Shockproof Sydney Skate Marijane Meaker,M. E. Kerr,2014-04-29 A uniquely witty novel exploring sex, freedom, and the process of growing up Sydney Skate considers himself shockproof. For as long as he can remember, he's known that his fashionable Manhattan mother is secretly a lesbian, although

he's never let on that he knows. He spends his summer days caring for snakes at the local pet shop before leaving for college at Cornell, shrugging off his father's demands that he skip college and join the exciting world of swimming pool sales for suburbanites. Far from throwing himself into work, Sydney can't seem to keep his thoughts from wandering to women. He has memorized the sex scenes of every book he's ever read in order to better seduce the opposite gender. When he's called to help remove a snake from a bathtub that belongs to the gorgeous and sophisticated Alison Gray, everything changes. But nothing could prepare him for his glamorous mother sweeping the girl of his dreams off her feet. This hypnotizing coming-of-age story captures the timeless ecstasies and struggles of adolescence, and has been a classic of lesbian literature since it was first published in 1973. Hailed as the *Catcher in the Rye* of the seventies, *Shockproof* Sydney Skate exposes the confusion of its time and remains keenly relevant to the sexual absurdities of today. This ebook features an illustrated personal history of Marijane Meaker including rare images from the author's collection.

Judge Me Nottingham Joan Bartlett, 2002-03 Nice Skates, an ice arena on the very edge of the Pacific Ocean, was holding the Pacific Coast Championships

in December, 1994. It was the qualifying competition for the 1995 Nationals. Many great skaters were in attendance, as well as some very important judges. One was from the Nice Skates' home town of Portugal, California, Judge Melissa Elizabeth Nottingham. Then, just minutes before the start of the final round of judging for the Senior Ladies competition, Judge Nottingham is found dead in the pros' room sitting by the fireplace in a Queen Anne chair. It's the last night of competition with a rink jam-packed with 5,000 spectators, parents, coaches and competitors (many of whom did not like Melissa Elizabeth). The final event is ready to start, and Berrien has a murdered Judge on her hands. Berrien is a skating coach as well as the co-owner of the ice arena. She found the body—the second at the rink in less than two years—and becomes involved, once again, with the county sheriff deputies including tall, handsome and short-tempered Sean Mather. Skating episodes and an intriguing murder investigation crown this new addition to the Nice Skates Ice Skating Mystery Series.

Skate Michael Harmon, 2008-02-12 There's not much keeping Ian McDermott in Spokane, but at least it's home. He's been raising Sammy practically on his own ever since their mom disappeared again on one of her binges. They get by, finding just enough to eat and plenty of time to skateboard. But at Morrison High, Ian is getting the distinct, chilling feeling that the administration wants him and his board and his punked hair gone. Simply gone. And when his temper finally blows—he actually takes a swing at Coach Florence and knocks

him cold—Ian knows he's got to grab Sammy and skate. Run. Their search for the one relative they can think of, their only hope, leads Ian and Sammy across the entire state of Washington in the cold and rain—and straight into a shocking discovery. Through it all, Ian knows exactly what he has to do: protect Sammy, and let no one split up their family of two. Michael Harmon tells a nuanced and unflinching story of wilderness survival, the fierce bond between brothers, and teen rage—and redemption.

Skate Life Emily Chivers Yochim, 2010-05-25 Intellectually deft and lively to read, *Skate Life* is an important addition to the literature on youth

cultures, contemporary masculinity, and the role of media in identity formation. ---Janice A. Radway, Northwestern University, author of *Reading the Romance: Women, Patriarchy, and Popular Literature* With her elegant research design and sophisticated array of anthropological and media studies approaches, Emily Chivers Yochim has produced one of the best books about race, gender, and class that I have read in the last ten years. In a moment where celebratory studies of youth, youth subcultures, and their relationship to media abound, this book stands as a brilliantly argued analysis of the limitations of youth subcultures and their ambiguous relationship to mainstream commercial culture. ---Ellen Seiter, University of Southern California Yochim has made a valuable contribution to media and cultural studies as well as youth and American studies by conducting this research and by coining the phrase 'corresponding cultures,' which conceptualizes the complex and dynamic processes skateboarders employ to negotiate their identities as part of both mainstream and counter-cultures. ---JoEllen Fisherkeller, New York University *Skate Life* examines how young male skateboarders use skate culture media in the production of their identities. Emily Chivers Yochim offers a comprehensive ethnographic analysis of an Ann Arbor, Michigan, skateboarding community, situating it within a larger historical examination of skateboarding's portrayal in mainstream media and a critique of mainstream, niche, and locally produced media texts (such as, for example, *Jackass*, *Viva La Bam*, and *Dogtown and Z-Boys*). The book uses these

elements to argue that adolescent boys can both critique dominant norms of masculinity and maintain the power that white heterosexual masculinity offers. Additionally, Yochim uses these analyses to introduce the notion of corresponding cultures, conceptualizing the ways in which media audiences both argue with and incorporate mediated images into their own ideas about identity. In a strong combination of anthropological and media studies approaches, Skate Life asks important questions of the literature on youth and provides new ways of assessing how young people create their identities. Emily Chivers Yochim is Assistant Professor in the Department of Communication Arts, Allegheny College. Cover design by Brian V. Smith

