*Breaking News* Alan Rusbridger,2018-11-27 An urgent account of the revolution that has upended the news business, written by one of the most accomplished journalists of our time Technology has radically altered the news landscape. Once-powerful newspapers have lost their clout or been purchased by owners with particular agendas. Algorithms select which stories we see. The Internet allows consequential revelations, closely guarded secrets, and dangerous misinformation to spread at the speed of a click. In *Breaking News*, Alan Rusbridger demonstrates how these decisive shifts have occurred, and what they mean for the future of democracy. In the twenty years he spent editing *The Guardian*, Rusbridger managed the transformation of the progressive British daily into the most visited serious English-language newspaper site in the world. He oversaw an extraordinary run of world-shaking scoops, including the exposure of phone hacking by London tabloids, the Wikileaks release of U.S.diplomatic cables, and later the revelation of Edward Snowden's National Security Agency files. At the same time, Rusbridger helped *The Guardian* become a pioneer in Internet journalism, stressing free access and robust interactions with readers. Here, Rusbridger vividly observes the media's transformation from close range while also offering a vital assessment of the risks and rewards of practicing journalism in a high-impact, high-stress time.

**The Shipping News** Annie Proulx,2008-01-01 Winner of the Pulitzer Prize, Annie Proulx's *The Shipping News* is a vigorous, darkly comic, and at times magical portrait of the contemporary North American family. Quoyile, a third-rate newspaper hack, with a "head shaped like a crenshaw, no neck, reddish hair...features as bunched as kissed fingertips," is wrenched violently out of his workaday life when his two-timing wife meets her just desserts. An aunt convinces Quoyile and his two emotionally disturbed daughters to return with her to the starkly beautiful coastal landscape of their ancestral home in Newfoundland. Here, on desolate Quoyile's Point, in a house empty except for a few mementos of the family's unsavory past, the battered members of three generations try to cobble up new lives. Newfoundland is a country of coast and cove where the mercury rarely rises above seventy degrees, the local culinary delicacy is cod cheeks, and it's easier to travel by boat and snowmobile than on anything with wheels. In this harsh place of cruel storms, a collapsing fishery, and chronic unemployment, the aunt sets up as a yacht upholsterer in nearby Killick-Claw, and Quoyile finds a job reporting the shipping news for the local weekly, the *Gammy Bird* (a paper that specializes in sexual-abuse stories and grisly photos of car accidents). As the long winter closes its jaws of ice, each of the Quoyiles confronts private demons, reels from catastrophe to minor triumph—in the company of the obsequious Mavis Bangs; Diddy Shovel the strongman; drowned Herald Prowse; cane-twirling Beety; Nutbeem, who steals foreign news from the radio; a demented cousin the aunt refuses to recognize; the much-zipped Alvin Yark; silent Wavey; and old Billy Pretty, with his bag of secrets. By the time of the spring storms Quoyile has learned how to gut cod, to escape from a pickle jar, and to tie a true lover's knot.

**Journalism Right and Wrong** Ian Mayes,2007 This selection from the 350 or so columns Mayes has written in the past decade offers insight into the internal working and decision-making processes of one of the world's great newspapers. They cover a period in which, through its multi-award-winning website, the *Guardian* has become a truly global publisher. The columns provide a running debate on ethical issues, they explain how the paper works - and occasionally they discuss the *Guardian's* use and abuse of the English language. It is a book that will open the door to what is still for many a mystifying world. At the same time it will transmit to students of journalism the enthusiasm for the craft that has carried Mayes through a career spanning half a century. --Book Jacket.

*Handbook of Global Media Ethics* Stephen J.A. Ward,2021-09-02 This handbook is one of the first comprehensive research and teaching tools for the developing area of global media ethics. The advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims. For many scholars, teachers and journalists, the existing journalism ethics, e.g. existing codes of ethics, is too parochial and national. It fails to provide adequate normative guidance for a media that is digital, global and practiced by professional and citizen. A global media ethics is being constructed to define what responsible public journalism means for a new global media era. Currently, scholars write texts and codes for global media, teach global media ethics, analyse how global issues should be covered, and gather together at conferences, round tables and meetings. However, the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics. This handbook is a milestone in the field, and a major contribution to media ethics.

