**Walker: Athens 2004** James London, 2014-06-24 Jack Galloway, Sports Editor of the Telegraph, decides to reveal the prowess of master athlete Walker on the world stage at the Olympic Games in Athens, to combat the increasing plague of the use of performance-enhancing substances by world class athletes. Walker's victories in six events, winning an unprecedented six gold medals in track and field, is a demonstration that the use of drugs and the disgrace that accompanies the convicted athlete is a worthless pursuit, which Jack believes will finish forever the culture of the drug-enhanced athletic performance. In setting six new world records in track and field Walker demonstrates to the millions and millions of spectators throughout the world the importance of hard work, discipline and precision in performance. His achievements may never be equalled in the athletics arena. Walker is a superman of track and field who will inspire generations of future athletes.

*Walker - Olympic Champion, Athens, Greece 2004* James London, 2004 Jack Galloway, an award-winning sports writer and sports editor, has for 45 years maintained the secrets of athlete-scientist, Walker, who has discovered methods of prolonging life and maximising the body's physical capabilities so as to perform gigantic feats of athletic performance. To save the sport of athletics, Jack's swansong before retirement as Sports Editor of The Telegraph is to use the paper's resources to mount a campaign against drug abuse by persuading his lifelong friend to enter the Athens games in six events. An intense training schedule supervised by master coach, Cassius, brings Walker to the peak of human condition in time for mid-August in Athens. On the greatest stage in the world, in the finest arena on the planet, Walker demonstrates to the world in a dramatic climax that records are within the grasp of mankind, without cheating. His winning total of six gold medals he hopes will be enough to end the endemic drug culture that threatens the existence of the sport.

Walker: Beijing 2008 James London, 2014-06-25 It's the 2008 Beijing Olympics, and Walker makes a comeback after his three-and-a-half years as a recluse following his marathon victory in Athens, 2004. With some incredible track and field performances, he proves that dedication, diet and extreme physical fitness can beat the cheats who resort to performance-enhancing drugs. But will the timely release of Walker's book, which contains his lifetime's work on controlling the ageing process and prolonging human life, bring disbelief and ridicule when it is revealed that Walker is actually 200 years old?

**Walker: London 2012** James London, 2014-06-25 Leading the UK track and field team to gold medal winning glory at the Athens Olympics in 2004 and again at Beijing in 2008 was enough for British Athletics to turn again to Walker and persuade him - the UK's greatest ever track and field athlete - out of retirement to save the nation from ignominy and disgrace after the greatest ever disaster in the build-up to any modern Olympics; a disaster that could destroy a nation. Forsaking his scientific research into the subject of longevity at the University of Buenos Aires in Argentina, and

with the help of his mentor and Olympics athletics coach Cassius, Walker returns to the venue for the 30th Olympiad in London in time to compete against the greatest Decathletes in the world. His return to athletics awakens and inspires the nation. Is their support enough? This is the story of Walker's single-handed attempt to restore Britain's pride in itself and its reputation as a great sporting nation.

**Theseus and Athens** Henry J. Walker, 1995 Assembling material that has previously been scattered in scholarly works, Walker presents the evidence for the development of the myth and cult of Theseus in the archaic age. He then looks to major works of classical literature in which Theseus figures, probing the contradictions between the archaic, primitive side of his character and his refurbished image as the patron of democracy.

*Personal Best* Marc Woods, 2006-02-20 FROM MARC WOODS I love to read and listen to inspirational stories, but sometimes it is difficult to apply any of their content to your own life. In writing *Personal Best* I wanted to share my life experiences, to relate how I dealt with, and overcame, the different challenges that I faced and then went on to achieve success. But, more importantly, I wanted to do it in a way that might be useful to others. In beating cancer as a teenager, I may have lost a leg, but I gained a new respect for life and a second chance. My experience taught me to approach life in a different way. It taught me to measure myself against my potential and not against others. It taught me about personal responsibility. It taught me that life is about being the best person you can be. If you are lucky, life teaches you what you don't learn at school. I've been very lucky. I've learnt some tough, but invaluable lessons about life on my journey. I'd like to share those lessons with you. *Personal Best* is a truly inspirational book, written with great honesty, compassion and humility. Marc's ability to overcome adversity and triumph in so many diverse areas is an example to us all. His immense sporting achievements and his work on behalf of the Teenage Cancer Trust is unequalled

and his indomitable spirit shines through. —Sarah, the Duchess of York Marc has a remarkable story and is an absolute inspiration. —Roger Daltrey

