Transactions on Engineering Technologies Sio-Long Ao,Haeng Kon Kim,Xu Huang,Oscar Castillo,2017-04-03 This volume contains selected revised and extended research articles written by prominent researchers who participated in the International MultiConference of Engineers and Computer Scientists 2016, held in Hong Kong, 16-18 March 2016. Topics covered include engineering physics, communications systems, control theory, automation, engineering mathematics, scientific computing, electrical engineering, and industrial applications. The book showcases the tremendous advances in engineering technologies and applications, and also serves as an excellent reference work for researchers and graduate students working on engineering technologies, physical sciences and their applications.

Target: 20 Years of Design for All Target,2019-09-03 Target sparked the democratization of design two decades ago, as the first retailer to forge partnerships with well-known and emerging designers to offer high style without the high price tag. This idea altered the fashion and style landscape forever--and became a retail game changer. Now readers can discover the inside story from those who were there--the designers, photographers, creators, superfans, and, of course, the Target guests. For 20 years, Target's design partnerships have made a mark on culture at large, with the retailer's brand promise of Expect More. Pay Less. embracing the belief that design should be accessible, too. At the center of Design for All are the designers -- offering exclusive collections in stores or at another Target first, the pop-up shop. From Michael Graves to Isaac Mizrahi, John Paul Gaultier to Philippe Starck, Jason Wu, Alexander McQueen, Gwen Stefani and more, Target has collaborated with more than 180 designers throughout the past two decades. And this book covers it all with new glimpses behind some of the most iconic collections including Missoni, Stephen Sprouse, and Lily Pulitzer. Target: 20 Years of Design for All is the definitive tale of Target's impact on culture and retail with page after page recounting every one of those memorable years. Through beautiful photographs, advertising stills, sketches, and interviews with designers, influencers and Target insiders, this book offers everything readers love about Target. It's chic and approachable. Stylish and inclusive. With surprises around every corner.

Computer Science and Convergence James (Jong Hyuk) Park,Han-Chieh Chao,Mohammad S. Obaidat,Jongsung Kim,2011-12-10 Computer Science and Convergence is proceedings of the 3rd FTRA International Conference on Computer Science and its Applications (CSA-11) and The 2011 FTRA World Convergence Conference (FTRA WCC 2011). The topics of CSA and WCC cover the current hot topics satisfying the world-wide ever-changing needs. CSA-11 will be the most comprehensive conference focused on the various aspects of advances in computer science and its applications and will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of CSA. In addition, the conference will publish high quality papers which are closely related to the various theories and practical applications in CSA. Furthermore, we expect that the conference and its publications will be a trigger for further related research and technology improvements in this important subject. The main scope of CSA-11 is as follows: - Mobile and ubiquitous computing - Dependable, reliable and autonomic computing - Security and trust management - Multimedia systems and services - Networking and communications - Database and data mining - Game and software engineering - Grid, cloud and scalable computing - Embedded system and software - Artificial intelligence - Distributed and parallel algorithms - Web and internet computing - IT policy and business management WCC-11 is a major conference for scientists, engineers, and practitioners throughout the world to present the latest research, results, ideas, developments and applications in all areas of convergence technologies. The main scope of WCC-11 is as follows: - Cryptography and Security for Converged environments - Wireless sensor network for Converged environments - Multimedia for Converged environments - Advanced Vehicular Communications Technology for Converged environments - Human centric computing, P2P, Grid and Cloud computing for Converged environments - U-Healthcare for Converged environments - Strategic Security Management for Industrial Technology - Advances in Artificial Intelligence and Surveillance Systems

