*The Mexico Reader* Gilbert M. Joseph, Timothy J. Henderson, 2022-08-29 The Mexico Reader is a vivid and comprehensive guide to muchos Méxicos—the many varied histories and cultures of Mexico.

Unparalleled in scope, it covers pre-Columbian times to the present, from the extraordinary power and influence of the Roman Catholic Church to Mexico's uneven postrevolutionary modernization, from chronic economic and political instability to its rich cultural heritage. Bringing together over eighty selections that include poetry, folklore, photo essays, songs, political cartoons, memoirs, journalism, and scholarly writing, this volume highlights the voices of everyday Mexicans—indigenous peoples, artists, soldiers, priests, peasants, and workers. It also includes pieces by politicians and foreign diplomats; by literary giants Octavio Paz, Gloria Anzaldúa, and Carlos Fuentes; and by and about revolutionary leaders Pancho Villa and Emiliano Zapata. This revised and updated edition features new selections that address twenty-first-century developments, including the rise of narcopolitics, the economic and personal costs of the United States' mass deportation programs, the political activism of indigenous healers and manufacturing workers, and the impact of the COVID-19 pandemic. The Mexico Reader is an essential resource for travelers, students, and experts alike.

My Mexico Diana Kennedy, 2013-10-20 "A deeply knowledgeable celebration of the diverse regional cuisines of Mexico. . . . [A] tour de force, with the emphasis on authenticity" (Publishers Weekly). By universal acclaim, Diana Kennedy is the world's authority on the authentic cuisines of Mexico. For decades, she has traveled the length and breadth of the country, seeking out the home cooks, local ingredients, and traditional recipes that make

Mexican cuisines some of the most varied and flavorful in the world. Kennedy has published eight classic Mexican cookbooks, including the James Beard Award-winning Oaxaca al Gusto. But her most personal book is *My Mexico*, a labor of love filled with more than three hundred recipes and stories that capture the essence of Mexican food culture as Kennedy has discovered and lived it. First published in 1998, *My Mexico* is now back in print with a fresh design and photographs—ready to lead a new generation of gastronomes on an unforgettable journey through the foods of this fascinating and complex country. “*My Mexico* is a masterwork. . . . No other writer has come close to Diana Kennedy in communicating the variety, richness, and delights of the cuisines of Mexico.” —Naomi Duguid, author of *Burma: Rivers of Flavor* “Open any pages of *My Mexico* and be transported to a waking dream.” —Food & Wine “This book is as much a work of cultural anthropology as it is a recipe reference.” —Publishers Weekly “Many of these recipes are unusual and have not been recorded anywhere else. Kennedy is passionate about preserving these historical recipes . . . And she has followed her quest from large, thriving city marketplaces to tiny remote villages. Essential.” —Library Journal

*Mexico's Valleys of Cuicatlán and Tehuacán* David Yetman, Alberto Búrquez, 2023-09-26 *Mexico's Valleys of Cuicatlán and Tehuacán: From Deserts to Clouds* provides an accessible and photographic view of the culture, history, and environment of an

extraordinary region of southern Mexico. The Valleys of Cuicatlán and Tehuacán are lauded by botanists for their spectacular plant life—they contain the densest columnar cacti forests in the world. Recent archaeological excavations reveal them also to be a formative Mesoamerican site as well. So singular is this region that it is home to the Tehuacán-Cuicatlán Biosphere Reserve and a UNESCO World Heritage Site. Through firsthand experience and engaging prose, the authors provide a synthesis of the geology, ecology, history, and cultures of the valleys, showing their importance and influence as Mesoamerican arteries for environmental and cultural interchange through Mexico. It also reveals the extraordinary plant life that draws from habitats ranging from deserts to tropical forests. The authors, both experts in their respective fields, begin with a general description of the geography of the valleys, followed by an introduction to climate and hydrology, a look at the valleys' often bewildering geology. The book delves into cultural and linguistic backgrounds of the valleys and discusses archaeological sites that encapsulate the valleys' fascinating history prior to the arrival of Europeans. The book concludes by describing the flora that makes the region so singular.

*A Selected Guide to the Literature of the Flowering Plants of Mexico* Ida Kaplan

Langman, 2018-01-09 This bibliography is a guide to the literature on Mexican flowering plants, beginning with the days of the discovery and conquest of Mexico by the Spaniards in the early

sixteenth century.

**The Rebel** Leonor Villegas de Magnón, 1994-09-01  
The Rebel is the memoir of a revolutionary woman, Leonor Villegas de Magnón (1876-1955), who was a fiery critic of dictator Porfirio Díaz and a conspirator and participant in the Mexican Revolution. Villegas de Magnón rebelled against the ideals of her aristocratic class and against the traditional role of women in her society. In 1910 Villegas moved from Mexico to Laredo, Texas, where she continued supporting the revolution as a member of the Junta Revolucionaria (Revolutionary Council) and as a fiery editorialist in Laredo newspapers. In 1913, she founded La Cruz Blanca (The White Cross) to serve as a corps of nurses for the revolutionary forces active from the border region to Mexico City. Many women like Villegas de Magnón from both sides of the border risked their lives and left their families to support the revolution. Years later, however, when their participation had still been unacknowledged and was running the risk of being forgotten, Villegas de Magnón decided to write her personal account of this history. The Rebel covers the period from 1876 through 1920, documenting the heroic actions of the women. Written in the third person with a romantic fervor, the narrative interweaves autobiography with the story of La Cruz Blanca. Until now Villegas de Magnón's written contributions have remained virtually unrecognized - peripheral to both Mexico and the United States, fragmented by a border. Not only does her work attest to the vitality, strength and involvement of women in sociopolitical concerns,

but it also stands as one of the very few written documents that consciously challenges stereotyped misconceptions of Mexican Americans held by both Mexicans and Anglo-Americans.

