Food Safety for Farmers Markets: A Guide to Enhancing Safety of Local Foods Judy A. Harrison,2017-10-20 This book describes practices used on farms and in farmers markets selling foods directly to consumers in U.S. and international markets. It identifies hazards associated with those practices that could put consumers at increased risk for foodborne illness. It also provides tools for identifying hazards on farms and in markets and guidance for establishing food-safe markets. The local food movement, inspired by initiatives such as the USDA's "Know Your Farmer, Know Your Food"; "Farm to School"; "Farm to Pre-school"; and "The People's Garden", is sweeping the country. Nowhere is this interest more evident than at farmers markets. The number of farmers markets has increased almost 400% since the early 1990s, with over 8,600 farmers markets listed in the USDA's market directory in 2016. Many of the customers for local markets are senior adults, people who may have health concerns, and mothers with young children shopping for foods they perceive to be healthier and safer than those available in grocery stores. This means that many of the customers may be in population groups that are most at risk for foodborne illness and the serious complications that can result. In surveys, however, farmers selling directly to consumers self-reported practices that could increase risk for foodborne illnesses. These included use of raw manure as fertilizer without appropriate waiting periods between application and harvest, as outlined in the National Organic Program, a lack of sanitation training for farm workers handling produce, a lack of proper cleaning and sanitizing of surfaces that come in contact with produce, and use of untested surface water for rinsing produce before taking it to market. Surveys of market managers found that many had limited experience and most had no food safety plans for their markets. Observational studies in markets have corroborated self-reported practices that could increase foodborne illness risks, including lack of handwashing, lack of access to well-maintained toilet and handwashing facilities, use of materials that cannot be cleaned and sanitized appropriately, and lack of temperature control for foods that must have time and temperature controlled for safety. These potential food safety risks are not only seen in U.S. farmers markets, but also have been identified in international markets. This book is unique in that it provides evidence-based information about food safety hazards and potential risks associated with farmers markets. It presents an overview of farm and market practices and offers guidance for enhancing food safety on farms and in markets for educators, farmers, producers, vendors and market managers. Dr. Judy A. Harrison is a Professor in the Department of Foods and Nutrition at the University of Georgia (UGA) where she has been named a Walter Bernard Hill Fellow for distinguished achievement in public service and outreach. Serving as a food safety specialist for UGA Cooperative Extension, she has provided 25 years of food safety education for a variety of audiences across the food system.

Local Food Systems; Concepts, Impacts, and Issues Steve Martinez,2010-11 This comprehensive overview of local food systems explores alternative definitions of local food, estimates market size and reach, describes the characteristics of local consumers and producers, and examines early indications of the economic and health impacts of local food systems. Defining {local} based on marketing arrangements, such as farmers selling directly to consumers at regional farmers' markets or to schools, is well recognized. Statistics suggest that local food markets account for a small, but growing, share of U.S. agricultural production. For smaller farms, direct marketing to consumers accounts for a higher percentage of their sales than for larger farms. Charts and tables.

Los Angeles's Original Farmers Market David Hamlin,Brett Arena,2009 The original Farmers Market at Third Street and Fairfax Avenue in Los Angeles has been at the center of its city's history for 75 years. Farmers Market led Los Angeles out of the Great Depression, drew tourists from around the world, and became the most popular attraction in Southern California. It is Los Angeles's beloved grocery store, its town square, its favorite dining room and den, Hollywood's best friend, and one of the city's most delightfully eccentric citizens. From its uniquely quirky beginnings to its contemporary stature as the coolest place in town, Farmers Market has a history rich in stories and is alive with character, integrity, and tradition.

Food Co-ops in America Anne Meis Knupfer,2013-06-15 In recent years, American shoppers have become more conscious of their food choices and have increasingly turned to CSAs, farmers' markets, organic foods in supermarkets, and to joining and forming new food co-ops. In fact, food co-ops have been a viable food source, as well as a means of collective and democratic ownership, for nearly 180 years. In *Food Co-ops in America*, Anne Meis Knupfer examines the economic and democratic ideals of food cooperatives. She shows readers what the histories of food co-ops can tell us about our rights as consumers, how we can practice democracy and community, and how we might do business differently. In the first history of food co-ops in the United States, Knupfer draws on newsletters, correspondence, newspaper coverage, and board meeting minutes, as well as visits to food co-ops around the country, where she listened to managers, board members, workers, and members. What possibilities for change—be they economic, political, environmental or social—might food co-ops offer to their members, communities, and the globalized world? Food co-ops have long advocated for consumer legislation, accurate product labeling, and environmental protection. Food co-ops have many constituents—members, workers, board members, local and even global producers—making the process of collective decision-making complex and often difficult. Even so, food co-ops offer us a viable alternative to corporate capitalism. In recent years, committed co-ops have expanded their social vision to improve access to healthy food for all by helping to establish food co-ops in poorer communities.

The U.S. Farmer and World Market Development Arthur B. Mackie,1983 Extract: The rapid expansion of U.S. agricultural exports over the past two decades has greatly enhanced the role of exports in the U.S. agricultural economy and has increased the stake of U.S. farmers in foreign economic growth and trade, and the development of foreign markets. The growth of U.S. agricultural exports has been closely related to income growth in foreign countries. This study examines the changing nature of world import demand for agricultural products, induced by economic growth and increased incomes, and its impact on and significance for (1) U.S. agriculture, (2) changes in the commodity composition of U.S. agricultural exports, (3) market shares of U.S. agricultural exports, (4) future market potential for U.S. farm products, and (5) income and export opportunities for American farmers with continued growth in world demand and agricultural trade.

Hudson River Valley Farms Joanne Michaels,2009-07-15 Meet your local farmer! Published for the 400th anniversary of Henry Hudson's September 1609 journey along the river that today bears his name, this fascinating illustrated portrait celebrates the local farms—and farmers—in one of the country's most scenic and storied regions, once known as the Breadbasket of America. Hudson River Valley Farms brings to life the renaissance of food producers who have developed the region as a source of artisanal cheeses, grass-fed beef, and first-rate organic fruits and vegetables. Stunning photography and short, evocative essays take you on a rare, behind-the-scenes journey to forty-four farms from Westchester County to the

Capital District of Albany, and include the colorful maverick entrepreneurs behind the striking scenery. The book also includes a directory of nearly 100 local farmers' markets, directions to the featured farms, and an introduction by the region's popular U.S. Congressman, Maurice Hinchey.
