Ultimate Speed Samuel Hawley,Craig Breedlove,2018-10-02 An L.A. hot rodder with a high school education, a family to support and almost no money, Craig Breedlove set out in the late 1950s to do something big: harness the thrust of a jet in a car. With a growing obsession that would cost him his marriage, he started building in his dad's garage. The car's name: Spirit of America. Through perseverance and endless hard work, Craig completed Spirit and broke the land speed record on the Bonneville Salt Flats, setting a new mark of 407 mph in 1963. In the early 1970s he turned to rockets and set an acceleration record at Bonneville that stands to this day. He built a jet car in the 1990s, Spirit of America-Sonic Arrow, to go head-to-head against Britain's ThrustSSC to be the first to Mach One. Craig's subsequent crash at 675 mph remains the fastest in history. Even today, at the age of 80, he is going strong with plans for yet another Spirit of America racer. The ultimate goal: 1,000 mph. *Ultimate Speed* is the authorized biography of Craig Breedlove, a candid revelation of one of motorsports' most interesting figures based primarily on countless hours of interviews with Craig and dozens of people connected to his life.

Bonneville Salt Flats "Landspeed" Louise Ann Noeth,2020-11-09 Astronaut John Glenn used Utah's Bonneville Salt Flats as a landmark from space, but on Earth, amateur motorsports devotees have used the blistering hot, flat land as a speed laboratory for more than a century. On August 22, 1949, the hot rodders joined the pageant of power with their handcrafted cars, trucks, and motorcycles for a one-time event but never stopped coming back, trying to go faster every run down the multi-mile course. All came looking for the answer to the same question: How fast will it go? Those efforts have made them the fastest people on the planet, reaching speeds in excess of 500 miles per hour. On the salt, people find the limits of their courage, learn what daring greatly is all about, and realize why a Bonneville Salt Flats speed record is an internationally respected pedigree. People who race on the salt flats become a family bound together by speed--a powerful force that erases ethnic, economic, political, and religious barriers. They are land speed racers. And this is their story.

Need for Speed Brian Kelleher,2014-02-25 Buckle up . . . Tobey Marshall is a mechanic struggling to save his family-owned garage. While he and his team skillfully build and race muscle cars on the side, it's not enough to keep the doors open. He reluctantly partners with his longtime rival, a wealthy, arrogant ex-professional racer, Dino Brewster. But just as a major sale to car broker Julia Bonet looks as though it will save Tobey's business, a disastrous, unsanctioned race results in Dino framing Tobey for manslaughter. Two years later, Tobey is fresh out of prison and eager for revenge. To take Dino down, he plans to enter the high-stakes De Leon race—the biggest contest of underground racing in the world—to get the money to reclaim his family business and expose Dino's deception. But getting there won't be easy, as Tobey must run a high-octane, pedal-to-the-floor gauntlet, dodging cops coast to coast and dealing with fallout from a dangerous bounty on his car. Luckily, with his team—and the surprisingly resourceful Julia—on his side, he just might defy the odds . . .

No Speed Limit Stuart Bladon,2015-10-05 During his sixty years as a motoring journalist, Stuart Bladon test drove almost every car on the road. Working for Autocar, and later as a freelance writer, he was granted access to some of the oddest vehicles off the road as well, including the three-wheeled Bond Minicar, in which he was very nearly killed. The best part of any car test, however, was finding out how fast they would go. In 1970, he set what was for a long time Autocar's fastest road test maximum speed, at 172mph. Going back to the days when the only speed limit was the 30mph restriction in built-up areas, each chapter of this book brings a motoring story of travel, testing and adventure. Since a fond aunt began teaching him to drive at the age of 7, Stuart Bladon has enjoyed a lifelong passion for cars. This book recounts the many motors and the colourful escapades of a life spent very near – if not over – the speed limit.
