

Stock Car Racing

Jerry Bledsoe

NASCAR Nation Scott Beekman, 2010-04-09 This is the first work to go beyond the popular myths of stock car racing to fully examine the sport's true history. *NASCAR Nation: A History of Stock Car Racing in the United States* details the ongoing saga of this quintessentially American pastime. Looking at the drivers, events, and teams, it positions NASCAR racing within larger social, economic, and cultural trends in an attempt to address the sport's phenomenal growth and popularity. This chronological examination of the evolution of stock car racing is the first history to go beyond the widely held myth that it was invented by Prohibition-era moonshiners. The book traces stock car racing history from its beginnings, to the formation of The National Association for Stock Car Auto Racing (NASCAR) in 1948, through today. Of course, readers will meet the sport's many colorful personalities, including the Earnhardts, Richard Petty, Jeff Gordon (who has raked in more than \$70 million in career winnings), Fireball Roberts, Darrell Waltrip, Daytona pioneer Bill France, and women drivers like Janet Guthrie, Louise Smith, and Jennifer Jo Cobb. While the focus is on NASCAR, the book also examines other prominent stock car racing organizations to round out its comprehensive portrait.

Encyclopedia of Stock Car Racing [2 volumes] Lew

Freedman, 2013-03-14 This two-volume encyclopedia is the Daytona 500 of stock car racing books—an essential Bible that provides an all-encompassing history of the sport as well as an up-to-date examination of modern-day stock car racing. How did stock car racing become firmly entrenched in American pop culture, especially in light of the lack of interest in motorsports overall as a spectator activity in the United States? And what has been the secret to NASCAR's financial success and growth over the last six decades? Encyclopedia of Stock Car Racing highlights approximately 250 subjects that have defined the sport since stock car racing was first organized. Organized in A-Z order, it covers all of the greatest drivers, such as Richard Petty, Jimmie Johnson, Junior Johnson, and David Pearson; the special races such as the Daytona 500 and Brickyard 400; and the famed tracks across the country, from Bristol Motor Speedway to Darlington Raceway to Talladega Superspeedway. This unprecedented resource collects information about every element of NASCAR history in one place: the early personalities who shaped the sport and set things in motion, the past greats who have now retired, and today's rising stars who continue to make stock car racing one of the most

popular sports in the United States.

The World's Number One, Flat-Out, All-Time Great, Stock Car Racing Book Jerry Bledsoe,2019-02-01 On Labor Day weekend of 1972, journalist Jerry Bledsoe hooked up with the stock car racing

circuit to begin research for his first book. The result of his efforts, first published in 1975, has been called the classic work on stock car racing. Bledsoe captures the beginnings of the modern NASCAR era, a time when legends like Richard Petty, David Pearson, Bobby Allison, and the Wood brothers ruled. It was also a time when independent drivers like Wendell Scott (NASCAR's first African American driver) and Larry Smith could build a car in their garages during the week and race on Sunday alongside King Richard. With levels of access impossible to achieve today, Bledsoe is not only in the pits and garages with the drivers, but also is alongside their family driving to the next race in a van piled high with ice chests filled with sandwiches and fried chicken. He digs into the sport's rough and rowdy history and shines a light into its nooks and crannies, uncovering the forgotten role that women drivers played in creating this most macho of motorsports. And then there are the fans. There's Red Robinson, the self-proclaimed "World's Number One Stock Car Racing Fan, who collects racing beauty queens the way some people collect stamps. And the fans camped out in the infield at Darlington, the biggest, wildest, whoopingest, holleringest, drinkingest, gamblingest, carousingest, knock-down, fall-out blowout held in the South. More than a book

about racing, this is a close-up look at a cultural phenomenon that illuminates America and the South. In 1965, Tom Wolfe called racer Junior Johnson “the last American hero.” “The World’s Number One, All-Time Great, Stock Car Racing Book” shows that a decade later there were still plenty of heroes circling the track with no signs of them disappearing anytime soon.

