Briefe über Blattminierer / Letters on Leaf Miners E.M. Hering, 2012-12-06 My association with Prof. Hering extends over the past seventeen years, and during this period I have visited him at his home on more than forty occasions and received over 300 letters from him. These letters contain much detailed entomological information. They also throw considerable light on Prof. Hering's personality and character and the background against which he worked. The publication of at least part of these letters as a final tribute to Prof. Hering has been in my mind for many years. This original idea has now been somewhat extended by the inclusion of a number of letters to Dr. H. Buhr, Dr. J. Klimesch, Dr. F. Groschke and G. C. D. Griffiths, all of whom shared Prof. Hering's interest in leaf-miners. Although Dr. Buhr is primarily a botanist, with Hering's encouragement he has taken an active interest in leaf-miners throughout his career and his remarkable collecting becomes apparent from Hering's letters to him. For many years Prof. Hering has written between two and three thousand letters annually. It has obviously been possible to consider here only a very small proportion of these. From many of the longer letters only isolated paragraphs have been included. Use of italics in the letters was not entirely consistent and has been reproduced as used by Prof. Hering. Selection of the letters has been based primarily on their entomological interest but numerous passages have also been included illustrating in some way Hering's personal qualities.

Everything You Need to Know About Sexism Carol Hand, 2017-12-15 Despite the insistence of people who think sexism no longer exists in the United States, the facts say otherwise, and so do most women. Women have many legal rights, from voting to heading companies to holding political office. Socially, they are far from viewed as equal to men. Sexism begins at birth or even before. It continues throughout childhood and education, in the workplace, and in the family. This guidebook outlines sexism in action in all of these areas. It provides the reader with suggestions for dealing with problems created by sexism at all ages and in all areas of life.

Schutz und Andacht im Islam: Dokumente in Rollenform aus dem 14.-19. Jh. Tobias Nünlist, 2020-09-25 Schutz und Andacht im Islam befasst sich mit handschriftlichen Dokumenten in Rollenform, die zwischen dem 14. und 19. Jh. entstanden sind. Die vorgestellten Belegstücke stammen aus unterschiedlichen geographischen Kontexten: a. Städtedreieck Tabriz-Konya-Bagdad; b. persischer Kulturraum; c. Osmanisches Reich. Diese Rollen waren bei Angehörigen von Männerbünden (Sufi-Orden, Futuwwa- und Ahî-Gruppierungen, Gilden) beliebt.

Die Studie untersucht das auf diesen Dokumenten verwendete textliche und ge-stalterische Vokabular. Neben Passagen aus dem Koran (auch vollständige Abschriften) lassen sich oft Gebete und weitere Texte frommen Inhalts feststellen. Gelegentlich finden sich Hinweise, dass die Dokumente aus heterodoxen Umfeldern stammen. Die Studie unterstreicht ausserdem den hohen kunsthistorischen Wert der vorgestellten Belegstücke, die oft für Angehörige von gesellschaftlichen Eliten angefertigt worden sind. Devotion and Protection in Islam deals with hand-written documents in the scroll format dating from the 14th–19th centuries. These documents can be attributed to various geographic contexts: a. the triangle between the cities of Tabriz, Konya and Baghdad; b. the Persianate world; c. the Ottoman Empire. These scrolls were appreciated by members of different associations (Männerbünde; e.g. Sufi orders, Futuwwa and Ahī groups). This study analyses the textual and ornamental vocabulary applied on the scrolls. The copied texts mostly comprise passages from the Quran and prayers. Certain features suggest that such scrolls were often produced in heterodox environments. Additionally, this study underscores the high art-historical value of these documents, particularly appreciated by members of the ruling elite.

Decoding CEO-Speak Russell Craig,Joel Amernic,2021-06-29 The words of business leaders matter. They can spark action, enhance branding, share knowledge, transmit values, and influence social and cultural behavior. Decoding CEO-Speak critiques the public language of a powerful class of people – the Chief Executive Officers of major companies. Interest in the behavior and thinking of CEOs is not confined to their corporation's direct stakeholders only: the public is increasingly interested in how CEOs stand on current issues and community debate. Through case study analysis of companies such as News Corporation, BP, Wells Fargo, Satyam, Uber, Canadian National Railway, Tesla, and Boeing, authors Russell Craig and Joel Amernic illustrate ways of mining meaning or decoding a CEO's written words and speeches. They critically examine a variety of public media, including social media, testimony, and speeches, performed by leaders of major companies. Decoding CEO-Speak demonstrates how monitoring the language of CEOs can yield valuable insights into a company's policy, strategy, and ethicality; and how it can point to the priorities, values, and personality of the CEO. The book will appeal to CEOs, senior managers, and public relations and media consultants, as well as business professors, students, and corporate stakeholders who want to find otherwise disguised meaning in the words of leaders.

Disrupting D.C. Katie J. Wells,Kafui Attoh,Declan Cullen,2023-08-15 A panoramic account of the urban politics and deep social divisions that gave rise to Uber The first city to fight back against Uber, Washington, D.C., was also the first city where such resistance was defeated. It was here that the company created a playbook for how to deal with intransigent regulators and to win in the realm of local politics. The city already serves as the

nation's capital. Now, D.C. is also the blueprint for how Uber conquered cities around the world—and explains why so many embraced the company with open arms. Drawing on interviews with gig workers, policymakers, Uber lobbyists, and community organizers, *Disrupting D.C.* demonstrates that many share the blame for lowering the nation's hopes and dreams for what its cities could be. In a sea of broken transit, underemployment, and racial polarization, Uber offered a lifeline. But at what cost? This is not the story of one company and one city. Instead, *Disrupting D.C.* offers a 360-degree view of an urban America in crisis. Uber arrived promising a new future for workers, residents, policymakers, and others. Ultimately, Uber's success and growth was never a sign of urban strength or innovation but a sign of urban weakness and low expectations about what city politics can achieve. Understanding why Uber rose reveals just how far the rest of us have fallen.

Spent behind the Wheel Julietta Hua, Kasturi Ray, 2021-12-21 Exploring professional passenger driving and the gig economy through feminist theories of labor Are taxi drivers in today's era of the ride-hail app performing care work akin to domestic and household labor? So argue the authors of *Spent behind the Wheel*. Bringing together sociological and legal perspectives with feminist theoretical insights, Julietta Hua and Kasturi Ray examine the case study of contemporary professional passenger driving in the United States. On the one hand, they show, the rise of the gig economy has brought new attention to the industry of professional passenger driving. On the other hand, the vulnerabilities that professional drivers experience remain hidden. Drawing on interviews with drivers, labor organizers, and members of licensing commissions, as well as case law and other published resources, Hua and Ray argue that working for ride-hail companies like Uber and Lyft shares similarities with driving for taxi companies in the impact on driver lives. Lyft and Uber sell the idea of industry disruption, but in fact they entrench long-standing modes of extracting the reproductive labor of their drivers for the benefit of consumer lives. Reproductive labor—conventionally understood as feminized labor—is extracted, but masked, behind the masculinized, racialized bodies of drivers. Professional driving is thus best understood alongside domestic and other gendered service work as reproductive labors devalued and often demonetized to benefit the national economy. *Spent behind the Wheel* is a must for readers interested in critical studies of technological change and the gig economy, showing how drivers' capacities are drained for the benefit of riders, corporations, and the maintenance of the racial state.
