The Red Battle Flyer Manfred Von Richthofen, 2014-06-03 The Red Battle Flyer is German flying-ace Manfred von Richthofen's autobiographical account of his career as a pilot in the Imperial German Army during the First World War. Known as "The Red Baron," von Richthofen's impressive skill as a fighter pilot was renowned, and with eighty aerial victories, he was the most decorated German pilot of the period. Der rote Kampfflieger, or The Red Battle Flyer, was written at the request of the German propaganda ministry while von Richthofen was recovering from injuries sustained after being shot down in combat. The Red Battle Flyer was heavily censored by Germany's propaganda board, so much so that von Richthofen voiced a desire to revise the book, and although he died in combat before he was able to do this, the very fact that the book was influenced by Germany's propaganda machine makes it an interesting primary source in wartime social history. The Red Battle Flyer Capt Manfred Freiherr Von Richthofen,2017-10-27 That is the answer to those who ask, as an important official gentleman asked recently, why this English translation of Rittmeister von Richthofen's book should be published. It gives our flying people an opportunity of comparing notes with one of Germany's star-turn fighting pilots, just as that excellent book by Contact gives the Germans the chance of gathering the atmosphere of the Royal Flying Corps as it was in 1916 and 1917. The Red Battle-Flyer has evidently been carefully censored by the German authorities. Also it has possibly been touched up here and there for propagandist purposes. Consequently, although the narrative as it stands is extraordinarily interesting, the book as a whole is still more interesting on account of what one reads between the lines, and of what one can deduce from the general outlook of the writer.

The Red Battle Flyer Manfred Freiherr von Richthofen,2015-04-25 [...]of harm. The older hands in these days are not easily caught by such a trick, and the High Command refuses to count any victims so claimed unless the performance is verified by independent witnesses either on the ground or aloft. Another point of interest in von Richthofen's fighting methods is that he states, that as a rule, he opens fire at 50 yards. Distances are hard to judge in the air. The pilot is more likely to underestimate them than otherwise, just as one does in judging distances at sea. But von Richthofen is probably as good a judge as any, and in this he seems to be stating a plain fact. In these days 50 yards is fairly long range. Some of our own crack fighters prefer 50 feet, if they can get into their favorite positions. Anyhow he shows the unwisdom of opening fire at 1,000 yards, as some inexperienced and excited machine-gunners are rather apt to do.[...].

The Red Battle Flyer Capt Manfred Freiherr Von Richthofen,C. G. Grey,2014-09-01 An autobiographical sketch by the famous WWI German fighter pilot known as the Red Baron published in the original German in 1917. This English translation appeared in 1918.

Richthofen: A True History of the Red Baron William E. Burrows,2023-06-21 Originally a cavalryman, Manfred Albrecht Freiherr von Richthofen (1892-1918), nicknamed the Red Baron, transferred to the German Air Service in 1915. One of the first members of fighter squadron Jasta 2 in 1916, Richthofen quickly distinguished himself as a fighter pilot, becoming leader of Jasta 11 in 1917 and later leading the larger fighter wing known as “The Flying Circus” or “Richthofen’s Circus” whose bright-colored aircraft moved from one area of Allied air activity to another, settling on improvised airfields. Richthofen was shot down and killed in April 1918 over France at age 25. Credited with 80 air combat victories, he was a national hero in Germany and was also respected by his enemies. “The context [of World War I air warfare] can be obtained from William E. Burrows’s ‘true history,’ a very good book. He has not only read the available material, but talked to a great many people who knew Richthofen. The result is as good a look at the withdrawn Prussian personality as we are likely to get.” – Pierce Fredericks, New York Times Book Review “This is a fine biography of the German flying ace of World War I fame, who, at the time of his death at age 25, was already a legend. The author has researched well his subject giving the reader a look at the person, not just the mystique, and reconstructs a few of the Red Baron’s famous dog-fights.” – US Naval Institute Proceedings “This ‘true history of the Red Baron’ gets behind the mystique clinging to the World War I aviation ace to the question of his use, or mis-use, by German propaganda.” – Wall Street Journal “In this intriguing biography, Burrows zooms in on the man behind the myth. He analyzes Richthofen’s persisting influence on his compatriots today.” – Book World “The Burrows book does serve to freshen the memory of the Red Baron and his place in history.” – The Louisville Times “William E. Burrows has done, in Richthofen, a sensitive job of examining how a killer is turned into a myth.” – Christian Science Monitor
