Don't Forget to Remember Ellie Holcomb, 2020-03-03 Do you ever forget to remember what's true? Sometimes remembering is hard to do! But in this lyrical tale, Ellie Holcomb celebrates creation's reminders of God's love, which surrounds us from sunrise to sunset, even on our most forgetful of days.

Hey, Kiddo: A Graphic Novel Jarrett J. Krosoczka, 2018-10-09 The powerful, unforgettable graphic memoir from Jarrett Krosoczka, about growing up with a drug-addicted mother, a missing father, and two unforgettably opinionated grandparents. A National Book Award Finalist! In kindergarten, Jarrett Krosoczka's teacher asks him to draw his family, with a mommy and a daddy. But Jarrett's family is much more complicated than that. His mom is an addict, in and out of rehab, and in and out of Jarrett's life. His father is a mystery -- Jarrett doesn't know where to find him, or even what his name is. Jarrett lives with his grandparents -- two very loud, very loving, very opinionated people who had thought they were through with raising children until Jarrett came along. Jarrett goes through his childhood trying to make his non-normal life as normal as possible, finding a way to express himself through drawing even as so little is being said to him about what's going on. Only as a teenager can Jarrett begin to piece together the truth of his family, reckoning with his mother and tracking down his father. Hey, Kiddo is a profoundly important memoir about growing up in a family grappling with addiction, and finding the art that helps you survive.

Unruly Media Carol Vernallis, 2013-09-19 *Unruly Media* argues that we are the crest of a new international style in which sonic and visual parameters become heightened and accelerated. This audiovisual turn calls for new forms of attention. Post-classical cinema, with its multi-plot narratives and flashy style, fragments under the influence of audiovisual numbers and music-video-like sync. Music video becomes more than a way of selling songs. YouTube's brief, low-res clips encompass many forms and

foreground reiteration, graphic values and affective intensity. These three media are riven by one another: a trajectory from YouTube through music video to the new digital cinema reveals commonalities, especially in the realms of rhythm, texture and form. This is the first book to account for the current audiovisual landscape across medium and platform, and it demonstrates that attending equally to soundtrack and image reveals how these media work and how they both mirror and shape our experience.

Video Search and Mining Dan Schonfeld, Caifeng Shan, Dacheng Tao, Liang Wang, 2010-05-22 As cameras become more pervasive in our daily life, vast amounts of video data are generated. The popularity of YouTube and similar websites such as Tudou and Youku provides strong evidence for the increasing role of video in society. One of the main challenges confronting us in the era of information technology is to - fectively rely on the huge and rapidly growing video data accumulating in large multimedia archives. Innovative video processing and analysis techniques will play an increasingly important role in resolving the difficult task of video search and retrieval. A wide range of video-based applications have benefited from - vances in video search and mining including multimedia information mana- ment, human-computer interaction, security and surveillance, copyright protection, and personal entertainment, to name a few. This book provides an overview of emerging new approaches to video search and mining based on promising methods being developed in the computer vision and image analysis community. Video search and mining is a rapidly evolving discipline whose aim is to capture interesting patterns in video data. It has become one of the core areas in the data mining research community. In comparison to other types of data mining (e. g. text), video mining is still in its infancy. Many challenging research problems are facing video mining researchers.

Making YouTube Videos Nick Willoughby, 2015-10-27 The fast and easy way for kids to shoot, edit, and share videos on

YouTube Does your child long to create and post videos on YouTube in hopes of becoming the next “YouTube celebrity?” Whether looking to go viral or simply wanting to make videos for their friends, Making YouTube Videos is the place your kid should start. Written by a filmmaking expert who runs camps for wanna-be filmmakers as young as seven, this fun and friendly guide takes your child step by step through the process: from idea creation to production to sharing on YouTube. Written in a language they’ll understand and filled with eye-popping graphics that make the information come to life, Making YouTube Videos takes the intimidation out of working with video technology and offers your child a friendly, trusted source for expressing their creativity. Kids will work through small projects with end-goals that help promote confidence. With content that is accessible and easy to understand, this book is ideal for youngsters who want to go solo or work with you or another adult instructor. Introduces ideas on framing, lighting, and sound Shows kids how to load a video, add transitions, and add effects Provides easy-to-follow instruction on uploading a video to YouTube and setting who can see or not see their video Explains how to grab free software and make simple edits, like cutting out scenes, adding to a timeline, and implementing transitions If you want to encourage your child’s enthusiasm but don’t want to endure a meltdown, Making YouTube Videos makes it easy for your aspiring filmmaker to fulfill his or her dream.

