Being Bollywood Viraj Suparsad,2023-10-14 Through engaging media coverage of the public lives of Bollywood actresses, this book unveils understandings of idealized femininity and gender within this cultural context. Beyond its own borders, such a context is unique given the global relevance of content from and about Bollywood with members of the diaspora as well as those culturally Indian individuals that are no longer part of the diaspora. This book thus engages these actresses as global Indian celebrities who are framed and presented as contemporary urban Indian exemplars of gender via media coverage about them. The book therefore offers a robust and detailed case study of the Bollywood star system so as to demonstrate how the nuances of this unique cultural context influence the dimensions of postfeminism and celebrity culture therein.

Acts of Media Narrain, Siddharth,2022-11-10 Acts of Media seeks to consolidate a field of multidisciplinary work around media technologies that intersects with legal scholarship. This volume brings together contributions from leading academics, lawyers, researchers and policy experts about contemporary India and Sri Lanka. The approaches to law and media taken in this volume challenge us to think outside of traditional disciplinary descriptions. Rather than approaching the law as being outside of, and constantly catching up with the media, the contributors of this book view law and media as being deeply intertwined. The chapters in this volume address the relationship between law and media through different entry points---disputes over media and information systems shaping law, theories of law that incorporate media forms, and law and media co-producing trials. The multidisciplinary nature of this book has facilitated a rich and productive conversation among legal scholars, researchers and lawyers from disciplines such as constitutional law, law and technology, media and cinema studies, legal anthropology and political science.

India Connected Ravi Agrawal,2018-11 Former chief CNN India correspondent and award-winning journalist Ravi Agrawal takes readers on a journey across the Subcontinent, through its remote rural villages and its massive metropolises, seeking out the nexuses of change created by smartphones, and with them connection to the internet. As always with India, the numbers are staggering: in 2000, 20 million Indians had access to the internet; by 2017, 465 million were online, with three Indians discovering the internet every second. By 2020, India's online community is projected to exceed 700 million, and more than a billion Indians are expected to be online by 2025. In the course of a single generation, access to the internet has progressed from dial-up connections on PCs, to broadband access, wireless, and now 4G data on phones. The rise of low-cost smartphones and cheap data plans has meant the country leapfrogged the baby steps their Western counterparts took toward digital fluency. The results can be felt in every sphere of life, upending traditions and customs and challenging conventions. Nothing is untouched, from arranged marriages to social status to business start-ups, as smartphones move the entire economy from cash-based to credit-based. Access to the internet is affecting the progress of progress itself. As Agrawal shows, while they offer immediate and sometimes mind-altering access to so much for so many, smartphones create no immediate utopia in a culture still driven by poverty, a caste system, gender inequality, illiteracy, and income disparity. Internet access has provided greater opportunities to women and changed the way in which India's many illiterate poor can interact with the world, but it has also meant that pornography has become more readily available. Under a government keen to control content, it has created tensions. And in a climate of hypernationalism, it has fomented violence and even terrorism. The influence of smartphones on the world's largest democracy is nonetheless pervasive and irreversible, and India Connected reveals both its dimensions and its implications.

A Woman Like Her Sanam Maher,2020-01-28 A NEW YORK TIMES NOTABLE BOOK OF 2020 An exemplary work of investigative journalism. —Parul Sehgal, The New York Times The murder of a Pakistani social media star exposes a culture divided between accelerating modernity and imposed traditional values—and the tragedy of those caught in the middle. In 2016, Pakistan's first social media celebrity, Qandeel Baloch, was murdered in a suspected honor killing. Her death quickly became a media sensation. It was both devastatingly routine and breathtakingly brutal, and in a new media landscape, it couldn't be ignored. Qandeel had courted attention and outrage with a talent for self-promotion that earned her comparisons to Kim Kardashian—and made her the constant victim of harassment and death threats. Social media and reality television exist uneasily alongside honor killings and forced marriages in a rapidly, if unevenly, modernizing Pakistan, and Qandeel Baloch's story became emblematic of the cultural divide. In this definitive and up-to-date account, Sanam Maher reconstructs the story of Qandeel's life and explores the depth and range of her legacy from her impoverished hometown rankled by her infamy, to the aspiring fashion models who follow her footsteps, to the Internet activists resisting the same vicious online misogyny she faced. Maher depicts a society at a crossroads, where women serve as an easy scapegoat for its anxieties and dislocations, and teases apart the intrigue and myth-making of the Qandeel Baloch story to restore the humanity of the woman at its center.

