Gary Paul Johnston, Thomas B. Nelson

One Second After William R. Forstchen,2011-04-26 Book 1 in the John Matherson trilogy.

Cold War Pistols of Czechoslovakia James D. Brown,2009 This is the first English language work to examine the subject in detail and the first in any language to identify, describe, and quantify variations and production figures for the models covered. The book focuses on the Czechoslovak Communist period (1948-1989), but reaches back into the 1930s in order to trace the history of the 6.35 mm Duo pocket pistol, which remained in production under the name Z until 1974 with a total of thirteen distinct marking variations, and the 6.35 mm model 1945, which had its beginnings as the model 1936. The 7.65 mm model 50 police pistol and its successor, the model 70, are covered in depth, documenting both marking variations and a significant number of design changes introduced during their thirty-three-year production life. The 7.62 mm model 52 Army pistol is given extensive treatment based on data drawn from over 2,000 specimens; in addition to descriptions of both standard and rare variants, significant discussion of the pistol's mechanical characteristics and potential safety problems is presented. Also covered are the more modern commercial CZ 75 and CZ 85, the military model 82, and the commercial CZ 83, as are small calibre target pistols and signal pistols.

An avid survivalist, Morgan takes to the road with his prepper pack on his back. During the grueling trek from Tallahassee to his home in Lake County, chaos threatens his every step but Morgan is hell-bent on getting home to his wife and daughters—and he'll do whatever it takes to make that happen. Fans of James Wesley Rawles, William R. Forstchen's One Second After, and The End by G. Michael Hopf will revel in A. American's apocalyptic tale.

The Makarov Pistol Henry C. Brown,Cameron S. White,Edwin H. Lowe,2018-06-25 The Makarov Pistol entered service as the primary service pistol in the armed forces and security services of the Soviet Union in 1951. It continues to serve in the forces of the Russian Federation and the former Soviet Union, and of nations around the world. The Makarov Pistol has served around the world in conflicts and security duties in all climates and terrains, and can claim the distinction of being the first firearm to be carried into space. The Makarov Pistol was manufactured under license by China and Bulgaria, for both military and police, and commercial markets. Chinese and Bulgarian manufactured Makarov Pistols are well known to collectors, each for different reasons. Chinese military and police Type 59 Pistols were produced for a very short period of time, had a very limited service life, and were never officially exported as surplus, making the few rare samples available, the most coveted of Makarov Pistols for the collector. Similarly, commercial Chinese Makarov Pistols were exported for only a short period in the late 1980s and early 1990s, making these the rarer of commercial Makarovs and collectibles in their own right. In contrast, Bulgarian Makarovs, in both military and police, and commercial versions, were exported in large quantities into the early years of the 21st century, making these the workhorse Makarovs of conflicts around the world, and a standard item for the Makarov collector and shooter. While collectors have been documenting and recording the many aspects of Chinese and Bulgarian Makarov Pistols over the last 25 years, little has been known of their design and production beyond speculation and 'gun show wisdom'. For the first time, this information is presented in a systematic manner, based on research using a wide range of documentary and open source information. Information about the Chinese Makarov in particular, its production and service life, is based on research from Chinese language sources and is presented for the first time for the English language reader. This book also reviews examples of 'craft production' Makarovs, the so-called 'Khyber Pass' copies, each one a unique hand crafted copy, and a trophy of the conflicts of the 21st century. This book describes the craft production of small arms in the Khyber Pass region of Pakistan, and the distinguishing features of Khyber Pass Makarovs. 'The Makarov Pistol: China, Bulgaria & Khyber Pass Copies' is the second volume of a two volume series documenting the history, features, manufacturing variations and markings of the Makarov Pistol, its accessories and documentation available to the collector. This is a series by collectors, for collectors, and it is the first comprehensive collector's review of the Makarov Pistol.

