Jo Frost

Standing Up to Supernanny Jennie Bristow, 2013-09-09 Parenthood, we are told, requires a massive adjustment to our lives, emotions, and relationships, and we have to be taught how to deal with that. But can it really be so bad that we need constant counselling and parenting classes? It is a myth that today's parents are hopeless and lazy: in many ways, we have become too diligent, too hopeful of great outcomes and clear rewards, to the point where we lose ourselves in trying to provide some kind of professional service to our children. The current obsession with perfect parenting increases our insecurity and distrust of each other, and diminishes our authority over our kids. This book is about asking: Why have we invited Supernanny into our living rooms - and how can we kick her out?

Supernanny Jo Frost, 2005 Jo Frost, a.k.a Supernanny, is the answer to every stressed parent's dreams. In Channel 4's prime time series Jo works miracles on problem children, by dispensing tough love, no-nonsense rules and reassuring us that parents do know best. The Supernanny method gives parents the know-how to tackle any problem area, be it mealtime, bathtime, bedtime, bedwetting, homework, sibling rivalry, aggressive behaviour or a child who just won't do what he or she is told. In an era where parents are bombarded with conflicting or guilt-laden messages at every turn, and sometimes obey their kids' commands rather than the other way around, this is an upbeat, back-to-basics approach to restoring harmony and authority in the home. Jo has a magical way with children, but her methods are simple and can and do work for anyone: regular routine, consistency, verbal warnings, time out after misbehaviour, and rewarding good behaviour with lots of attention. your ten-month-old won't sleep through the night, or your two-year-old is out of control, Jo knows what to do and can show you how to do it. For anyone who doesn't feel in charge at home, this is a godsend of a book full of brilliantly commonsense advice - the only parenting book you'll ever want.

The Claims of Parenting Stefan Ramaekers, Judith Suissa, 2011-09-15 Many sociological, historical and cultural stories can be and have already been told about why it is that parents in post-industrial, western societies face an often overwhelming array of advice on how to bring up their children. At the same time, there have been several philosophical treatments of the legal, moral and political issues surrounding issues of procreation, the rights of children and the duties of parents, as well as some philosophical accounts of the shifts in our underlying conceptualization of childhood and adult-child relationships. While this book partly builds on the insights of this literature, it is significantly different in that it offers a philosophically-informed discussion of the actual practical experience of being a parent, with its deliberations, judgements and dilemmas. In probing the ethical and conceptual questions suggested by the parent-child relationship, this unique volume demonstrates the irreducible philosophical richness of this relationship and thus provides an important counter-balance to the overly empirical and largely psychological focus of a great deal of "parenting" literature. Unlike other analytic work on the parent-child relationship and the educational role of parents, this work draws on first-person accounts of the day-to-day experience of being a parent in order to explore the ethical and epistemological aspects of this experience. In so doing it exposes the limitations of some of the languages within which contemporary "parenting" is conceptualized and discussed, and opens up a space for thinking about childrearing and the parent-child relationship beyond and other than in terms of the languages which dominate the ways in which we generally think about it today.

Narcissistic Parenting in an Insecure World Harry Hendrick, 2016-07-06 In this provocative history of parenting, Harry Hendrick analyses the social and economic reasons behind parenting trends. He shows how broader social changes, including neoliberalism, feminism, the collapse of the social-democratic ideal, and the 'new behaviourism', have led to the rise of the anxious and narcissistic parent. The book charts the shift from the liberal and progressive parenting styles of the 1940s-70s, to the more 'behavioural', punitive and managerial methods of childrearing today, made popular by 'experts' such as Gina Ford and Supernanny Jo Frost, and by New Labour's parent education programmes. This trend, Hendrick argues, is symptomatic of the sour, mean-spirited and vindictive social norms found throughout society today. It undermines the better instincts of parents and, therefore, damages parent-child relations. Instead, he proposes, parents should focus on understanding and helping their children as they work at growing up.

