A History of the Greek City States, 700-338 B. C. Raphael Sealey,1976-10-28 This book introduces the reader to the serious study of Greek history, concentrating more on problems than on narrative. The topics selected have been prominent in modern research and references to important discussions of these have been provided. Outlined are controversial issues of which differing views can be defended. Mr. Sealey's preference is for interpretations which see Greek history as the interaction of personalities, rather than for those which see it as a struggle for economic classes or of abstract ideas. Sealey assumes that the Greek cities of the archaic and classical periods did not inherit any political institutions from the Bronze Age; that the extensive invasions that brought Mycenaean civilization to an end destroyed political habits as effectively as stone palaces. Accordingly, he believes that the Greeks of the historic period were engaged in the fundamental enterprise of building organized society out of nothing. The first chapters of this work deal with the steps taken by the early tyrants, in Sparta and Athens, toward constructing stable organs of authority and of political expression. In later chapters, interest shifts to relations that developed between the states and especially to the development of lasting alliances. Attention is given to the Peloponnesian League, to the Persian Wars, to the Delian League, and to the Second Athenian Sea League of the fourth century.

Armies of Ancient Greece Circa 500-338 BC Gabriele Esposito,2020-07-19 Illustrated with color photos, this guide details the arms, armor, organization, and tactics of Classical Greek armies. The Classical period includes some of the most famous wars and battles of Ancient Greece, including the defeat of the Persians at Marathon, the Spartans' last stand at Thermopylae, the Peloponnesian War and the March of the Ten Thousand. The Greek heavy infantry spearmen, or hoplites, are one of the most recognizable types of ancient warrior and their tightly-packed phalanx formation dominated the battlefield. Covering the period from the Persian Wars to the Macedonian victory at the Battle of Chaeronea, Gabriele Esposito examines the famous hoplites heavy infantry as well as other troops, such as light infantry skirmishers and cavalry. His clear, informative text is beautifully illustrated with dozens of color photographs showing how the equipment was worn and used.