Bowling Green Stock Car Racing Larry Upton,Jonathan Jeffrey,2010-06-21 Bowling Green became the city of speed immediately after World War II as America began its love affair with the automobile. Stock car racing took the city by storm in its inaugural season of 1951, drawing crowds of up to 7,000 in a city of only 18,000. Soon thereafter, the city attracted the Chevrolet Corvette assembly plant followed by the National Corvette Museum. Images of Sports: Bowling Green Stock Car Racing documents the history of stock car racing in Bowling Green and the emergence of the raceway at Beech Bend Park.

Rolling Thunder Stock Car Racing: Race To Glory Kent Wright,Don Keith,2014-07-15 The pedal meets the metal in Rolling Thunder Stock Car Racing--the thrilling series from Kent Wright and Don Keith that traces the history of stock car racing from the dusty dirt tracks of East Tennessee to the multi-million-dollar, high-

tech venues of today. In the race to glory, only one man can finish first... For Jodell Lee, it's been an exciting, dizzying climb to the top of the stock car racing circuit. Gone are the days of racing round flat dirt ovals on Sunday afternoons. Stock car racing is big business now. Superspeedways have replaced the dirt tracks. Tens of thousands of fans pack the speedways for every race to watch the likes of Lee Petty, Junior Johnson, Fireball Roberts--and Jodell Lee--thunder around the steep-banked tracks of Darlington and Daytona and Charlotte. But it isn't just the business that's changed. So has Jodell. He now has a wife and a child, and also a sponsor. And they're all depending on him to win--expecting him to win. Is the pressure of always having to finish first beginning to take a toll on Jodell? A fiery crash could end his career...in *Race to Glory*--the exciting sequel to *White Lightning* and *Road to Daytona*. The Early Laps of Stock Car Racing Betty Boles Ellison, 2014-09-08 The first organized, sanctioned American stock car race took place in 1908 on a road course around Briarcliff, New York--staged by one of America's early speed maven, William K. Vanderbilt, Jr. A veteran of the early Ormond-Daytona Beach speed trials, Vanderbilt brought the Grand Prize races to Savannah, Georgia, the same year. What began as a rich man's sport eventually became the working man's sport, finding a home in the South with the infusion of moonshiners and their souped-up cars. Based in large part on statements of drivers, car owners and

others garnered from archived newspaper articles, this history details the development of stock car racing into a megasport, chronicling each season through 1974. It examines the National Association for Stock Car Automobile Racing's 1948 incorporation documents and how they differ from the agreements adopted at NASCAR's organization meeting two months earlier. The meeting's participants soon realized that their sport was actually owned by William H.G. Bill France, and its consequential growth turned his family into billionaires. The book traces the transition from dirt to asphalt to superspeedways, the painfully slow advance of safety measures and the shadowy economics of the sport.

The Godfather of New England Stock Car Racing Adrienne J Venditti, 2019-05-18 This book is dedicated to the man whose life inspired me to tell his story. His name is D. Anthony Venditti, widely known as the Godfather of Stock Car Racing in New England. It is also dedicated to my mother, with her eternal love and devoted support of her beloved Anthony, her family, and racing. She and the Godfather enabled and empowered our family to persevere in the sport. This is to all those with unending convictions in the Godfather and to the Seekonk Fraternity of racing. This book is a pictorial and a closer look at the life of the

Godfather. He was the youngest promoter in motor sports in the United States in the 1940s. And as a twenty-five-year-old, he planned, engineered, and built his speedway. He was young and full of ambition. It was his dream, an American dream, to build, open, and operate his speedway at the end of World War II, in 1946. Yet when in his advanced years, he then became known as the oldest living promoter in stock car racing. He consecutively ran his race plant each year, faithfully opening his facility, without fail. He never missed a season under his reign—an unheard-of feat of forty-five years as a stock car racing promoter. Seekonk Speedway continues to run without any ambiguity by the same family. The speedway is proudly still in business all these seventy-three consecutive years of racing in the books. Anthony is celebrated and acclaimed for his pioneering in the American sport of auto racing, awarded RPM's "1978 Promoter of the Year." It was with great adoration of the sports community that he is acknowledged for his forethought and far-reaching ideas of innovation pertaining to mechanical engineering, safety features in facility construction, and administrative procedures. Mr. Venditti is attributed to numerous awards for his devotion for the betterment of the sport of auto racing.