Parenting the crisis Jensen, Tracey, 2018-03-28 Bad parenting is so often blamed for Britain's 'broken society', manifesting in sites as diverse as the government reaction to the riots of 2011, popular 'entertainment' like Supernanny and the discussion boards of Mumsnet. This book examines how these pathologising ideas of failing, chaotic and dysfunctional families are manufactured across media, policy and public debate and how they create a powerful consensus that Britain is in the grip of a 'parent crisis'. It tracks how crisis talk around parenting has been used to police and discipline families who are considered to be morally deficient and socially irresponsible. Most damagingly, it has been used to justify increasingly punitive state policies towards families in the name of making 'bad parents' more responsible. Is the real crisis in our perceptions rather than reality? This is essential reading for anyone engaged in policy and popular debate around parenting.

I Am So the Boss of You Kathy Buckworth, 2013-03-26 A hilarious, tongue-firmly-in-cheek look at a promising new trend in parenting: being the boss! In this day and age -

when parenting books are a dime a dozen - it's easy for a mom to get confused. Do you go democratic or hover like a helicopter? Do you take a tiger-ish approach, or something more hands off, like those French women who supposedly raise perfect children? Parenting author and humourist Kathy Buckworth has a completely different idea: Why not let the boardroom be your guide? In *I Am So the Boss of You*, Buckworth imagines a world where corporate policies and practices rule on the home front, and Mom is most definitely in charge!

Parenting in Global Perspective Charlotte Faircloth, Diane M. Hoffman, Linda L. Layne, 2013-10-28 Drawing on both sociological and anthropological perspectives, this volume explores cross-national trends and everyday experiences of 'parenting'. Parenting in Global Perspective examines the significance of 'parenting' as a subject of professional expertise, and activity in which adults are increasingly expected to be emotionally absorbed and become personally fulfilled. By focusing the significance of parenting as a form of relationship and as mediated by family relationships across time and space, the book explores the points of accommodation and points of tension between parenting as defined by professionals, and those experienced by parents themselves. Specific themes include: the ways in which the moral context for parenting is negotiated and sustained the structural constraints to 'good' parenting (particularly in cases of immigration or reproductive technologies) the relationship between intimate family life and broader cultural trends, parenting culture, policy making and nationhood parenting and/as adult 'identity-work'. Including contributions on parenting from a range of ethnographic locales – from Europe, Canada and the US, to non-Euro-American settings such as Turkey, Chile and Brazil, this volume presents a uniquely critical and international perspective, which positions parenting as a global ideology that intersects in a variety of ways with the political, social, cultural, and economic positions of parents and families.

Fatherhood in Late Modernity Mechthild Oechsle, Ursula Müller, Sabine Hess, 2012-08-09 Changes in Fatherhood How do structural changes in the welfare state, in gender relations and work affect concepts and realities of fatherhood? The authors analyse cultural images and representations of fatherhood, varieties of fatherhood in relation to social backgrounds, organisational influences, as well as the impact of political and legal interventions on configurations of fatherhood. With an interdisciplinary approach this book's contributions investigate the sometimes contradictory relationship between cultural representations and social practices of fatherhood. They contextualise diverse fatherhoods in various social backgrounds, ethnicities, ages and different national contexts. Reflecting methodological challenges is crucial to the volume's approach: Which parameters are used to quantify change? Which links and interactions between cultural, individual, organizational and societal dimensions do exist regarding the development of new social configurations of fatherhood? How can the complex interaction between structural constraints and agency be analysed? Can certain agents of change be identified? How can social change be conceptualized? This volume links to international comparative research and shows how fruitful it can be to break disciplinary boundaries.

Stop Mugging Grandma Jennie Bristow, 2019-08-13 A decisive intervention in the war between generations, asking who stands to gain from conflict between baby boomers and

millennials Millennials have been incited to regard their parents' generation as entitled and selfish, and to blame the baby boomers of the Sixties for the cultural and economic problems of today. But is it true that young people have been victimized by their elders? In this book, Jennie Bristow looks at generational labels and the groups of people they apply to. Bristow argues that the prominence and popularity of terms like baby boomer, millennial, and snowflake in mainstream media operates as a smoke screen--directing attention away from important issues such as housing, education, pensions, and employment. Bristow systematically disputes the myths that surround the generational war, exposing it to be nothing more than a tool by which the political and social elite can avoid public scrutiny. With her lively and engaging style, Bristow highlights the major issues and concerns surrounding the sociological blame game.