Hawk Tony Hawk, Sean Mortimer, 2010-09-21 For Tony Hawk, it wasn't enough to skate for two decades, to invent more than eighty tricks, and to win more than twice as many professional contests as any other skater. It wasn't enough to knock himself unconscious more than ten times, fracture several ribs, break his elbow, knock out his teeth twice, compress the vertebrae in his back, pop his bursa sack, get more than fifty stitches laced into his shins, rip apart the cartilage in his knee, bruise his tailbone, sprain his ankles, and tear his ligaments too many times to count. No. He had to land the 900. And after thirteen years of failed attempts, he nailed it. It had never been done before. Growing up in Sierra Mesa, California, Tony was a hyperactive demon child with an I44 IQ. He threw tantrums, terrorized the nanny until she quit, exploded with rage whenever he lost a game; this was a kid who was expelled from preschool. When his brother, Steve, gave him a blue plastic hand-me-down skateboard and his father built a skate ramp in the driveway, Tony finally found his outlet--while skating, he could be as hard on himself as he was on everyone around him. But it wasn't an easy ride to the top of the skating game. Fellow skaters mocked his skating style and dubbed him a circus skater. He was so skinny he had to wear elbow pads on his knees, and so light he had to ollie just to catch air off a ramp. He was so desperate to be accepted by

young skating legends like Steve Caballero, Mike McGill, and Christian Hosoi that he ate gum from between Steve's toes. But a few years of determination and hard work paid off in multiple professional wins, and the skaters who once had mocked him were now trying to learn his tricks. Tony had created a new style of skating. In Hawk Tony goes behind the scenes of competitions, demos, and movies and shares the less glamorous demands of being a skateboarder--from skating on Italian TV wearing see-through plastic shorts to doing a demo in Brazil after throwing up for five days straight from food poisoning. He's dealt with teammates who lit themselves and other subjects on fire, driving down a freeway as the dashboard of their van burned. He's gone through the unpredictable ride of the skateboard industry during which, in the span of a few years, his annual income shrank to what he had made in a single month and then rebounded into seven figures. But Tony's greatest difficulty was dealing with the loss of his number one fan and supporter--his dad, Frank Hawk. With brutal honesty, Tony recalls the stories of love, loss, bad hairdos, embarrassing '80s clothes, and his determination that had shaped his life. As he takes a look back at his experiences with the skateboarding legends of the '70s, '80s, and '90s, including Stacy Peralta, Eddie Elguera, Lance Mountain, Mark Gonzalez, Bob Burnquist, and Colin McKay, he tells the real history of skateboarding--and also what the future has in store for the sport and for him.

Skate With Me Austin Bates, 2017-07-19 Nolan worked his whole life to get

there. Qualifying for the National Figure Skating Championships was the brass ring he had reached so desperately for - training incessantly, suffering agonizing injuries, heartbreaking losses, and eventually, his potentially life-altering qualification. But the night before he is set to take to the ice, his long-time lover shatters his heart - along with his concentration. The rising star suffers a wrenching defeat - only to find out soon thereafter that he's carrying the baby of his former paramour. Enter Matthew, the devastatingly attractive up-and-coming alpha figure skater. Matthew rolls into town and begins training alongside Nolan, and the two quickly begin to hunger for one another. As their romance develops, Nolan makes a decision: he's keeping his baby, and quitting skating for good. But he neglects to tell Matthew about the baby until after they've slept together. When Matthew discovers the truth, the revelation proves too distracting; he leaves town to prepare alone for his upcoming regional competition. But for Matthew, the distance doesn't help - the beautiful omega is never far from his thoughts. When heartbreak and disappointment lead to unexpected passion, two men begin to discover that sometimes one road's end can lead to the beautiful beginning of another. Unbridled passion meets dogged determination in this 50,000 word gay mpreg alpha/omega romance novel. Gliding gracefully through choreographed scenes of uninhibited lust, Skate With Me is exclusively intended for adult audiences.