The Great Indian Phone Book Assa Doron,Robin Jeffrey,2013-04-02 In 2001, India had 4 million cell phone subscribers. Ten years later, that number had exploded to more than 750 million. Over just a decade, the mobile phone was transformed from a rare and unwieldy instrument to a palm-sized, affordable staple, taken for granted by poor fishermen in Kerala and affluent entrepreneurs in Mumbai alike. The Great Indian Phone Book investigates the social revolution ignited by what may be the most significant communications device in history, one which has disrupted more people and relationships than the printing press, wristwatch, automobile, or railways, though it has qualities of all four. In this fast-paced study, Assa Doron and Robin Jeffrey explore the whole ecosystem of the cheap mobile phone. Blending journalistic immediacy with years of field-research experience in India, they portray the capitalists and bureaucrats who control the cellular infrastructure and wrestle over bandwidth rights, the marketers and technicians who bring mobile phones to the masses, and the often poor, village-bound users who adapt these addictive and sometimes

troublesome devices to their daily lives. Examining the challenges cell phones pose to a hierarchy-bound country, the authors argue that in India, where caste and gender restrictions have defined power for generations, the disruptive potential of mobile phones is even greater than elsewhere. The Great Indian Phone Book is a rigorously researched, multidimensional tale of what can happen when a powerful and readily available technology is placed in the hands of a large, still predominantly poor population.

Sita Under The Crescent Moon Annie Ali Khan,2019-06-18 In present-day Pakistan, in the far corners of Lyari in Karachi, or Hingol in Balochistan, or Thatta in Sindh, tightly knit groups of women keep alive the folklore, songs and legends of Sati—their name for Sita in the Ramayana. The way they sustain the attendant rituals and practices in a nation state with a fixed idea of what constitutes citizenship and who gets to be a primary citizen is at the heart of this book. In *Sita under the Crescent Moon*, author Annie Ali Khan travels with women devotees—those without resources, subject to intense violence—who, through the bravest and simplest act, that of a pilgrimage, retrace what they remember of the goddess. Who are these pilgrims? How did this relationship with Sati start, and why is she so significant? How do their oral mytho-histories compare to colonial narratives or mainstream definitions of Sati? Even while retelling the stories of these pilgrims, *Sita under the Crescent Moon* studies how worship has altered the mores of a land—and how the sacral site, made up of clay and thread and tumble weed, grants a woman power to fight against her circumstances.

South Asian Pornographies Darshana Sreedhar Mini,Anirban K. Baishya,2024-06-21 *South Asian Pornographies* is the first consolidated volume that explores the relationships between pornography, obscenity, law and desire in South Asia. Focusing on case studies from India, Sri Lanka and Bangladesh while gesturing towards other countries in South Asia, the authors of this volume come from fields as varied as history, literature, media and communication, and the visual arts. The book proposes that as a geo-political location, South Asia has a unique relationship to pornography, given the multiplicity of cultural and legal-censorial regimes that define the obscene and the permissible. South Asian case studies can demonstrate how pornography in the region is often defined in oblique terms, finding reflection in various modes of popular (and sometimes underground) culture, bypassing legal and censorial constraints. Like questions of identity that can only be answered in the plural (identities rather than identity), this book demonstrates how a range of pornographies constitutes the force field of sexualized media in South Asia. It will be of interest to researchers and advanced students of Communication Studies, Cultural Studies, Film Studies, History, Sociology, and Social and Cultural Anthropology. The chapters in this book were originally published in the journal *Porn Studies*.

Focus: Popular Music in Contemporary India Natalie Sarrazin,2019-11-28 *Focus: Popular Music in Contemporary India* examines India’s musical soundscape beyond the classical and folk traditions of old to consider the culturally, socially, and politically rich contemporary music that is defining and energizing an Indian youth culture on the precipice of a major identity shift.
