**Around The World in 50 Slopes** Patrick Thorne,2022-10-13 'They're places skiers will love.' - Metro 'An intercontinental romp through a galaxy of ski trivia.' - Scotsman 'Whether you've ever skied or never been near a chairlift or the piste, there is gold in these pages. ' - Press & The Journal The amazing history behind the best ski trails in the world. Veteran ski journalist Patrick Thorne has unearthed the incredible stories behind 50 unique runs from the utterly unmissable to the totally unexpected. Discover the two different Alpine ski areas who claim to be Hannibal's route through the mountains with his elephants; the debate around what is really the world's steepest slope; how smugglers have used ski runs to escape custom patrol; and why hundreds of skiers dress as witches at Belalp in Switzerland every year. Features skiing from across Europe, North America and South America, as well as fascinating global ski destinations including China, Iran and even North Korea. Along the way we'll meet Franz Klammer, the greatest ski racer in history, as well as The Beatles, Count Dracula, St Patrick and James Bond. Complimented with practical information and trail maps, it is the perfect gift for the skier in your life.

**Cross Country Ski Maps of the Methow Valley - a Study of Trails and Mapping** Charles Hickenbottom,2016-01-05 A study of cross country ski maps is used to tell the history of a cross country skiing network in the Methow Valley.

**Ski Trails and Wildlife** Eric Burr,2008 Snow sports are usually the first step to learning about snow country wildlife, which is only as safe as knowledgeable people want it to be. Unfortunately knowledge is too often lacking, and skiing is perceived as detrimental too wildlife. Reality is that skiing in all its many forms, from ski lift resorts to far flung Scandinavian style ski touring, holds the keys to wildlife conservation and restoration. No amount of litigation can change this basic fact of life, although the Mineral King Case (from the Supreme Court of the United States) certainly changed the legal landscape for all environmental litigation. Mineral King's near miss at becoming another ski lift avalanche disaster area preceded Early Winters, another almost ski lift area which shares the honor of being a Supreme Court case, and is the last chapter of this book. Olympic National Park is the other ski history explored, so that the National Parks are given equal emphasis with America's National Forests and Canada's Crown Lands. An extensive bibliography also includes many electronically available sources. The language is not technical and no prior experience with either skiing or wildlife is presumed. The book is primarily written for both skiing and wildlife enthusiasts, who may not know much about each other. It is intended as a peace offering to hopefully prevent future ski wars and unnecessary trips through the legal system. That effort could be better spent restoring wildlife and the life support system of our circumpolar boreal forest.

*The Colorado Trail* Colorado Trail Foundation,Colorado Mountain Club,2006 The Colorado Trail is the only guide available for thru-hikers, day hikers, mountain bikers, trail runners, and equestrians to the extraordinary Colorado Trail that stretches 468 miles from Denver to Durango. The completely revised 7th edition includes text and map revisions for several sections where reroutes of the trail have taken place, as well as 90 colour pictures, 28 segment maps, elevation profiles, integrated GPS waypoints, town maps and mountain bike detours of Wilderness Areas.The Colorado Trail (CT) is one of the premier scenic long trails in North America. It winds its way through endless fields of wildflowers to windy mountain passes, from wild mountain rivers and streams to winding trails through old growth forests. The CT crosses eight mountain ranges, seven National Forests, six Wilderness Areas and five river systems. Starting near Denver at 5,500 feet and ending near Durango at 7,000 feet, the CT gains and loses almost 76,000 feet in elevation over 468 miles. New to this edition are revisions of four of the 28-segment trail descriptions including sections 8, 11, 23 and 24.
