The Tulip Anna Pavord,2019-11-14 A revised and updated edition of the internationally bestselling classic Anna Pavord's now classic, internationally bestselling sensation, *The Tulip*, is not a gardening book. It is the story of a flower that has driven men mad. Greed, desire, anguish and devotion have all played their part in the development of the tulip from a wild flower of the Asian steppes to the worldwide phenomenon it is today. No other flower carries so much baggage; it charts political upheavals, illuminates social behaviour, mirrors economic booms and busts, plots the ebb and flow of religious persecution. Why did the tulip dominate so many lives through so many centuries in so many countries? Anna Pavord, a self-confessed tulipomaniac, spent six years looking for answers, roaming through eastern Turkey and Central Asia to tell how a humble wild flower made its way along the Silk Road and eventually took the whole of Western Europe by storm. Sumptuously illustrated from a wide range of sources, this irresistible volume has become a bible, a unique source book, a universal gift and a joy to all who possess it. This beautifully redesigned edition features a new Preface by the author, a revised listing of the best varieties of this incomparable flower to choose for your garden and a reorganised listing of tulip species to reflect the latest thinking by taxonomists.

The Tulip Eaters Antoinette van Heugten,2013-11-01 In a riveting exploration of the power the past wields over the present, critically acclaimed author Antoinette van Heugten writes the story of a woman whose child's life hangs in the balance, forcing her to confront the roots of her family's troubled history in the dark days of World War II... It's the stuff of nightmares: Nora de Jong returns home from work one ordinary day to find her mother has been murdered. Her infant daughter is missing. And the only clue is the body of an unknown man on the living-room floor, clutching a Luger in his cold, dead hand. Frantic to find Rose, Nora puts aside her grief and frustration with the local police to start her own search. But the contents of a locked metal box she finds in her parents' attic leave her with as many questions as answers—and suggest the killer was not a stranger. Saving her daughter means delving deeper into her family's darkest history, leading Nora half a world away to Amsterdam, where her own unsettled past and memories of painful heartbreak rush back to haunt her. As Nora feverishly pieces together the truth from an old family diary, she's drawn back to a city under Nazi occupation, where her mother's alliances may have long ago sealed her own—and Rose's—fate.

Tulip Celia Fisher,2017-04-15 A long time ago, you could only find them on the slopes of remote mountain ranges in Asia, but today they are the very symbol of modern genetics, a species unrivalled for the variety of colors and forms that breeders can create: tulips. In this book, Celia Fisher traces the story of this important and highly popular plant, from its mountain beginnings to its prevalence in the gardens of Mughal, Persian, and Ottoman potentates; from its migration across the Silk Road to its explosive cultivation in the modern European world. Fisher looks at how tulips' intensely saturated color has made them an important species for botanists and gardeners. Initially rare in sixteenth century Netherlands, tulips sparked such frenzy among aristocratic collectors that they caused the first economic bubble and collapse. Exploring the ways cultivators have created one hybrid after another—in an astonishing range of colors and shapes—Fisher also shows how tulips have inspired art and literature throughout the centuries, from Ottoman Turkey to the paintings of the Dutch Masters, from Alexandre Dumas's novel *The Black Tulip* to contemporary artist David Cheung painting them atop pages of the *Financial Times*. Stunningly illustrated, this book offers a unique cultural history of one of our most important flowers.
