THE SHIITES AND AL-AQSA MOSQUE Tariq Ahmad Hijazi, 2022-10-26 The goal of this book is to unite the ranks of this Ummah to support our sacred sites and to love those individuals whom Allah used to win these places for Islam. We also intend to block the way in the face of these Jewish 'professors' and orientalist who find in the Shiite books, a ready tool for weakening the position that Al-Aqsa Mosque occupies in the hearts of the Muslims. As such, those dubious narrations whose goal is to cast doubt on the sanctity of Al-Aqsa Mosque must be meticulously scrutinized and the sanctity of that mosque must be proved through argument and authentic evidences.

Mutagenesis, Cytotoxicity and Crop Improvement Tariq Ahmad Bhat, 2021-01-11 Induced mutagenesis is a common and promising method for the screening of new crops with improved production methods, and has made a tremendous contribution to crop improvement. Now, as the techniques of molecular biology become more widely adopted by plant breeders, this comprehensive summary sets mutation breeding within a contemporary context and relates it to other breeding techniques. This book opens a new chapter of inducing mutations at the gene level, and details techniques that can be used to harvest and exploit such mutation to improve the productivity of crops, particularly cereals, grains and vegetables. The chapters within this volume are supported by diagrams, tables and graphs to make the content more comprehensible. The book will be extremely useful for advanced undergraduates, graduates, postgraduate students, and research scientists of botany, agriculture, horticulture, genetics, biotechnology, biochemistry and agronomy.

A Study of Children in Foster Care Institutions in Delhi, India Syed Tariq Ahmad, 2012-02 Scientific Essay from the year 2007 in the subject Pedagogy - Nursery Pedagogy, Early Childhood Education, Kuvempu University, language: English, abstract: The present research study is a field-based empirical study of Children in two Model Foster Care Institutions in South Delhi viz. The S O S Village, Bawana, Delhi, and Prayas, Delhi. The study highlights that in spite of setbacks in their normal childhood, the inmates in these institutions do not seem to be suffering from any personality problems, or any major psychological setback in terms of psychological well being. A majority of them do not find their institution and the stay there as highly satisfactory. They do not seem to enjoy their residence except that they realise their compulsion and no-option situation. The elder children, as they grow up, feel the inadequacy increasingly.

Concepts in Muslim Philosophy Mudasir Ahmad Tantray, Tariq Rafeeq Khan, Muslim philosophy is the philosophy which tries to discuss and clarify the fundamental problems of the world. The fundamental problems of the world are Existence, universals, mind, thought, language, world, soul, reality, knowledge and values. However, these are not the problems but these are the questions which demands answers from the philosopher's stance and thinking. It is a matter of fact that these problems or issues could be answered and resolved through other methodological ways but the need of the hour is that philosophical ways and methods distinguishes them from others disciplines.

Autophagy S. Tariq Ahmad,Jin-A. Lee,2013-07-29 Autophagy is a highly regulated process that promotes vital cellular homeostasis by allowing bulk non-specific degradation of the cytoplasmic contents, mainly damaged and/or surplus organelles and proteins. Autophagy is ubiquitous in eukaryotes, highly conserved from yeast to mammals, and occurs in all mammalian tissues. Historically, autophagy was characterized as the coping response to limited energy resources (starvation), to generate additional biomolecular raw materials. However, research in the past two decades has demonstrated the indispensable roles of autophagy in eukaryotic physiology and pathology with respect to wide-ranging processes such as development, differentiation, aging, immunity, cancer biology, and neurodegenerative disorders. In this chapter, we will provide an overview of the types of autophagy and mechanisms of the autophagy pathway followed by a discussion of the current understanding of the role of autophagy in neuronal physiology, pathology of neurodegenerative disorders, and potential therapeutic approaches.
