Signs of the Zodiac Mary Ellen Snodgrass, 1997-09-23 The zodiacal signs impact art, advertising, literature, history, mythology, psychology, health, and language with their evocative imagery, symbols and scientific and religious lore. This fact-filled reference guide pulls together applications of the zodiacal signs in those fields and others. Each sign is explicated in a separate chapter which discusses its origin and importance in diverse cultures, including its history, artistic applications, traditions, literary and religious interpretations, psychological significance, and application to notable historical and contemporary figures. An organized overview with cross-references and indexing allows the zodiac to be studied from numerous points of view. Artistic representations of each of the 12 houses accompany the text. Introductory chapters on the origins of the zodiacal signs, the historical foundation of astrology, the zodiac in the first millennium A.D., and the zodiac in the arts and sciences provide a thorough overview and comparative examination of the influence of the zodiac in human history and thought. A detailed timeline synchronizes discoveries and development of zodiacal associations and thought around the world. Appendices list planetary correspondences in jewels, metals, herbs, color, flavor, form, shapes, food

preferences, and senses, and the symptoms and pathologies associated with birth signs. The work also contains an extensive bibliography and index.

Meditations On the Signs of the Zodiac John Jocelyn, 1991-01-15 The sights of our century are on cosmic space. The greatest triumph in cosmic conquest will come when man recognizes that he himself, as a being of body, soul and spirit, is united with the cosmos as an evolving whole. This book is unique in this field. It presents the spiritual nature of the Zodiac for meditation and relates it to self-knowledge. He who wishes, can thus find his place in the universe and understand the reasonableness of reincarnation. Each incarnation is a new opportunity to advance a grade in the earth-school. How advance can be made in each zodiac sign influence is the good news which this book offers. Meditation on these MEDITATIONS, and practice of the suggestions, will be instimably soul-revealing and rewarding. Through such study one can comprehend, with loving understanding and compassion, his fellow men. Much of the misunderstanding between individuals, groups, and nations will disappear when mankind learns to view everything, not from one standpoint only, but from twelve viewpoints. This book is a tool not only for the serious student of spiritual life, but for every human being in his association with others, be it family life, in work, as a teacher,

psychologist, doctor, business man, or any other human relationship. The Right use of these MEDITATIONS may enable one to achieve harmonious wholeness, within oneself and in one's environment. Such an approach to the divine design of the cosmos and man's place in it, awakens wonder, and develops increasing humility and reverence in the presence of the infinitely sublime divinity of the Zodiac. Imbued with these thoughts and feelings, and knowing that every thought, feeling and deed has an effect upon the whole, one willingly and gladly assumes his responsibility as a creator in the creative process of the cosmos.