Student of the Gun,

American Warrior Gary O'Neal,David Fisher,2013-05-14 The epic story of one of America's greatest soldiers, Ranger Hall of Fame member Gary O'Neal, who served his country for forty years Chief Warrant Officer Gary O'Neal is no ordinary soldier. For nearly forty years, he has fought America's enemies, becoming one of the greatest Warriors this nation has ever known. Part Native American, O'Neal was trained in both military combat and the ways of his native people, combining his commitment to freedom with his respect for the enemy, his technical fighting skills with his fierce warrior spirit. From his first tour in Vietnam at seventeen to fighting in both Gulf wars, O'Neal was nothing less than a super soldier. A minefield of aggression bordering on a justice-seeking vigilante, O'Neal kept fighting even when wounded, refusing to surrender in the face of

nine serious injuries and being left more than once. O'Neal earned countless military honors as a member of the elite Army Rangers corps, a founding member of the legendary first Department of Defense antiterrorist team, a member of the Golden Knights Parachuting Team, and more, devoting his life to training the next generation of soldiers. His unbelievable true stories are both shocking and moving, a reminder of what it means to be a true American hero. In O'Neal's own words, he wasn't born a warrior—life made him one. American Warrior will serve as inspiration for American men and women in uniform today, as well as appeal to the countless veterans who served their country alongside O'Neal.

Panzerartillerie Thomas Anderson,2019-03-19 The German Panzerartillerie was one of the key components of the Panzer divisions that were the spearhead of the German forces in the years when they overran most of Western Europe and reached as far as the gates of Moscow in the East. Warfare in the age of Blitzkrieg required fast-moving, mobile artillery that could support forward units at the front line, and the Panzerartillerie provided that for the Wehrmacht. The Allies had no answer or equivalent to them until the US entry into the war. Drawing on original material from German archives and private collections, including some images that have never been published before, German armor expert Thomas Anderson explores the formation and development of this force from its early days in the 1930s, through the glory days of Blitzkrieg warfare to its eventual decline in the face of the challenges of the Eastern Front.

It's about Attitude, and being a more capable person and get the politically correct wimp out of your system completely.

Alas, Babylon Pat Frank,2013-06-04 "An extraordinary real picture of human beings numbed by catastrophe but still driven by the unconquerable determination of living creatures to keep on being alive." —The New Yorker "Alas, Babylon." Those fateful words heralded the end. When the unthinkable nightmare of nuclear holocaust ravaged the United States, it was instant death for tens of millions of people; for survivors, it was a nightmare of hunger, sickness, and brutality. Overnight, a thousand years of civilization were stripped away. But for one small Florida town, miraculously spared against all the odds, the struggle was only just beginning, as the isolated survivors—men and women of all ages and races—found the courage to come together and confront the harrowing darkness. This classic apocalyptic novel by Pat Frank, first published in 1959 at the height of the Cold War, includes an introduction by award-winning science fiction writer and scientist David Brin.

Out Standing in the Field Sandra Perron,2017-04-06 Some books are catalysts. Shake Hands with the Devil was one. For 2017, that book is Out Standing in the Field. In her memoir, Sandra Perron describes her experience of the Canadian Military - one of the most important institutions of our nation. What she has to say is exactly what the top brass has been paying lip-service to for years, and doing nothing to improve. In 2016, the Auditor General's Report noted that the military had no strategy to recruit women, even though they are required to meet a target that 25% of the uniformed personnel be women. According to Statistics Canada, 1,000 members of our military say they have been sexually assaulted in the past year. In her revealing and moving memoir, Sandra Perron, Canada's first female infantry officer and a member of the Royal 22e Régiment - the legendary Van Doos - describes her fight against a system of institutional sexism. Though repeatedly identified as top of her class throughout her training, she was subject to harassment by her male colleagues. Her military experience, however, wasn't all negative. Through two deployments to Bosnia and Croatia, Perron forged lasting friendships with men and women, serving her country with courage and compassion, and her determination helped pave the way for women's inclusion in the Armed Forces. Out Standing in the Field is the story of a soldier who refused to let her comrades or her country down, even while serving a military institution that failed her repeatedly. Beautifully written, Perron's memoir is a testament to her fortitude and patriotism, and serves as proof that the spirit of a true hero cannot be bent or broken.