Encounters in Video Art in Latin America Elena Shtromberg, Glenn Phillips, 2023-02-14 With insightful essays and interviews, this volume examines how artists have experimented with the medium of video across different regions of Latin America since the 1960s. The emergence of video art in Latin America is marked by multiple points of development, across more than a dozen artistic centers, over a period of more than twenty-five years. When first introduced during the 1960s, video was seen as empowering: the portability of early equipment and the possibility

of instant playback allowed artists to challenge and at times subvert the mainstream media. Video art in Latin America was—and still is—closely related to the desire for social change. Themes related to gender, ethnic, and racial identity as well as the consequences of social inequality and ecological disasters have been fundamental to many artists' practices. This compendium explores the history and current state of artistic experimentation with video throughout Latin America. Departing from the relatively small body of existing scholarship in English, much of which focuses on individual countries, this volume approaches the topic thematically, positioning video artworks from different periods and regions throughout Latin America in dialogue with each other. Organized in four broad sections—Encounters, Networks and Archives, Memory and Crisis, and Indigenous Perspectives—the book's essays and interviews encourage readers to examine the medium of video across varied chronologies and geographies.

Intelligent Video Event Analysis and Understanding Jianguo Zhang, Ling Shao, Lei Zhang, Graeme A. Jones, 2011-01-19 With the vast development of Internet capacity and speed, as well as wide adoption of media technologies in people's daily life, a large amount of videos have been surging, and need to be efficiently processed or organized based on interest. The human visual perception system could, without difficulty, interpret and recognize thousands of events in videos, despite high level of video object clutters, different types of scene context, variability of motion scales, appearance changes, occlusions and object interactions. For a computer vision system, it has been very challenging to achieve automatic video event understanding for decades. Broadly speaking, those challenges include robust detection of events under clutter, event interpretation under complex scenes, multi-level semantic event inference, putting events in context and multiple cameras, event inference from object interactions, etc. In recent years, steady progress has been made towards better models for video event categorisation and recognition, e. g.

, from modelling events with bag of spatial temporal features to discovering event context, from detecting events using a single camera to inferring events through a distributed camera network, and from low-level event feature extraction and description to high-level semantic event classification and recognition.

Nowadays, text based video retrieval is widely used by commercial search engines. However, it is still very difficult to retrieve or categorise a specific video segment based on their content in a real multimedia system or in surveillance applications.

Multimodal Video Characterization and Summarization

Michael A. Smith,Takeo Kanade,2005-12-17 Multimodal Video Characterization and Summarization is a valuable research tool for both professionals and academicians working in the video field. This book describes the methodology for using multimodal audio, image, and text technology to characterize video content. This new and groundbreaking science has led to many advances in video understanding, such as the development of a video summary. Applications and methodology for creating video summaries are described, as well as user-studies for evaluation and testing.

Video Marketing Made Simple For Business Owners Raymond Wayne,2020-09-18 Video Marketing is literally on fire! Embrace the Power and Potential of Video Marketing And use this medium to catapult your web business to the next level. Check out on “ Video Marketing Made Simple For Business Owners ” Finally, you have this once in lifetime opportunity to get your hands on the video marketing tools & Strategies that are generating million dollar revenues . Businesses invest a lot of time determining who their target demographic is, and for good reason. When a business knows which demographic is buying and using their product, it’s going to be easier to market to that demographic. Middle-aged

