Professor Jeremy Black,Jeremy Black

Frontier Encounters Franck Billé, Grégory Delaplace, Caroline Humphrey, 2012-08-01 China and Russia are rising economic and political powers that share thousands of miles of border. Despite their proximity, their interactions with each other - and with their third neighbour Mongolia - are rarely discussed. Although the three countries share a boundary, their traditions, languages and worldviews are remarkably different. *Frontier Encounters* presents a wide range of views on how the borders between these unique countries are enacted, produced, and crossed. It sheds light on global uncertainties: China's search for energy resources and the employment of its huge population, Russia's fear of Chinese migration, and the precarious independence of Mongolia as its neighbours negotiate to extract its plentiful resources. Bringing together anthropologists, sociologists and economists, this timely collection of essays offers new perspectives on an area that is currently of enormous economic, strategic and geo-political relevance.

British Travellers and the Encounter with Britain, 1450-1700 John Cramsie, 2015 Encounters with a 'multicultural' Britain in the Tudor and Stuart periods written with an eye to debates about immigration and ethnicity in today's Britain.

**Savage worlds** Matthew Fitzpatrick, Peter Monteath, 2018-07-20 With an eye to recovering the experiences of those in frontier zones of contact, *Savage Worlds* maps a wide range of different encounters between Germans and non-European indigenous peoples in the age of high imperialism. Examining outbreaks of radical violence as well as instances of mutual co-operation, it examines the differing goals and experiences of German explorers, settlers, travellers, merchants, and academics, and how the variety of projects they undertook shaped their relationship with the indigenous peoples they encountered. Examining the multifaceted nature of German interactions with indigenous populations, this volume offers historians and anthropologists clear evidence of the complexity of the colonial frontier and frontier zone encounters. It poses the question of how far Germans were able to overcome their initial belief that, in leaving Europe, they were entering 'savage worlds'.

**Europe and the World, 1650-1830** Professor Jeremy Black, 2013-10-08 *Europe and the World, 1650-1830* is an important thematic study of the first age of globalisation. It surveys the interaction of Europe, Europe's growing colonies and other major global powers, such as the Ottoman Empire, China, India and Japan. Focusing on Europe's impact on the world, Jeremy Black analyses European attitudes, exploration, trade and acquisition of knowledge.

*Exploring European Frontiers* B. Dolan, 2000-03-02 The explorations of eighteenth-century travellers to the 'European frontiers' were often geared to define the cultural, political, and historical boundaries of 'European civilization.' In an age when political revolutions shocked nations into reassessing what separated the civilised from the barbaric, how did literary travellers contemplate the characteristics of their continental neighbours? Focusing on the writings of British travellers, we see how a new view of Europe was created, one that juxtaposed the customs and living conditions of populations in an attempt to define 'modern' Europe against a 'yet unenlightened' Europe.

*Music, Travel, and Imperial Encounter in 19th-Century France* Ruth Rosenberg, 2014-09-19 This book considers the activities and writings of early song collectors and proto-ethnomusicologists, memoirists, and other musical travelers in 19th-century France. Each of the book's discrete but interrelated chapters is devoted to a different geographic and discursive site of empire, examining French representations of musical encounters in North America, the Middle East, as well as in contested areas within the borders of metropolitan France. Rosenberg highlights intersections between an emergent *ethnographie musicale* in France and narratives of musical encounter found in French travel literature, connecting both phenomena to France's imperial aspirations and nationalist anxieties in the period from the Revolution to the late-nineteenth century. It is therefore an excellent

research tool for scholars in the fields of ethnomusicology, musicology, cultural studies, literary history, and postcolonial studies.

**British Women Travellers** Sutapa Dutta,2019-08-21 This book studies the exclusive refractive perspectives of British women who took up the twin challenges of travel and writing when Britain was establishing itself as the greatest empire on earth. Contributors explore the ways in which travel writing has defined women's engagement with Empire and British identity, and was inextricably linked with the issue of identity formation. With a capacious geographical canvas, this volume examines the multifaceted relations and negotiations of British women travellers in a range of different imperial contexts across continents from America, Africa, Europe to Australia.