**Algorithms, Automation, and News** Neil Thurman,Seth C. Lewis,Jessica Kunert,2021-05-18 This book examines the growing importance of algorithms and automation—including emerging forms of artificial intelligence—in the gathering, composition, and distribution of news. In it the authors connect a long line of research on journalism and computation with scholarly and professional terrain yet to be explored. Taken as a whole, these chapters share some of the noble ambitions of the pioneering publications on 'reporting algorithms', such as a desire to see computing help journalists in their watchdog role by holding power to account. However, they also go further, firstly by addressing the fuller range of technologies that computational journalism now consists of: from chatbots and recommender systems to artificial intelligence and atomised journalism. Secondly, they advance the literature by demonstrating the increased variety of uses for these technologies, including engaging underserved audiences, selling subscriptions, and recombining and re-using content. Thirdly, they problematise computational journalism by, for example, pointing out some of the challenges inherent in applying artificial intelligence to investigative journalism and in trying to preserve public service values. Fourthly, they offer suggestions for future research and practice, including by presenting a framework for developing democratic news recommenders and another that may help us think about computational journalism in a more integrated, structured manner. The chapters in this book were originally published as a special issue of *Digital Journalism*.

**Understanding News** John Hartley,2013-06-17 News depends for its effect on a culturally shared language, and this book concentrates on ways we can decode its messages without simply reproducing their underlying assumptions.

**Journalism: Critical Issues** Allan, Stuart,2005-01-01 Over the years it has been frequently remarked that journalism is at a crossroads - indeed so often that it risks sounding somewhat cliched - yet there is every indication that its very forms, practices and institutions are being decisively transformed, with startling implications. Accordingly, the principal aim of this book is to help provide the basis for new dialogues to emerge regarding journalism today, as well as about where it may be heading tomorrow. *Journalism: Critical Issues* poses a series of important questions afresh, questions deserving of much greater attention than they have typically received to date. Each of the contributors seeks to challenge conventional ways of thinking about the 'critical issue' at stake in their respective chapter. In so doing, it is their intention to further our understanding, but also to encourage future explorations with the potential to revitalise journalism studies. In adopting this approach, it is hoped that the book will make for a lively, argumentative (in the best sense of the word) and engaging intervention.

**WikiLeaks** David Leigh, Luke Harding, 2011-02 It was the biggest leak in history. WikiLeaks infuriated the world's greatest superpower, embarrassed the British royal family and helped cause a revolution in Africa. The man behind it was Julian Assange, one of the strangest figures ever to become a worldwide celebrity. Was he an internet messiah or a cyber-terrorist? Information freedom fighter or sex criminal? The debate would echo around the globe as US politicians called for his assassination. Award-winning Guardian journalists David Leigh and Luke Harding have been at the centre of a unique publishing drama that involved the release of some 250,000 secret diplomatic cables and classified files from the Afghan and Iraq wars. At one point the platinum-haired hacker was hiding from the CIA in David Leigh's London house. Now, together with the paper's investigative reporting team, Leigh and Harding reveal the startling inside story of the man and the leak.

**The News** Peter Steven, 2010-05-01 A book about media power, media ethics, media corporations and the need for reliable, unfiltered international news. An excellent introduction to the news for young adults. Too many of us have no choice about the type of news we receive. Too many of us remain ignorant of major issues and diverse opinions because the news isn't providing them. Over the past twenty years the news media has become more restricted, less diverse and of steadily declining quality. Fewer owners and managers control editorial policies, journalists have been sacked, and those who remain find themselves working at a faster pace on more superficial stories. Most of us rely on a dominant media, controlled by a few globalized giants. These groups have attained enormous financial and political power. But as this book shows, the trends are not all bad. Outside the West, particularly in Asia, citizens receive better and more diverse news than ever before. Rising levels of literacy and education in India, Korea, Indonesia and China have fostered vastly increased newspaper circulations, and the Internet has brought a much broader world to some restricted societies. [The Groundwork Guides] are excellent books, mandatory for school libraries and the increasing body of young people prepared to take ownership of the situations and problems previous generations have left them. — Globe and Mail Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RI.6.1 Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text. **Ludo and the Power of the Book** Richard Ingrams, 2017 Sir Ludovic Kennedy was a British journalist, television personality, humanist and author. Following a brief naval career, Ludo devoted his life to what he referred to as his 'lifelong obsession with miscarriages of justice' and he fought this cause tirelessly, until he died in 2009. He is best known for re-examining cases such as the kidnapping of American toddler Charles Lindbergh, about which he wrote his most ambitious book on injustice, *The Airman and the Carpenter*. Ludo's writings and work on other cases such as the murder convictions of Timothy Evans and Derek Bentley were unique in that they often dispelled the breeding ground for conspiracy theories and regularly heralded dramatic changes of public opinion. Ludo is considered to be hugely influential in the abolition of the death penalty in the UK as well as other legal reforms, most notably the Police and Criminal Evidence Act (1984) which obligated police to tape-record the questioning of suspects. His life story is one that deserves to be remembered and celebrated. Richard Ingrams first met Ludovic Kennedy in 1963 and the pair quickly bonded over their shared goal of exposing the fallible nature of the British justice system. Ingrams interweaves this biography with detailed analysis of the cases to which Ludo dedicated his life, vividly recapturing the spirit of his friend and colleague.

