Trouble starts though when a handsome singer comes looking for a room, forcing Izzy to decide if it's worth opening up her heart again, especially to a much younger man. Can a shared love of music lead a pop star and a single mom to fall in love? Anything's possible in the small town of Romance.

Toxic Loopholes Craig Collins,2010-03-08 The EPA was established to enforce the environmental laws Congress enacted during the 1970s. Yet today lethal toxins still permeate our environment, causing widespread illness and even death. Toxic Loopholes investigates these laws, and the agency charged with their enforcement, to explain why they have failed to arrest the nation's rising environmental crime wave and clean up the country's land, air and water. This book illustrates how weak laws, legal loopholes and regulatory negligence harm everyday people struggling to clean up their communities. It demonstrates that our current system of environmental protection pacifies the public with a false sense of security, dampens environmental activism, and erects legal barricades and bureaucratic barriers to shield powerful polluters from the wrath of their victims. After examining the corrosive economic and political forces undermining environmental law making and enforcement, the final chapters assess the potential for real improvement and the possibility of building cooperative international agreements to confront the rising tide of ecological perils threatening the entire planet.

**Endangered Minds** Jane M. Healy,2011-07-19 Is today's fast-paced media culture creating a toxic environment for our children's brains? In this landmark, bestselling assessment tracing the roots of America's escalating crisis in education, Jane M. Healy, Ph.D., examines how television, video games, and other components of popular culture compromise our children's ability to concentrate and to absorb and analyze information. Drawing on neuropsychological research and an analysis of current educational practices, Healy presents in clear, understandable language: -- How growing brains are physically shaped by experience -- Why television programs -- even supposedly educational shows like Sesame Street -- develop habits of mind that place children at a disadvantage in school -- Why increasing numbers of children are diagnosed with attention deficit disorder -- How parents and teachers can make a critical difference by making children good learners from the day they are born

**Best Canadian Poetry 2020** Marilyn Dumont,2020-10-20 A best poem fulfills the promise set out in its first syllable, word, syntax, line break, and soundscape to its reader/listener. “What is a best poem?” asks Best Canadian Poetry 2020 guest editor Marilyn Dumont, the critically acclaimed and award-winning author of four poetry collections. “A best poem fulfills the promise set out in its first syllable, word, syntax, line break, and soundscape to its reader/listener. The work required to complete a poem takes risk, skill, and practice, and the poems selected for this anthology all exhibit such attributes.” In precise language that exposes the attitudes inherent in English, innovative forms that illuminate their content, and mastery of music akin to a composer’s score, the fifty poems collected here fulfill their promises and, in doing so, demonstrate the country’s rich diversity and talent for invention—and the promises it might fulfill as well.