**Indians and Emigrants** Michael L. Tate,2014-08-04 In the first book to focus on relations between Indians and emigrants on the overland trails, Michael L. Tate shows that such encounters were far more often characterized by cooperation than by conflict. Having combed hundreds of unpublished sources and Indian oral traditions, Tate finds Indians and Anglo-Americans continuously trading goods and news with each other, and Indians providing various forms of assistance to overlanders. Tate admits that both sides normally followed their own best interests and ethical standards, which sometimes created distrust. But many acts of kindness by emigrants and by Indians can be attributed to simple human compassion. Not until the mid-1850s did Plains tribes begin to see their independence and cultural traditions threatened by the flood of white travelers. As buffalo herds dwindled and more Indians died from diseases brought by emigrants, violent clashes between wagon trains and Indians became more frequent, and the first Anglo-Indian wars erupted on the plains. Yet, even in the 1860s, Tate finds, friendly encounters were still the rule. Despite thousands of mutually beneficial exchanges between whites and Indians between 1840 and 1870, the image of Plains Indians as the overland pioneers' worst enemies prevailed in American popular culture. In explaining the persistence of that stereotype, Tate seeks to dispel one of the West's oldest cultural misunderstandings.

**Dickens and the Children of Empire** W. Jacobson,2000-10-10 Dickens and the Children of Empire examines the themes of childhood and empire throughout Dickens' oeuvre. The prestigious group of contributors initiate and extend debates on the subjects of post-colonialism, literature of the child and present childhood as an apt metaphor for the colonized subject in Dickens' work.

**Travelling Europe** Gail Mobley,Zainab Batul Naqvi,Daria Sinziana Neagu,2015-06-18 Currently the borders that delineate both physical and ideological spaces are constantly shifting within and around Europe. Given this, in 2014 the Graduate Centre for Europe (GCfE) decided to dedicate their annual conference to the theme of travel and tourism in Europe. This collection consists of the papers accepted for presentation as part of the 8th annual conference of the GCfE. **Running Mad for Kentucky** Ellen Eslinger,2014-07-11 The crossing of America's first great divide -- the Appalachian Mountains -- has been a source of much fascination but has received little attention from modern historians. In the eighteenth century, the Wilderness Road and Ohio River routes into Kentucky presented daunting natural barriers and the threat of Indian attack. Running Mad for Kentucky brings this adventure to life. Primarily a collection of travel diaries, it includes day-to-day accounts that illustrate the dangers thousands of Americans, adult and child, black and white, endured to establish roots in the wilderness. Ellen Eslinger's vivid and extensive introductory essay draws on numerous diaries, letters, and oral histories of trans-Appalachian travelers to examine the historic consequences of the journey, a pivotal point in the saga of the continent's indigenous people. The book demonstrates how the fabled soil of Kentucky captured the imagination of a young nation.

**Wisdom for Eternity Travelers** Fred D,2018-12-11 A diverse collection of wisdom snippets and inspirational quotes with Alaskan photographs and musings of a Been There – Seen That – sometimes wish I hadn’t – Done That prodigal son. “I am not what I ought to be. I am not what I want to be. I am not what I hope to be. But still, I am not what I used to be. And, by the grace of God, I am what I am.” This quote was penned by John Newton, a former slave ship captain who, after meeting his Savior, would give us the beloved hymn Amazing Grace. His quote echoes my heart’s song... another redeemed, work-in-progress prodigal son traveling towards Eternity. Wisdom for Eternity Travelers addresses spiritual battles Christians fight, not the horrors of wars fought on battlefields. Having served in the USMC during the Vietnam era, I was among those fortunate to return home alive, and without the physical and mental scars many of my brothers and sisters in arms suffered. My heart goes out to them. In honor and respect to all those who have bravely fought and paid dearly for the freedom we enjoy as Americans, all proceeds from this book will be donated to the Wounded Warrior Project.

*The Invention of Humanity* Siep Stuurman,2017-02-20 For much of history, strangers were seen as barbarians, seldom as fellow human beings. The notion of common humanity had to be invented. Drawing on global thinkers, Siep Stuurman traces ideas of equality and difference across continents and civilizations, from antiquity to present-day debates about human rights and the “clash of civilizations.”
