**Lab 257** Michael C. Carroll,2009-10-13 Strictly off limits to the public, Plum Island is home to virginal beaches, cliffs, forests, ponds -- and the deadliest germs that have ever roamed the planet. Lab 257 blows the lid off the stunning true nature and checkered history of Plum Island. It shows that the seemingly bucolic island in the shadow of New York City is a ticking biological time bomb that none of us can safely ignore. Based on declassified government documents, in-depth interviews, and access to Plum Island itself, this is an eye-opening, suspenseful account of a federal government germ laboratory gone terribly wrong. For the first time, Lab 257 takes you deep inside this secret world and presents startling revelations on virus outbreaks, biological meltdowns, infected workers, the periodic flushing of contaminated raw sewage into area waters, and the insidious connections between Plum Island, Lyme disease, and the deadly West Nile virus. The book also probes what's in store for Plum Island's new owner, the Department of Homeland Security, in this age of bioterrorism. Lab 257 is a call to action for those concerned with protecting present and future generations from preventable biological catastrophes.

*HC 257 - Investing In The Railway* Great Britain. Parliament. House of Commons. Transport Committee, 2015-01-23 The Transport Committee welcomes record investment committed to the 'classic' rail network but calls for greater regional balance in spending. Network Rail must also regain the confidence of passengers following recent disruption. The Committee calls for the Government to take responsibility for rolling stock, to address general shortages and ensure there will be sufficient trains to run on newly-electrified lines. The Committee also concluded: (i) Record levels of funding show a welcome commitment to 'classic' rail but this should be set in a longer-term strategic plan for the rail network, which ties into a wider transport strategy; (ii) The overrunning Christmas engineering works were unacceptable; (iii) Network Rail must have adequate contingency plans. They must also work with Passenger Focus and train operating companies to improve communication with passengers when engineering works fail; (iv) In the light of the change of status of Network Rail the ORR must reconsider whether fining a public sector body remains an effective means for the regulator to exert control; (v) Greater transparency is essential around rail spending. Criteria used to allocate spending should be published.