women are going to respond to ads differently than millennials; and what one group finds engaging and interesting, another may not. So it's important for businesses to understand what demographic they are targeting so they get the marketing just right for them. But, businesses don't have to go to such trouble when they're using video marketing because video marketing reaches every demographic and is interesting to every demographic. And this is because men and women, and people of every age, love video. As long as it's interesting and creative, people will like a video regardless of their background or history. This can be a bonus for businesses that know who their demographic is, simply because more people will share it and like it, even if they don't make up part of the business' demographic. But it's also especially good news for businesses with a shifting demographic, or for those that don't know how makes up their demographic. That happens sometimes when a business changes directions or changes their product or service slightly, and then they have to start back at square one with their marketing efforts. But when a business has already created videos as part of their marketing plan, they don't have to change a thing because those videos will already be suitable for every demographic. Imagine one type of marketing that appeals to every single demographic. It seems too good to be true, but it's not. That type of marketing is video marketing, and reaching every demographic is just one very good reason why every business should be investing in it.

How I Met My Monster Amanda Noll, 2019-11-03 One night, when Ethan reaches under his bed for a toy truck, he finds this note instead: Monsters! Meet here for final test. Ethan is sure his parents are trying to trick him into staying under the covers, until he sees five colorful sets of eyes blinking at him from beneath the bed. Soon, a colorful parade of quirky, squeaky little monsters compete to become Ethan's monster. But only the little green monster, Gabe, has the perfect blend of stomach-rumbling and snorting needed to get Ethan into bed and keep him there so he

falls asleep—which as everyone knows, is the real reason for monsters under beds. With its perfect balance of giggles and shivers, this silly-spooky prequel to the award-winning *I Need My Monster* and *Hey, That's MY Monster!* will keep young readers entertained.

The Effects of Video Games on Children Barrie

Gunter,1998-01-01 The rapid growth in popularity of computer and video games, particularly among children and teenagers, has given rise to public concern about the effects they might have on youngsters. The violent themes of many of these games, coupled with their interactive nature, have led to accusations that they may be worse than televised violence in affecting children's antisocial behaviour. Other allegations are that they have an addictive quality and that excessive playing results in a diminished social contact and poorer school performance. But how bad are video games? There are strong methodological reasons for not accepting the evidence for video games effects at face value. There are also positive signs that playing these games can enhance particular mental competencies in children. This book provides an up-to-date review and critique of research evidence from around the world in an attempt to put the issue of video game effects into perspective.

A Kids Book About Belonging Kevin Carroll,2023-09-05 A clear explanation of what belonging is, and how to accept and understand who you are. This is a kids book about belonging. It tackles what it's like when you feel like you belong to a group or family or team, and what it's like when you don't. It addresses what it feels like when you don't fit in, or when it may feel like others don't want you around. This book teaches kids aged 5-9 how to incorporate the feeling of belonging into their lives. The feeling of belonging is something that everyone strives for, which is why it's important to know how to belong to yourself and love who you are, and how that helps you to belong anywhere. *A Kids Book About Belonging* features: - A large and bold, yet minimalist

The Life You Long For Christy Nockels, 2022-02-01 A beautiful invitation to discover your place in God's heart and let him set the pace for your life—from a wife and mother, singer-songwriter, and worship leader for Passion Conferences and IF:Gathering “Christy Nockels is a gentle, strong voice shepherding us into a fuller life with Jesus at the very center. This book will restore your weary soul.”—Jennie Allen, New York Times bestselling author of *Get Out of Your Head* and founder and visionary of IF:Gathering Christy

Nockels knows firsthand how easily our desire to serve God—even when using the gifts He has given us—can overshadow our delight in simply being with Him. When God called her to lay down her ministry for a season, Christy was forced to confront how her sense of purpose and worth had become tangled up in her work. God then lovingly invited her to discover true rest in His presence as she learned to live as the Beloved. In *The Life You Long For*, Christy shows us how to let go of hustle and achievement and instead find our identity in the quiet center of God’s love. As we delight in being with Him, we are filled to overflowing with contentment and love that propel us into an entirely new way of being, one in which every act of service and every encounter with the people around us arise from a heart at rest. With irresistible warmth and grace, this book calls you to step fully into the life you didn’t even realize you’ve been seeking, as you find your highest calling not in a duty to uphold but in a beautiful identity to live out.