**News and Politics** Stephen Cushion, 2015-03-24 News and Politics critically examines television news bulletins – still the primary source of information for most people – and asks whether the wider pace and immediacy of 24-hour news culture has influenced their format and style over time. Drawing on the concepts of mediatization and journalistic interventionism, Stephen Cushion empirically traces the shift from edited to live reporting from a cross-national perspective, focussing on the two-way convention in political coverage and the more interpretive approach to journalism it promotes. Challenging prevailing academic wisdom, Cushion argues that the mediatization of news does not necessarily reflect a commercial logic or a lowering of journalism standards. In particular, the rise of live two-ways can potentially enhance viewers' understanding of public affairs – moving reporters beyond their visual backdrops and reliance on political soundbites – by asking journalists to scrutinize the actions of political elites, interpret competing source claims and to explain the broader context to everyday stories. Considering the future of 24-hour news, a final discussion asks whether new content and social media platforms – including Twitter and BuzzFeed – enhance or weaken democratic culture. This timely analysis of News and Politics is ideal for students of political communication and journalism studies, as well as communication studies, media studies, and political science.

**The New Ethics of Journalism** Kelly McBride, Tom Rosenstiel, 2013-07-17 Featuring a new code of ethics for journalists and essays by 14 journalism thought leaders and practitioners, *The New Ethics of Journalism: Principles for the 21st Century*, by Kelly McBride and Tom Rosenstiel, examines the new pressures brought to bear on journalism by technology and changing audience habits. It offers a new framework for making critical moral choices, as well as case studies that reinforce the concepts and principles rising to prominence in 21st century communication. The book addresses the unique problems facing journalism today, including how we arrive at truth in an era of abundant and unverified information; the evolution of new business models and partnerships; the presence of journalists on independent social media platforms; the role of diversity; the meaning of stories; the value of images; and the role of community in the production of journalism.

*Television News* Ivor Yorke, 2013-04-03 A straightforward account of the editorial and production processes used by journalists to bring television news to the viewer. It is an invaluable text for students on journalism courses, print and radio journalists moving into television and TV journalists wishing to update their knowledge. Takes into account the latest practices and issues in the television industry. This fourth edition has been thoroughly updated to take account of the latest practices and issues in the television industry. It includes new illustrations of developments from both a technological and an editorial perspective. In a changing broadcasting environment, newcomers to television journalism are finding themselves entering a world in which an empathy with technology is as important as a way with words. The newsroom itself is now completely computerized and consequently new skills and working methods need to be mastered to take account of the revolutionary advances.

**Silenced** David Dudge, 2010-07 ...interesting and comprehensive and offers compelling insights into the struggles and persecution faced by international journalists, as well as the methods used to uncover truths. *Silenced* reads like a psychological thriller too engrossing to put down complete with police corruption, drug trafficking, murder, embezzlement and war. It is a story of briefings and press releases, unwritten newsroom

rules, unpopular editorial decisions and (ineffective) freedom of information laws. It is about protecting sources or facing jail time. It is about silencing and unsilencing and the risk of both. Most importantly, *Silenced* is about the horror of seeing it all and the power of reporting it.- *Clamor*This hard-hitting collection shows that pressure and persecution are still inescapable aspects of a journalist's job description ... a vigorous defense of press freedoms by journalists who are unafraid to confront the powers that be.- *Publishers Weekly*What happens to journalists who expose uncomfortable truths? How far are journalists prepared to go in order to report a difficult story? *Silenced* provides answers to these questions with the stories of journalists who risked their careers so that the public might be informed.From China, where Jasper Becker, formerly Beijing bureau chief of the South China Morning Post, fought a lonely and unsuccessful battle against owners willing to soften the newspaper's reporting of the Chinese government in the hope of protecting mainland investments, to Zimbabwe where the harsh treatment of the Guardian's Andrew Meldrum led to him being arrested and forcibly deported from the country because he dared criticize President Robert Mugabe, *Silenced* is a forcible reminder of the risks - both personal and financial - accepted by the media on our behalf.Elsewhere, in other parts of the world, journalists face more traditional problems, whether it is the pressure placed on journalists Gary Hughes and Gerard Ryle when highlighting police corruption in Australia, or the aggressive tactics employed by the Belgian authorities against Stern magazine's Hans-Martin Tillack for exposing a financial scandal at the heart of the European Union.When faced with the threat of censorship, all of these journalists reacted in a similar manner - they chose to report and face the consequences. They decided to place the ethics of journalism above all other considerations. As such they are proof that press freedom cannot exist without those who are willing to uphold its fundamental principals.*Silenced* is more than a book on the media; it is an expression of the bravery and persistence of journalists everywhere.David Dadge (Vienna, Austria) is the editor at the International Press Institute and the author of *Silenced: International Journalists Expose Media Censorship*. He writes frequently on the media and freedom of the press.