*Ramblings* Dave Adkins, 2015-04-24 I like the idea of a sentimental-historical approach to articles about Grinnell and other topics. Maybe there is no past or no future, only the present. I have a good memory, which is my main research tool. Share ideas and establish contact with old friends and others. Somehow, I believe the blogs on aging are of some value to others. Feedback confirms that. It gives me something worthwhile to do. Too much leisure can be the booby prize of retirement, as can be too much activity. This is a collection of essays which I have written and arranged in a reverse chronological order, starting with the most recent and moving back in time with the others. The main topic of the articles is Grinnell, Iowa, my hometown, but there are also other subjects discussed. They are a historic, nostalgic treatment of many facets of life there in the 1940s and 1950s including Grinnell College and Grinnell High School sporting events, customs in the neighborhoods back then, and the inevitable topic of aging and life as a septuagenarian. The articles on aging are written with my GHS class of 1957 classmates in mind.

*The Keepers of Water and Earth* Kjell I. Enge, Scott Whiteford, 2014-04-15 Agrarian reforms transformed the Mexican countryside in the late twentieth century but without, in many cases, altering fundamental power relationships. This study of the Tehuacán Valley in the state of

Puebla highlights different strategies to manipulate the local implementation of federal government programs. With their very differing successes in the struggle to regain and maintain control of land and water rights, these strategies raise important questions about the meaning of the phrase locally controlled development. Because Mexico is dependent on irrigation for 45 percent of its cash crop production, national policy has focused on developing vast government controlled and financed irrigation systems. In the Tehuacán Valley, however, the inhabitants have developed a complex irrigation system without government aid or supervision. Yet, in contrast to most parts of Mexico, water rights can be bought and sold as a commodity, leading to accumulation, stratification, and emergence of a regional elite whose power is based on ownership of land and water. The analysis provides an important contribution to the understanding of local control. The findings of this study will be important to a wide audience involved in the study of irrigation, local agricultural systems, and the interplay between local power structures and the national government in developing countries. The book also presents unique material on gravity-fed, horizontal wells, known as qanat in the Middle East, which had been unknown in the literature on Latin America before this book.

*Grahame Clark* Brian Fagan, 2018-07-03 The British archaeologist Grahame Clark was a seminal figure in European and world archaeology for more than half of the twentieth century, but, at the same time, one whose reputation has been outshone by other, more visible luminaries. His works were never aimed at a wide general public, nor did he become a television or radio personality. Clark was, above all, a scholar, whose contributions to world archaeology were enormous. He was also convinced that the study of prehistory was important for all humanity and spent his career saying so. For this, he was awarded the prestigious Erasmus Prize in 1990, an award only rarely given to archaeologists. This intellectual biography describes Clark's remarkable career and assesses his seminal contributions to archaeology. Clark became interested in archaeology while at school, studied the subject at Cambridge University, and completed a groundbreaking doctorate on the Mesolithic cultures of Britain in 1931. He followed this study with a magisterial survey, *The Mesolithic Settlement of Northern Europe* (1936), which established him as an international authority on the period. At the same time, he became interested in the interplay between changing ancient environment and ancient human societies. In a series of excavations and important papers, he developed environmental archaeology and the notion of ecological systems as a foundation of scientific, multidisciplinary archaeology, culminating in his world-famous excavations at Starr Carr, England, in 1949 and his *Prehistoric Europe: The Economic Basis* (1952).

Clark became Disney Professor of Public Archaeology at Cambridge in 1952 and influenced an entire generation of undergraduates to become archaeologists in all parts of the world. He was also the author of the first book on a global human prehistory, *World Prehistory* (1961).

*Liebmann's Mexican Ferns* Frederik Michael Liebmann, John T. Mickel, 1987 This volume provides information on more than 300 species collected in Mexico from 1841 to 1843 by the Danish botanist, Frederik Liebmann.

Archaeology of Ancient Mexico and Central America Susan Toby Evans, David L. Webster, 2001 This reference is devoted to the pre-Columbian archaeology of the Mesoamerican culture area, one of the six cradles of early civilization. It features in-depth articles on the major cultural areas of ancient Mexico and Central America; coverage of important sites, including the world-renowned discoveries as well as many lesser-known locations; articles on day-to-day life of ancient peoples in these regions; and several bandw regional and site maps and photographs. Entries are arranged alphabetically and cover introductory archaeological facts (flora, fauna, human growth and development, nonorganic resources), chronologies of various periods (Paleoindian, Archaic, Formative, Classic and Postclassic, and Colonial), cultural features, Maya, regional summaries, research methods and resources, ethnohistorical methods and sources, and scholars and research history. Edited by archaeologists Evans and Webster, both of whom are associated with Pennsylvania State University. c. Book News
