**Dog Days** Karen English, 2013-12-17 It's tough being the new kid. Gavin had lots of friends at his old school, but the kids at Carver Elementary don't even know that he's pretty good at skateboarding, or how awesome he is at soccer. And when his classmate Richard comes over and the boys end up in trouble, not only does Gavin risk losing his one new friend, he has to take care of his great-aunt Myrtle's horrible little dog as punishment. To make matters worse, Gavin seems to have attracted the attention of the school bully. Will he be able to avoid getting pounded at the skate park? And how is he ever going to prove he's cool with a yappy little Pomeranian wearing a pink bow at his side? English returns to Carver Elementary, the setting of her Nikka and Deja books, in this strong kickoff to her Carver Chronicles series. Freeman's upbeat spot illustrations and English's accessible storytelling target the book to emerging independent readers. (Publishers Weekly)

Skateboarding and Religion Paul O'Connor, 2019-10-02 This book explores the ways in which religion is observed, performed, and organised in skateboard culture. Drawing on scholarship from the sociology of religion and the cultural politics of lifestyle sports, this work combines ethnographic research with media analysis to argue that the rituals of skateboarding provide participants with a rich cultural canvas for emotional and spiritual engagement. Paul O'Connor contends that religious identification in skateboarding is set to increase as participants pursue ways to both control and engage meaningfully with an activity that has become an

increasingly mainstream and institutionalised sport. Religion is explored through the themes of myth, celebrity, iconography, pilgrimage, evangelism, cults, and self-help.

**Skater Baby** Jack Noel,2022-03-08 In this hilarious picture book debut, a precocious baby sneaks away from her mom, snags a skateboard, and begins one heck of a daring (and disruptive) joyride through the park! Mom wants her precious little bundle to have some good, safe fun at the park—but Baby has other plans. While her mom isn't looking, the baby crawls away and finds a skateboard. As Skater Baby goes on a fun-filled joyride through the park, she continues to pass one distracted, unsuspecting adult after another and snags something new from each of them (like an umbrella, a clown's nose, and even an unsupervised dog). While her haul steadily grows, so does the crowd of adults who are chasing after. But no one seems to be able to catch the daredevil tyke. And wait, is Skater Baby heading for the huge, scary Mega Ramp?

**Skateboarding: Ramp Tricks** Evan Goodfellow,2006-06-28 Ramp tricks—skate moves made on, over, or around wood ramps, cement bowls, and half-pipes—are a key, albeit challenging, component of skateboarding. Hundreds of captioned, sequential photographs demonstrate precisely how these exacting moves are safely made in this indispensable guide to 40 ramp tricks. Beginning with basic moves, including stalls, grinds, and slides, skaters gradually learn the particular positioning and balance needed to perform more advanced tricks such as flips and airs. A brief history of ramp skateboarding examines the birth of the

genre as well as champions of the sport, including the pioneering Dogtown Crew and current stars Bob Burnquist and Tony Hawk.

**Skateboarding and Femininity** Dani Abulhawa, 2020-08-27 Skateboarding and Femininity explores and highlights the value of femininity both within skateboarding and wider culture. This book examines skateboarding's relationship to gender politics through a consideration of the personal politics connected to individual skateboarders, the social-spatial arenas in which skateboarding takes place, and by understanding the performance of tricks and symbolic movements as part of gender-based power dynamics. Dani Abulhawa analyses the discursive frameworks connected to skateboarding philanthropic projects and how these operate through gendered tropes. Through the author's work with skateboarding charity SkatePal, this book offers an alternative way of recognising the value of skateboarding philanthropy projects, proposing a move toward a more open and explorative somatic

practice perspective.

Skateboarding is both a sport and a way of life. Creative, physical, graphic, urban and controversial, it is full of contradictions – a billion-dollar global industry which still retains its vibrant, counter-cultural heart. Skateboarding and the City presents the only complete history of the sport, exploring the story of skate culture from the surf-beaches of '60s California to the latest developments in street-skating today. Written by a life-long skater who also happens to be an architectural historian, and packed through with full-colour images – of skaters, boards, moves, graphics, and film-stills – this passionate, readable and rigorously-researched book explores the history of skateboarding and reveals a vivid understanding of how skateboarders, through their actions, experience the city and its architecture in a unique way.
