Michael Burkhardt

Lucky Head Robot #7777 Aleksandr Anufriyev,2022-04-26 In the future, humanity is fighting not only for resources but also for the right to exist on their own planet. Their enemy, the fierce shadows, is invisible and insidious. People do not understand where the real life and where the virtual trap is. But they continue to fight to their last breath. The story of love and hate, the lives of people who lost connection with the real world and sunk into the virtual world. The story of the war between humanoids, cyborgs, and aliens. The crazy game of the outer mind with creatures believing in mercy and love. They fight for the right to live on their own planet and not become somebody-slaves.

TPS Frequency Dictionary of Mandarin Chinese Michael Burkhardt,2010-05-20

The TPS Frequency Dictionary of Mandarin Chinese is not just another character frequency based dictionary. It has been designed to provide students with a guide for learning new characters, words, and phrases gradually, building upon characters already familiar. The entries have been arranged according to a Triple Progression System in which words are grouped first by character frequency, then by word frequency, and filtered so that new words and phrases appear only after all of their component characters have been introduced.
