World Protests Isabel Ortiz, Sara Burke, Mohamed Berrada, Hernán Saenz Cortés, 2021-11-03 This is an open access book. The start of the 21st century has seen the world shaken by protests, from the Arab Spring to the Yellow Vests, from the Occupy movement to the social uprisings in Latin America. There are periods in history when large numbers of people have rebelled against the way things are, demanding change, such as in 1848, 1917, and 1968. Today we are living in another time of outrage and discontent, a time that has already produced some of the largest protests in world history. This book analyzes almost three thousand protests that occurred between 2006 and 2020 in 101 countries covering over 93 per cent of the world population. The study focuses on the major demands driving world protests, such as those for real democracy, jobs, public services, social protection, civil rights, global justice, and those against austerity and corruption. It also analyzes who was demonstrating in each protest; what protest methods they used; who the protestors opposed; what was achieved; whether protests were repressed; and trends such as inequality and the rise of women's and radical right protests. The book concludes that the demands of protestors in most of the protests surveyed are in full accordance with human rights and internationally agreed-upon UN development goals. The book calls for policy-makers to listen and act on these demands.

Changing the Game Kelly McFall, Abigail Perkiss, 2022-07-01 Changing the Game is set at a fictional university in the mid-1990s. A debate over the role of athletics quickly expands to encompass demands that women's sports and athletes receive more resources and opportunities. The result is a firestorm of controversy on and off campus. Drawing on congressional testimonies from the Title IX hearings, players advance their views in student government meetings, talk radio shows, town meetings, and impromptu rallies. As students wrestle with questions of gender parity and the place of athletics in higher education, they learn about the implementation—and implications—of legal change in the United States.

Trillion Dollar Triage Nick Timiraos, 2022-03-01 The inside story, told with “insight, perspective, and stellar reporting,” of how an unassuming civil servant created trillions of dollars from thin air, combatted a public health crisis, and saved the American economy from a second Great Depression (Alan S. Blinder, former Vice Chair of the Federal Reserve). By February 2020, the U.S. economic expansion had become the longest on record. Unemployment was plumbing half-century lows. Stock markets soared to new highs. One month later, the public health battle against a deadly virus had pushed the economy into the equivalent of a medically induced coma. America's workplaces—offices, shops, malls, and

factories—shuttered. Many of the nation's largest employers and tens of thousands of small businesses faced ruin. Over 22 million American jobs were lost. The extreme uncertainty led to some of the largest daily drops ever in the stock market. Nick Timiraos, the Wall Street Journal's chief economics correspondent, draws on extensive interviews to detail the tense meetings, late night phone calls, and crucial video conferences behind the largest, swiftest U.S. economic policy response since World War II. Trillion Dollar Triage goes inside the Federal Reserve, one of the country's most important and least understood institutions, to chronicle how its plainspoken chairman, Jay Powell, unleashed an unprecedented monetary barrage to keep the economy on life support. With the bleeding stemmed, the Fed faced a new challenge: How to nurture a recovery without unleashing an inflation-fueling, bubble-blowing money bomb? Trillion Dollar Triage is the definitive, gripping history of a creative and unprecedented battle to shield the American economy from the twin threats of a public health disaster and economic crisis. Economic theory and policy will never be the same.

The Ladies of Covington Send Their Love Joan A. Medlicott,2011-04-01 Cautious Grace Singleton, uncertain of her place in an intimidating world. Outspoken Hannah Parrish, harboring private fear that may change her life. Fragile Ameila Declose, shattered by devastating grief. Circumstance has brought these disparate women of a certain age to a Pennsylvania boardinghouse where three square meals and a sagging bed is the most any of them can look forward to. But friendship will take them on a starting journey to a rundown North Carolina farmhouse where the unexpected suddenly seems not only welcome, but delightfully promising. And with nothing more than a bit of adventure in mind, each woman will be surprised to find that they years they've reclaimed from the shadow of twilight will offer something far more rare: confidence, competence, and even another chance at love... The Tampa Tribune calls Joan A Mendicott's The Ladies of Covington Send Their Love A must-read for women of all ages.

Abolishing Nuclear Weapons George Perkovich,2017-10-03 Nuclear disarmament is firmly back on the international agenda. But almost all current thinking on the subject is focused on the process of reducing the number of weapons from thousands to hundreds. This rigorous analysis examines the challenges that exist to abolishing nuclear weapons completely, and suggests what can be done now to start overcoming them. The paper argues that the difficulties of 'getting to zero' must not preclude many steps being taken in that direction. It thus begins by examining steps that nuclear-armed states could take in cooperation with others to move towards a world in which the task of prohibiting nuclear weapons could be realistically envisaged. The remainder of the paper focuses on the more distant prospect of prohibiting nuclear weapons, beginning with the challenge of verifying the transition from low numbers to zero. It moves on to examine how the civilian nuclear industry could be managed in a nuclear-weapons-free world so as to prevent rearmament. The paper then considers what political-security conditions would be required to make a nuclear-weapons ban enforceable and explores how enforcement might work in practice. Finally, it addresses the latent capability to produce nuclear

weapons that would inevitably exist after abolition, and asks whether this is a barrier to disarmament, or whether it can be managed to meet the security needs of a world newly free of the bomb.

A Christmas Promise (Christmas Novella 7) Anne Perry, 2013-08-01 A young girl is searching for the truth behind her uncle's death. Can she solve the mystery before the Christmas bells toll? Set in the Victorian world where Anne Perry reigns supreme, A Christmas Promise culminates in a radiant finale that will remain with you long after the final page is turned. Perfect for fans of C. J. Sansom and Harriet Smart. '[Perry] writes with detail that invades the senses' - Lincoln Journal Star Three days before Christmas, in the freezing slums of London's East End, thirteen-year-old Gracie Phipps encounters Minnie Maude Mudway, who is only eight, alone, and determined to find her friend Charlie. However Charlie is no ordinary companion: He is a donkey who belonged to Minnie Maude's Uncle Alf. Gracie is shocked to learn that only the day before, someone brutally murdered Uncle Alf and made off with his rag-and-bones cart and the beloved beast who pulled it. Now, come hell or high water, Minnie Maude means to rescue Charlie-and Gracie decides to help. But the path that Uncle Alf had taken to his death was not his regular route, and in his cart were not just the usual bits of worn silver and china but also, the children are told, a dazzling golden box. What its contents may have been no one can say, for, like Charlie and the cart, it too has vanished. Uncertain where their four-legged friend may be, the children are drawn into an adult world far beyond their innocent imaginings. And in a shop gleaming with beautiful objects, they recruit an unexpected ally: Mr. Balthasar, who warns them that the shining prize may be just a Pandora's box of evil... What readers are saying about A Christmas Promise: 'You feel you are there in Victorian England with all the smells, sights and sounds that accompany the story-telling' 'Very atmospheric, entertaining, well written and just that bit different' 'Five stars'

Globalisation and Labour Ronaldo Munck, 2002-07 Intellectual fashion likes to see us as consumers, but the world of production and services still needs workers. Globalization has been driven by the transnational corporations search for cheap labour, but little attention has been paid to the consequent changes in the world of work. Ronaldo Munck argues that the national period in labour history is decisively over.

Thinking about Deterrence Air University Press, 2014-09-01 With many scholars and analysts questioning the relevance of deterrence as a valid strategic concept, this volume moves beyond Cold War nuclear deterrence to show the many ways in which deterrence is applicable to contemporary security. It examines the possibility of applying deterrence theory and practice to space, to cyberspace, and against non-state actors. It also examines the role of nuclear deterrence in the twenty-first century and reaches surprising conclusions.