MAXON Cinema 4D R20: A Detailed Guide to XPresso Pradeep Mamgain,2020-07-30 XPresso is a node based system in Cinema 4D that is used to create automated object interactions. You can create these interactions by drawing wires from one node to another. From rotating fan blades to rigged objects, from propellers to the bouncing ball, from clock mechanism to organic movement of a jellyfish, XPresso allows you to create animations with ease. The MAXON Cinema 4D R20: A Detailed Guide to XPresso book introduces students to the XPresso module of the CINEMA 4D which is a node-based visual scripting language. This book covers XPresso Editor and different nodes of the XPresso and MoGraph classes and takes you step-by-step through the whole process of building node networks in XPresso Editor. Numerous examples and hands-on exercises are used to show the functioning of the nodes. Moving ahead, this book broadens your XPresso knowledge by taking you step-by-step through the process of creating four Cinema 4D lighting presets. You can use these presets to quickly and easily illuminate the scenes and produce cool looking renders. Practicing is one of the best ways to improve skills. This book contains practice activities which you are highly encouraged to complete and gain confidence for real-world projects. By completing these activities, you will be able to master the powerful capabilities Cinema 4D. By the time you're done, you'll be ready to create hard-surface models in Cinema 4D. If you buy this book, you'll also get access to all preset files, Cinema 4D files, texture files, and any other resource used in the book. You are free to use these resources in your own projects personal or commercial. These working files allow you to follow along with the author throughout the lessons. This book shares tips, tricks, notes, and cautions throughout, that will help you become a better 3D artist and you will be able to speed up your workflow. This book is aimed to be a solid teaching resource for learning XPresso module with Cinema 4D R20. It avoids any jargon and explains concepts and techniques in an easy-to-understand manner. The first page of the every unit summarizes the topics that will be covered in the unit. Hands-on exercises in this book instruct users how things can be done in XPresso step-by-step. As students move from one exercise to another, they will be gaining robust knowledge about the XPresso module of Cinema 4D. What are the key features of the book? Explains XPresso Editor and node-based approach. Covers nodes of the XPresso and MoGraph classes. Step-by-step instructions to create four lighting presets from scratch. Covers nodes and features in detail. Features 30 examples showing functioning of the nodes. Features more than 18 hands-on exercises – complete with before and after files. Contains 10 practice activities to test the knowledge gained. Additional guidance is provided in the form of tips, notes, and cautions. Important terms are in bold face so that you never miss them. The content under “What just happened?” heading explains the working of the instructions. The content under “What next?” heading tells you about the procedure you will follow after completing a step(s). Includes an ePub file that contains the color images of the screenshots/illustrations used in the textbook. These color images will help you in the learning process. This ePub file is included with the resources. Tech support from the author. Access to each exercise's initial and final states along with the resources used in hands-on exercises. Quiz to assess the knowledge.

GOOGLE CLOUD QUICKSTART E. Paintsil,2021-12-26 There is no easy and consistent way to introduce a beginner to Google Cloud and help him or her navigate the steep learning curve of the cloud platform. Again, it has never been easy to find a book that focuses on an aspect of Google Cloud and give a helping hand to gain the requisite practical experience to takeoff on your own. This

book introduces beginner and intermediate users alike to Google Cloud Platform (GCP). I believe that one of the best ways to gain practical experience is to focus on infrastructure as a service and practice how to configure the important services in this domain. By this, I hope to bring the materials necessary to experience Google Cloud infrastructure in one place to make it easy for students to learn Google Cloud in a short time. As a textbook, I hope to explain the concepts behind the common but important infrastructure resources and services.

Placing Names Merrick Lex Berman,Ruth Mostern,Humphrey Southall,2016-08-08 Well before the innovation of maps, gazetteers

served as the main geographic referencing system for hundreds of years. Consisting of a specialized index of place names, gazetteers traditionally linked descriptive elements with topographic features and coordinates. Placing Names is inspired by that tradition of discursive place-making and by contemporary approaches to digital data management that have revived the gazetteer and guided its development in recent decades. Adopted by researchers in the Digital Humanities and Spatial Sciences, gazetteers provide a way to model the kind of complex cultural, vernacular, and perspectival ideas of place that can be located in texts and expanded into an interconnected framework of naming history. This volume brings together leading and emergent scholars to examine the history of the gazetteer, its important role in geographic information science, and its use to further the reach and impact of spatial reasoning into the digital age.

The papers are organized in topical sections as follows: Part I: Program verification; SAT and SMT; Timed and Dynamical Systems; Verifying Concurrent Systems; Probabilistic Systems; Model Checking and Reachability; and Timed and Probabilistic Systems. Part II: Bisimulation; Verification and Efficiency; Logic and Proof; Tools and Case Studies; Games and Automata; and SV-COMP 2020.

Automating with SIMATIC S7-1500 Hans Berger,2017-09-19 The SIMATIC S7-1500 programmable logic controller (PLC) sets standards in productivity and efficiency. By its system performance and with PROFINET as the standard interface, it ensures short system response times and a maximum of flexibility and networkability for demanding automation tasks in the entire production industry and in applications for medium-sized to high-end machines. The engineering software STEP 7 Professional operates inside TIA Portal, a user interface that is designed for intuitive operation. Functionality includes all aspects of automation: from the configuration of the controllers via programming in the IEC languages LAD, FBD, STL, and SCL up to the program test. In the book, the hardware components of the automation system S7-1500 are presented including the description of their configuration and parameterization. A comprehensive introduction into STEP 7 Professional V14 illustrates the basics of programming and troubleshooting. Beginners learn the basics of automation with Simatic S7-1500, users switching from other controllers will receive the relevant knowledge.
