Van Dirk Fisher

The Sound Inside Adam Rapp, 2020-03-10 "The closest thing that the American theater currently has to a David Foster Wallace, Rapp can give you the head rush of sophisticated literary allusion and unreliable narrative trickery à la Dostoevsky, and yet talk of Plano, Illinois, and let you know that he knows exactly how it feels...A gripping stunner of a play." –Chris Jones, Chicago Tribune When Bella Baird, an isolated creative writing professor at Yale, begins to mentor a brilliant but enigmatic student, Christopher, the two form an unexpectedly intense bond. As their lives and the stories they tell about themselves become intertwined in unpredictable ways, Bella makes a surprising request of Christopher. Brimming with suspense, Rapp's riveting play explores the limits of what one person can ask of another.

Adelaide Festival 60 Years is an astounding cacophony of images and tales that revel in the life of the Festival since its founding in 1960 - remembering what it was, anticipating what it might be. The Treaty Colin Murphy, 2021-12-03 In October 1921, a delegation of the Dáil left by boat and train for London, where they were to negotiate with the British government for peace, unity and a republic. They came back with just one of those; and that peace didn't last long, as war with Britain was replaced by war with their own. Were the Irish outclassed or outgunned? Were they lied to? Did they lie to their own colleagues back in Dublin? Or did they achieve the best that could be achieved, an incremental step on the way to fuller sovereignty? The Treaty tells the story of what happened inside those negotiations, as Arthur Griffith, Michael Collins and colleagues faced off against one of the most formidable negotiating teams ever assembled, headed by David Lloyd George and with Winston

Churchill often at his side. This edition is published to coincide with Fishamble's production in November 2021.

Musical Theatre Choreography Linda Sabo,2020-08-18 Musical theatre choreography has indisputably evolved over the years and choreographers develop methods of working and philosophical approaches that should be documented but rarely are. Textual information is limited, and what has been written is generally more practical than theoretical, and is minimal compared to those books written for choreographers of modern and contemporary dance. By pointing out the similarities and dissimilarities between concert dance genres and theatre dance, and by identifying the specialized demands of crafting artistic and script-serving theatre dance and staging, this text differentiates musical theatre choreography as a separate and bona fide art form and suggests that 1) universities recognize it as such by offering training possibilities for future musical theatre choreographers, and 2) established choreographers of musicals begin to write down their own artistic processes to help fill the choreographic toolbox for young choreographers wanting to work in this field. In 1943, a light switch was flipped with the musical Oklahoma! when Rodgers' and Hammerstein's mission to keep the book absolutely central to the making of a musical was established. After that, other musical theatre artists followed suit causing standards to change. Now, no other artistic element in a musical makes a move without first ensuring that it serves the script. By creating original material that is integral to the telling of a story, composers and lyricists came to be thought of as dramatists. Likewise, Oklahoma! choreographer Agnes de Mille seamlessly integrated her dances and staging into the action and created character and situation-specific movement that actually helped forward the plot. Because of her groundbreaking advances, choreographers are now also expected to create dances that serve the script and help to tell the playwright's story. The choreographer, like the librettist, composer, and lyricist, is now positioned as dramatist, as well. In Part 1, the choreographer as dramatist is stressed as the author uses each chapter to reflect upon ways she analyzes librettos and scores to determine the function of each song in a musical and the stories that should be told through dances and staging created for each song. Drawing from her own experiences as a musical theatre director/choreographer, she reflects upon and shares her artistic process, not in a linear way, but anecdotally, to illustrate the kind of thinking that will lead her to effectively tackle the job at hand. At the end of each chapter, assignments are suggested that may be useful to aspiring choreographers and directors of musicals. This text is a valuable resource for teachers designing a course in theatre choreography on either the undergraduate or graduate level, as well as for professional directors and choreographers who want to think more deeply about their own work. Students of choreography will be asked to reflect upon and to work with techniques that are sometimes similar to, but also often oppositional to those learned in modern dance choreography courses. Part Two offers an overview of the scope of literature and representative articles that have been published on both topics, modern dance composition and musical theatre choreography, as it concisely traces the history of modern dance choreographic pedagogy, aligning it with concurrent trends happening within the American musical theatre since the mid-19th century.