Neuroparenting Jan Macvarish,2016-09-20 This book traces the growing influence of 'neuroparenting' in British policy and politics. Neuroparenting advocates claim that all parents require training, especially in how their baby's brain develops. Taking issue with the claims that 'the first years last forever' and that infancy is a 'critical period' during which parents must strive ever harder to 'stimulate' their baby's brain just to achieve normal development, the author offers a trenchant and incisive case against the experts who claim to know best and in favour of the privacy, intimacy and autonomy which makes family life worth living. The book will be of interest to students and scholars of Sociology, Family and Intimate Life, Cultural Studies, Neuroscience, Social Policy and Child Development, as well as individuals with an interest in family policy-making.

Regulating Family Responsibilities Jo Bridgeman,2016-04-08 This collection brings together some of the most eminent and exciting authors researching family responsibilities to examine understandings of the day to day responsibilities which people undertake within families and the role of the law in the construction of those understandings. The authors explore a range of questions fundamental to our understanding of 'responsibility' in family life: To whom, and to what ends, are family members responsible? Is responsibility primarily a matter of care? Can we fulfil our family responsibilities by paying those to whom we owe responsibility? Or by paying others to fulfil our caring obligations for us? In each of these circumstances the chapters in this collection explore what it means to have family responsibilities, what constitutes an adequate performance of such responsibilities and the point at which the state intervenes. At the heart of this collection is an interest in the way in which the changing family affects people's perception and exercise their family responsibilities, and how the law attempts to regulate (and understand) those responsibilities. The essays range across intact and separated or fragmented families, from lone and shared parenting in single homes to caring across households (and even across international boundaries) to reflect on the actual caring responsibilities of family members and on the fulfilment of financial responsibilities in families. This collection seeks to advance our understanding of the attempts of the law, and its limits, in regulating the responsibilities which family members take for each other.

Men, Law and Gender Richard Collier,2010-04-05 What does it mean to speak of 'men' as a gender category in relation to law? How does law relate to masculinities? This book presents the first comprehensive overview and critical assessment of the relationship between men, law and gender; outlining the contours of the 'man' of law across diverse areas of legal and social policy. Written in a theoretically informed, yet accessible style, Men, Law and Gender provides an introduction to the study of law and masculinities whilst calling for a richer, more nuanced conceptual framework in which men's legal practices and subjectivities might be approached. Building on recent sociological work concerned with the relational nature of gender and personal life, Richard Collier argues that social, cultural and economic changes have reshaped ideas about men and masculinities in ways that have significant implications for law. Bringing together voices and disciplines that are rarely

considered together, he explores the way ideas about men have been contested and politicised in the legal arena. Including original empirical studies of male lawyers, the legal profession and fathers' rights and law reform, alongside discussions of university law schools and legal academics, and family policy and parenting cultures, this innovative, timely and important text provides a unique and important insight into the relationship between law, men and masculinities. It will be required reading for academics and students in law and legal theory, socio-legal studies, gender studies, sociology and social policy, as well as policy-makers and others concerned with the changing nature of gender relations.

The Moral Case for Abortion Ann Furedi, 2022-01-27 This revised and updated edition of the 2016 bestselling work sets out the moral arguments for a woman's right to decide the future of her pregnancy. Drawing on traditions of philosophical and sociological thinking, it presents the case for recognizing autonomy in personal, private decision-making about reproductive intentions. Further, it argues that to prevent a woman making this decision according to her own values is to undermine the essence of her humanity. The author explores how true respect for human life and regard for individual conscience demands that we support a woman's right to decide, and that support for her right to terminate her pregnancy has moral foundations and ethical integrity. This second edition features a foreword by US abortion provider and reproductive justice advocate Dr. Willie Parker, as well as additional chapters that consider the rights of doctors and nurses to withdraw from abortion provision on grounds of conscience. Furedi also surveys the rapidly changing landscape of the abortion debate, including the rights of women in the aftermath of Trump's presidency; debates, politics and religion in Northern Ireland and the Republic of Ireland; and the differing levels of provision across Europe.
