Extract: Jim Maitland stopped dead in his tracks, and then with the instinct bred of many years he sought the cover of a neighbouring tree. In the country he had just come from he would not have given the matter a second thought—gun work was part of the ordinary day's round. But in London, especially in this part of London, it was a very different affair. The sound had come from the house in front of him—a house very similar to the one he had just left, save that it was not for sale. It was in darkness, but some kind of subconscious instinct told him that there had been a light in one of the upper windows a few seconds previously. Herman Cyril McNeile (1888-1937), commonly known as H. C. McNeile or Sapper, was a British soldier and author. Drawing on his experiences in the trenches during the First World War, McNeile's stories are either directly about the war, or contain people whose lives have been shaped by it. His thrillers are a continuation of his war stories, with upper class Englishmen defending England from foreigners plotting against it.

*Soul Survivor* Lecy McKenzie,2013-11-01 Davilla English knew nothing of her childhood, but that she could only depend on herself, or so she thought. Trying out for

the game show, Take The Dare, to please her best friend, Davie never dreamed that being chosen as a contestant was about to open a dark secret that had been buried deep within her soul. After the group gets stranded on an isolated Island, it doesn't take long to realize an evil has followed them there, when one by one contestant are eliminated in a most grisly manner. Everyone begins to suspect Davie, and it doesn't take long before Davie begins to doubt her own sanity, and is not so sure it isn't her. Tormented by dreams and visions, while being stalked by a twisted creature, Davie will soon learn that things are not always as they seem, and instead of being the predator, she may just be the prey.

**Island of Terror** Larry Hama, 2006-10-24 A key strategic victory that paved the way for the Allied invasion of Japan, Iwo Jima was described by Lieutenant-General Holland Smith, Commander Fleet Marine Forces Pacific, as the most savage and costly battle in the history of the Marine Corps. For 36 days in February and March 1945, Marines pounded an island fortified by miles of interlocking caves, concrete blockhouses and pillboxes - one of the most impenetrable defenses of the Pacific War.

Unwilling to surrender, the Japanese fought until the bitter end: nearly all of their 20,000 troops were killed in the fighting, compared with 7,000 US dead. At Iwo Jima, the Marines secured an island base that would prove crucial in the final battles of the Pacific campaign. This book illustrates the Marines' decisive victory at Iwo Jima in graphic novel format and includes eight pages of background information detailing the key players, the experience of the forces, and the aftermath of the battle.

**The Island of Terror** H. C. McNeile, 2013-08 This early work by H. C. McNeile was originally published in 1931 and we are now republishing it with a brand new introductory biography. 'The Island of Terror' is a novel that includes McNeile's footloose sahib of the period character, Jim Maitland. Cyril McNeile was born on 28th September 1888, in Bodmin, Cornwall. McNeile's writing career began in 1915 when the Daily Mail serialised *Reminiscences of Sergeant Michael Cassidy*. He wrote under the pseudonym Sapper due to British Army personnel being barred from publishing under their real names. McNeile's most famous creation was that of Bull-Dog Drummond in 1920. Drummond was an ex-army

captain with a thirst for adventure and defeating bad guys.

Professor Challenger William Meikle, 2012-04-12

Author William Meikle resurrects Sir Arthur Conan Doyle's classic character Professor Challenger in this fast-paced novella. The book is available in a leather-bound Deluxe Hardcover with slipcase edition which is stamped with a raptor on the front cover in red foil as well as a trade paperback edition. Strange lights on the moors, weird noises in the night, cattle disappearing; these are more than enough to prompt Malone's newspaper to send him to investigate. And when his old companion Professor Challenger also goes missing, the hunt is on. The trail leads Malone to the British military, and to a research station in the Bristol Channel, where an old terror proves, once again, that some things are not meant to be contained.

The Island of Terror Herman Mcneil, 2017-07-13 When intrepid adventurer, Jim Maitland, returns to England for a brief visit, he meets a charming young woman named Judy Draycott, who solicits his help in a perilous matter. She relates the story of her brother, Arthur, drifting in South America until he meets an old sailor who, on his deathbed, tells him about a hoard of buried treasure. When Arthur is shot during an attempt to return to London, Maitland persuades his cousin, Percy, to accompany him to Lone Tree Island, where the treasure is allegedly buried. But what can they do with only half a map? And can they evade

the undesirables on their trail? Herman Cyril McNeile was a British soldier and author, writing under the pseudonym Sapper. Drawing on his experiences in the trenches during the First World War, he started writing short stories and getting them published in the Daily Mail. As serving officers in the British Army were not permitted to publish under their own names, he was given the pen name Sapper by Lord Northcliffe, the owner of the Daily Mail; the nickname was based on that of his corps, the Royal Engineers. After the war McNeile left the army and continued writing, although he changed from war stories to thrillers. In 1920 he published Bulldog Drummond, whose eponymous hero became his best-known creation. The character was based on McNeile himself, on his friend Gerard Fairlie and on English gentlemen generally. McNeile wrote ten Bulldog Drummond novels, as well as three plays and a screenplay.
