). It is the culmination of the author's linguistic studies done in Alaska and elsewhere since around 1960, with assistance of many native speakers. Central Alaskan Yupik is currently the most vigorous of the nineteen remaining Native Alaskan languages. Descriptive in nature, extensive and deep, this grammar is of typological and of ethnological/anthropological interest. Given the severely endangered state of the language, this much of descriptive linguistic material is without comparison in the field.

Speech Acts and Clause Types Peter Siemund, 2018 This book is an introduction to the relationship between the morphosyntactic properties of sentences and their associated illocutionary forces or force potentials. The volume begins with several chapters dedicated to important theoretical and methodological issues, such as sentence and utterance meaning, illocutionary force, clause types, and cross-linguistic comparison. The bulk of the book is then composed of chapter-length case studies that systematically investigate typologically prominent clause types and their forces, such as declaratives and assertions, interrogatives and questions, and imperatives and commands. These case studies begin with an overview of the necessary theoretical foundations, followed by a discussion of the grammatical structures of English, and an assessment of the relevant cross-linguistic facts. Each chapter ends with a succinct summary of the most important findings, practice exercises, and recommendations for further reading and research. Overall, the book works towards developing a gradient model of clause types that goes substantially beyond the traditional distinction between major and minor clause types. It draws on insights from linguistics, philosophy, and sociology, and may be used as a textbook for undergraduate or graduate courses in semantics, pragmatics, and morphosyntax.

Cross-Categorical Classification Serge Sagna, 2022-03-07 Languages in which non-finite verbs (infinitives, gerunds etc.) are classified using the same linguistic means as nouns are rare. This typologically unusual phenomenon is found in some Atlantic (Niger-Congo) languages, including Jóola

languages like Eegimaa, Fogny and Kwatay, where several different noun class/gender prefixes (NCPs) are used to classify both nouns and verbs. In this book, it is argued following Sagna (2008), that these parallel morphosyntactic classifications in the nominal domain and verbal domains also reflect parallel semantic categorisation of entities and events. The main topics investigated in this book are word class flexibility between nouns and verbs, non-finiteness, noun class/gender (where morphological classes are analysed separately from agreement classes) and the semantic principles underlying the categorisation of entities and events. One of the central findings proposed in this book is that instances of NCP alternations on non-finite verbs reflect strategies of event delimitation. This book will be of interest to scholars investigating parts-of-speech systems, finiteness, systems of nominal and verbal classification, and linguistic categorization.

Translating the Hebrew Bible in Medieval Iberia Esperanza Alfonso, Javier del Barco, 2021-10-25 Translating the Hebrew Bible in Medieval Iberia provides the princeps diplomatic edition and a comprehensive study of Oxford, Bodleian Library, MS Hunt. 268. The manuscript, produced in the Iberian Peninsula in the late thirteenth century, features a biblical glossary-commentary in Hebrew that includes 2,018 glosses in the vernacular and 156 in Arabic, and to date is the only manuscript of these characteristics known to have been produced in this region. Esperanza Alfonso has edited the text and presents here a study of it, examining its pedagogical function, its sources, its exegetical content, and its extraordinary value for the study of biblical translation in the Iberian Peninsula and in the Sephardic Diaspora. Javier del Barco provides a detailed linguistic study and a glossary of the corpus of vernacular glosses.