Skateboarding According to 'Cj' Christopher Johnson, 2017-08-04 Hey my name is Christopher 'CJ' Johnson; in this book I offer some of the basic things that beginner skateboarders need to master before they get to the tricks and the stunts. Always remember that safety comes first, this book offers the fundamentals, which is the best weapon to avoid accidents or injury while skateboarding. The journey started when I was about six years old and I first picked up a skateboard. I can still remember how it felt riding downhill near my house. While all of my other friends were off doing other things, I just found it exhilarating. When I wasn't skateboarding, I would watch professional skateboarders on television, like Tony Hawk, Terry Kennedy, and Rodney Mullen, and how much people loved them as they were whisked away from one part of the globe to another, all with just a skateboard in hand. I

always wanted to be like them, to practice like them, to travel around the world and visit all the famous skateboard parks. My own professional skateboarding career started to truly blossom around the age of twelve with the guidance of the stars and their alternating methods. In fact, I think of myself as still learning every day, and embrace every second of my passion. Skateboarding takes practice and skill, and a tough body to handle the bumps and bruises along the way. It has taken me many years to learn and that's just touching the surface of what the greats have accomplished in their own lives. Skateboarding is my calling; a good method of exercise, and the best method of transportation available, as you don't have to wait around for public transportation or worry about the high expenses related to owning a car. All you do is pick up your skateboard and hit the road. It's a good stress relief, It's funny looking back, my mom always wanted to drive me to the places I needed to go that were a mile or two out of the way, but I refused the ride. I was too attached to my board. If I was upset about something that happened in my day I would skate around for a few hours and let myself calm down, or practice just as hard. I often spent countless days a week and sometimes even months, practicing one trick. Granted, it wasn't the only thing I engaged in. On top of skateboarding, I had a video-editing gig that helped to get me where I am today. Just me and my film crew of friends, who got passionate about it, the first time we watched video game clips on YouTube. Certain video streams always seemed to have a boatload of

subscribers and they did every little thing you could imagine with the music, the characters, and even the voice-overs. I always got chills when I noticed how the music seemed to fit right in place with what the character on the screen was doing, and then the added special effects were edited in to give it a real bang. I mean it was just cool, the stuff these guys could do with a computer. So I picked up the job with all the enthusiasm I had in me. And still at the age of twelve, I made my own YouTube channel. I was eventually picked up by a very popular YouTuber and asked to do video manipulations for them. I became really good at it and not only the people who hired me for the task thought so, but also friends on my Xbox live account. Can you imagine just how cool it is to have someone send you a message or ask you in the middle of a game, Hey, aren't you CJ . . . the one who edited that video? It felt great to be recognized, like I was suddenly becoming my own celebrity. I loved the recognition, my subscribers also loved that I was always around for them to talk to. However, I was forced to abandon my YouTube account when personal issues came up. It was a wonderful experience for me as it helped me become a huge hit-not just in the gaming phase, but also in real life skating and the videos that came of it. I look forward to many more wonderful opportunities that life has to offer now that I'm officially an adult!

Skate, Me and the Big Gray Sea Renee Hinchey, 2023-11-30 A delightful rhyming story that beautifully illustrates the challenges of starting school and having color vision deficiency . Through the eyes of a young child, we

see how love and kindness make all the difference in dealing with an exceptionality. This light-hearted story is meant to entertain as well as educate others about colorblindness, highlighting the unique traits that make us different but yet connect us all. Did you know that there will be at least one child with color vision deficiency in every classroom? Most teachers have not had training in color blindness and some won't know that there are different types and varying degrees. Color blindness could be considered a disability by the Americans with Disabilities Act (ADA) and there might be accommodations that can be put in place to assist in the classroom. If you suspect that your child is colorblind, seek guidance from a medical professional, and let educators working with your child know. Talk to your child about self advocacy and empower them to speak up.

Mo' Meta Blues Ahmir "Questlove" Thompson, Ben Greenman, 2013-06-18 You have to bear in mind that [Questlove] is one of the smartest motherf*****s on the planet. His musical knowledge, for all practical purposes, is limitless. -- Robert Christgau **MO' META BLUES** The World According to Questlove Mo' Meta Blues is a punch-drunk memoir in which Everyone's Favorite Questlove tells his own story while tackling some of the lates, the greats, the fakes, the philosophers, the heavyweights, and the true originals of the music world. He digs deep into the album cuts of his life and unearths some pivotal moments in black art, hip hop, and pop culture. Ahmir Questlove Thompson is many things: virtuoso drummer, producer, arranger, Late Night with Jimmy Fallon

bandleader, DJ, composer, and tireless Tweeter. He is one of our most ubiquitous cultural tastemakers, and in this, his first book, he reveals his own formative experiences--from growing up in 1970s West Philly as the son of a 1950s doo-wop singer, to finding his own way through the music world and ultimately co-founding and rising up with the Roots, a.k.a., the last hip hop band on Earth. Mo' Meta Blues also has some (many) random (or not) musings about the state of hip hop, the state of music criticism, the state of statements, as well as a plethora of run-ins with celebrities, idols, and fellow artists, from Stevie Wonder to KISS to D'Angelo to Jay-Z to Dave Chappelle to...you ever seen Prince roller-skate?!? But Mo' Meta Blues isn't just a memoir. It's a dialogue about the nature of memory and the idea of a post-modern black man saddled with some post-modern blues. It's a book that questions what a book like Mo' Meta Blues really is. It's the side wind of a one-of-a-kind mind. It's a rare gift that gives as well as takes. It's a record that keeps going around and around.
