*Chasing the Shadow—the World and Its Times* Ephraim Radner,2018-04-24 Christian natural theology is founded on the proper coordination of Scripture and the created world, what was once called The Two Books of God. Carrying forward the work he began in *The World in the Shadow of God*, Radner here reflects on the way that Scripture's creative relationship with temporal experience--ordering history rather than being ordered by history--opens up the natural world to its essential Scriptural meaning. Like the earlier volume, poetic description is offered as a primary vehicle for doing natural theology, which is shown to proceed according to the figural shape of the Bible's own description of the world.

**World history from early times to A D 2000** B .V. Rao,2012-01-01 Asia in the past nurtured great civilisations and cultures, some of which withstood the onslaughts of the mighty West. After suffering from the evils of colonial rule, Asia today is poised to occupy the centre stage of the world arena, with India, China and Japan playing leading role. In this context, it is all the more necessary for college and university students in Asia and the west to acquaint themselves with the history of Asia. Hence this book. The book is different from others of this genre, as it connects the ancient and medieval Asia with the modern world. It ideals with the history of each country in its geographical setting with the interaction and impact of neighbouring countries. Early migrations, settlements, formation of kingdoms and empires, socio-economic aspects of Islamic conquests and the advent of Western powers are all accounted for. The modern period (up to 2004) is treated in a detailed manner covering topics like colonisation, impact of Western civilisation, the rise of nationalism and the achievement of independence. The current history highlights subversion of democracies, ushering in of military rule, ethnic conflicts, movements for the restoration of democracy,

oppression of minorities, economic issues, nuclear proliferation and the war on terror -- all in a fascinating manner -- with maps, bibliography, and an index to stimulate reader's interest.

*Feminist Writings from Ancient Times to the Modern World [2 volumes]*

Tiffany K. Wayne, 2011-10-17 Collecting more than 200 sources in the global history of feminism, this anthology supplies an insightful record of the resistance to patriarchy throughout human history and around the world. From writings by Enheduana in ancient Mesopotamia (2350 BCE) to the present-day manifesto of the Association of Women for Action and Research in Singapore, *Feminist Writings from Ancient Times to the Modern World: A Global Sourcebook and History* excerpts more than 200 feminist primary source documents from Africa to the Americas to Australia. Serving to depict feminism as much broader—and older—than simply the modern struggle for political rights and equality, this two-volume work provides a more comprehensive and varied record of women's resistance cross-culturally and throughout history. The author's goal is to showcase a wide range of writers, thinkers, and organizations in order to document how resistance to patriarchy has been at the center of social, political, and intellectual history since the infancy of human civilization. This work addresses feminist ideas expressed privately through poetry, letters, and autobiographies, as well as the public and political aspects of women's rights movements.
