**Full Circle** Andrea Barber,2019-11-12 She grew up in front of the world on the beloved sitcom Full House, but then actress Andrea Barber abruptly left Hollywood. Why did she leave and what did she do for twenty years out of the spotlight before returning to television? This is her funny and inspiring memoir of fame, heartache, resilience—and the reboot of a lifetime . . . When Kimmy Gibbler burst into the Tanners' home on Full House in 1987, audiences immediately connected with the confident and quirky pre-teen character, played by ten-year-old actress Andrea Barber. During an eight-season run on one of the most popular series of the '80s and '90s, Andrea came of age in front of millions. But she was as far removed from her character as a girl can get. The introverted young star was plagued with self-doubt, insecurities, and debilitating anxieties that left her questioning her identity after the show's cancellation. Andrea wouldn't return to the public eye until 2016, for Fuller House. So what happened in those intervening decades that Andrea jokingly calls "the lost years"? For starters, Andrea never stopped working. But it was on a series of life-changing transitions: earning a college degree, then a Master's, building a career in international education, getting married, and starting a family. She also faced some unforeseeable transitions: navigating a sudden divorce after nearly twelve years of marriage, and second-guessing her capabilities as a single mother. But it was her devastating bout with post-partum anxiety and depression that derailed Andrea's life—and became a crucial turning point. Full Circle is a raw, refreshingly honest look into the life of a celebrity who has never been fully comfortable in the spotlight. Here Andrea shares her deeply personal struggles with mental health in a way she has never done before. She opens up about fighting her way back and finding solace—while finding herself—all before her life came full circle with her costars and lifelong friends on Fuller House. Sharing her journey from child star, to champion of mental health, and back to stardom, Andrea writes in a way that feels like catching up with an old friend. You'll laugh, reminisce, and finally get to know the woman behind the zany next door neighbor.

**Brand New Justice** Simon Anholt, 2006-08-11 Recently vilified as the prime dynamic driving home the breach between poor and rich nations, here the branding process is rehabilitated as a potential saviour of the economically underprivileged. *Brand New Justice*, now in a revised paperback edition, systematically analyses the success stories of the Top Thirteen nations, demonstrating that their wealth is based on the 'last mile' of the commercial process: buying raw materials and manufacturing cheaply in third world countries, these countries realise their lucrative profits by adding value through finishing, packaging and marketing and then selling the branded product on to the end-user at a hugely inflated price. The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process. Applying his observations on economic history and the development and impact of global marketing, Anholt presents a cogent plan for developing nations to benefit from globalization. So long the helpless victim of capitalist trading systems, he shows that they can cross the divide and graduate from supplier nation to producer nation. Branding native produce on a global scale, making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the 'last mile' benefits are key to this graduation and fundamental to forging a new global economic balance. Anholt argues with a forceful logic, but also backs his hypothesis with enticing glimpses of this process actually beginning to take place. Examining activities in India, Thailand, Russia and Africa among others, he shows the risks, challenges and pressures inherent in 'turning the tide', but above all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms.
