James,2016-06-23 Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

The Andes And The Amazon James Orton,2021-06-05 The Andes And The Amazon: Or, Across The Continent Of South America. This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional\unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

Andean Adventures Allan J Alonzo Wind,2020-08-27 A memoir of public health and community development service and spiritual discovery overseas in Peace Corps and nongovernmental organizations and USAID, sharing with self-deprecating humor experiences across the Andes and Latin America. Full of anecdotes and some remarkable stories from Ecuador, Bolivia and Peru. A lot of reflecting on the role and structure of foreign assistance, on religion, and on other topics we all spend time questioning and dealing with. For some, a provocative discussion and meditation on searching for meaning and purpose after college. A story of successes, failures, redemption, challenges, faith and perseverance. Doctor Alonzo writes with humor and wisdom, and shares his amazing journey, from his Peace Corps days through the beginning of his career with the US Agency for International Development. Along the way, he shares insights about life, love, religion, politics, and shares both his successes, failures, disappointments and lessons learned.

The Andes and the Amazon C. Reginald Enock, 2018-01-29 Excerpt from *The Andes and the Amazon: Life and Travel in Peru* Peru, almost alone of her neighbours in South America, possesses this characteristic. If she consisted only of a strip of coast-zone between the Andes and the sea, such as is Chile, she would have a much less important future. Brazil, with her vast area of territory, has no outlet or dominion on the Pacific. Bolivia is entirely surrounded by the territories of other States since her Pacific seaport of Antofagasta was taken by Chile, although she still enjoys a portion of navigable waters of the affluents of the Amazon. Ecuador borders only upon the Pacific, although the result of the arbitration of her dispute with Peru may allot her a strip of territory which includes navigable arms of the Marañon, so giving access to the main stream of the Amazon. Colombia alone fronts upon two oceans - the Pacific and the Caribbean Sea; but she has lost the sovereignty of the isthmus of Panama. Venezuela is a country without communication upon the Pacific or the Amazon; her interests are upon the Caribbean Sea and the Orinoco. The geographical situation of Peru is, then, favourable to future development, and it is only a question of time before the tide of human activity sets that way. Let us consider some of the physical features of the country. The Pacific coast-line of Peru is about miles in length, from its boundary in the north with Ecuador, to that in the south with Chile; that is, from Santa Rosa to the valley of Camarones. Its northernmost coast point is near latitude 3 south, and its southernmost near latitude 18 south. As to its longitude it lies between 62 and 81 west of Greenwich.¹ It is to be recollected that South America as a whole is almost totally east of North America; and Lima, the capital of Peru, is east of the capital of the United States - Washington. Along this coast-line there are many harbours and ports, whence produce is shipped and goods disembarked. Some of these are splendid harbours, especially Callao. Up the Amazon and Over the Andes Violet Cressy-Marcks,1932

Up the Amazon and Over the Andes Violet Cressy-Marcks,2007 Violet Cressy-Marcks was fearless when faced with physical threats. She had already been trekking from Cape to Cairo and had sleighed across the icy fields to Murmansk before going to the rivers and swamps of South America in 1929. In the Amazon she was woken by a snake which bit her below the knee. She grabbed the snake below the head, crawled out from under her mosquito net and went to find a rock to smash the snake's head. Then proceeded to use a scalpel to cut across the bite, pushing a tablet of permanganate of potash. She travelled around the world many times using all means of transport, from sleigh to canoe, horses, motor car and her own feet. Her extensive interests included archaeology, zoology, ethnology and geography. *Up the Amazon and over the Andes* was the first of her books describing her trips. She was a reporter in Chungking (China) for the Daily Express from 1943 to 1945 and interviewed Mao Tse-tung. After the war her journeys became less strenuous.
