**Story Time Success** Katie Fitzgerald, 2016-06-23 Story time is a popular activity in public libraries. Unfortunately, many librarians (and not just children's librarians) are thrust into the role of providing this service have not taken a course or had the necessary experience of performing story times. Story times are so popular that they are now offered to children of many ages, not just to preschoolers. This book will help librarians who have never done story time to learn to promote, plan, and perform story times, and will be useful to experienced librarians to build on their story time repertoires. Because story times are essential components of library service to children and in such demand, in many libraries, even librarians who have never done story time before are being asked to step into that role. *Story Time Success: A Practical Guide for Librarians* is comprehensive handbook which can help any librarian learn to promote, plan, and perform story times even with no prior training or experience. Key elements include: Customizable planning templates Hints for choosing appropriate books and other materials Suggestions for overcoming performance anxiety Troubleshooting for common story time problems and pitfalls Evaluation rubrics for performers and supervisors Veterans and beginners alike will find many useful pointers for establishing and improving their story time skills and repertoires.

Story Genius Lisa Cron, 2016-08-09 Following on the heels of Lisa Cron's breakout first book, *Wired for Story*, this writing guide reveals how to use cognitive storytelling strategies to build a scene-by-scene blueprint for a riveting story. It's every novelist's greatest fear: pouring their blood, sweat, and tears into writing hundreds of pages only to realize that their story has no sense of urgency, no internal logic, and so is a page one rewrite. The prevailing wisdom in the writing community is that there are just two ways around this problem: pantsing (winging it) and plotting (focusing on the external plot). Story coach Lisa Cron has spent her career discovering why these methods don't work and coming up with a powerful alternative, based on the science behind what our brains are wired to crave

in every story we read (and it's not what you think). In *Story Genius* Cron takes you, step-by-step, through the creation of a novel from the first glimmer of an idea, to a complete multilayered blueprint—including fully realized scenes—that evolves into a first draft with the authority, richness, and command of a riveting sixth or seventh draft.

She offers expert advice on how to choose the best picture books and provides lists of books for addressing particular literacy needs. A perfect primer for those new to the task, this guide illustrates how to make this activity a favorite of children and provides tips for progressing in the role of storyteller, with ideas for engaging your audience and enhancing enjoyment. Beginning with the basics of performing a library storytime, each subsequent chapter builds on that knowledge, offering ways to infuse technology, special needs adaptations, and music into the story. **Counting on Katherine: How Katherine Johnson Saved Apollo 13** Helaine Becker, 2018-06-19 As a child, Katherine Johnson loved to count. She counted the steps on the road, the number of stars in the sky, the number of dishes and spoons she washed in the kitchen sink. Boundless, curious, and excited by calculations, young Katherine longed to know as much as she could about math, about the universe. From Katherine's early beginnings as a gifted student to her heroic accomplishments as a prominent mathematician at NASA, this is the story of a ground-breaking American icon who not only calculated the course of moon landings but, in turn, saved lives. A Christy Ottaviano Book

**Story Hour** Jeri Kladder, 2003-07-10 Story time at the public library is the first exposure to books outside the home for many preschool children. For the librarian, it is an exciting opportunity to instill in youngsters a love of reading and books. But coming up with new ideas that hold the children's attention can be trying. Until now. Here are 55 tried-and-true story hour programs with a thematic approach. All are highly flexible and adaptable across the full preschool age range. Most of the ideas are arranged under one of eight specific themes that include four to eight one-hour programs: barnyard animals, the Caldecott Medal, colors, families, a storytelling

feast, the five senses, reptiles and amphibians, and around the world. There are also 18 individual holiday and seasonal programs. All story hours provide ideas for name tags, suggested audiovisual materials, recommended story, poetry and song selections, additional titles and a full description of the activity.

Chicken Story Time Sandy Asher, 2016-12-13 A wonderfully silly take on library story time that's perfect for children, chickens, and everyone in between. Why did the chicken cross the road? To get to story time at the library, of course! The children like the chicken, the chicken likes the children, and everyone loves story time. So it's no surprise that more children (and more chickens!) get in on the fun until there are more kids and critters than the librarian knows what to do with. Luckily, she comes up with a creative solution and manages to find little R & R for herself. Fans of Bats in the Library and Library Lion will fall in love and story time will never be the same!