**The Routledge Handbook on the Reception of Classical Architecture** Nicholas Temple, Andrzej Piotrowski, Juan Manuel Heredia, 2019-11-01 This is the first comprehensive study of the reception of classical architecture in different regions of the world. Exploring the impact of colonialism, trade, slavery, religious missions, political ideology and intellectual/artistic exchange, the authors demonstrate how classical principles and ideas were disseminated and received across the globe. By addressing a number of contentious or unresolved issues highlighted in some historical surveys of architecture, the chapters presented in this volume question long-held assumptions about the notion of a universally accepted 'classical tradition' and its broadly Euro-centric perspective. Featuring thirty-two chapters written by international scholars from China, Europe, Turkey, North America, Mexico, Australia and New Zealand, the book is divided into four sections: 1) Transmission and re-conceptualisation of classical architecture; 2) Classical influence through colonialism, political ideology and religious conversion; 3) Historiographical surveys of geographical regions; and 4) Visual and textual discourses. This fourfold arrangement of chapters provides a coherent structure to

accommodate different perspectives of classical reception across the world, and their geographical, ethnographic, ideological, symbolic, social and cultural contexts. Essays cover a wide geography and include studies in Italy, France, England, Scotland, the Nordic countries, Greece, Austria, Portugal, Romania, Germany, Poland, India, Singapore, China, the USA, Mexico, Brazil, New Zealand and Australia. Other essays in the volume focus on thematic issues or topics pertaining to classical architecture, such as ornament, spolia, humanism, nature, moderation, decorum, heresy and taste. An essential reference guide, *The Routledge Handbook on the Reception of Classical Architecture* makes a major contribution to the study of architectural history in a new global context.

As well as causing celebration and giving voice to issues, these public parties use up resources, send out emissions and generate mountains of waste. Events also have the power to show sustainability in action and every sustainably produced event can inspire and motivate others to action. Written by a leader in event sustainability management, this book is a practical, step-by-step guide taking readers through the key aspects of how to identify, evaluate and manage event sustainability issues and impacts and to use the event for good – it's for events of any style and scale, anywhere in the world. Now in its third edition, this is the indispensable one-stop guide for event professionals and event management students who want to adjust their thinking and planning decisions towards sustainability, and who need a powerful, easy-to-use collection of tools to deliver events sustainably.

**Capitalism, Sport Mega Events and the Global South** Billy Graeff, 2019-08-02 What are the social, political and economic consequences of staging sport mega events such as the Olympics and

the World Cup? Capitalism, Sport Mega Events and the Global South presents a new approach to sport mega events and related issues, exploring elements that are not present or are not developed in the existing literature. This book explores the socioeconomic impact of these events on host countries in the Global South. Drawing on a thorough case study of the 2014 FIFA World Cup in Brazil, it examines how the residents of Porto Alegre perceived how they were affected and considers the relationship between sport mega events and the wider social sphere of global capitalism. Supported by original socioeconomic research conducted in the area, this is fascinating reading for all students and scholars interested in sport mega events, sport tourism, international development, sport geography and the sociology of sport.

*The Routledge Handbook of Environment and Communication* Anders Hansen, Robert Cox, 2015-03-05 This Handbook provides a comprehensive statement and reference point for theory, research and practice with regard to environment and communication, and it does this from a perspective which is both international and multi-disciplinary in scope. Offering comprehensive critical reviews of the history and state of the art of research into the key dimensions of environmental communication, the chapters of this handbook together demonstrate the strengths of multi-disciplinary and cross-disciplinary approaches to understanding the centrality of communication to how the environment is constructed, and indeed contested, socially, politically and culturally. Organised in five thematic sections, *The Routledge Handbook of Environment and Communication* includes contributions from internationally recognised leaders in the field. The first section looks at the history and development of the discipline from a range of theoretical perspectives. Section two considers the sources, communicators and media professionals involved in producing environmental communication. Section three examines research on news, entertainment media and cultural

representations of the environment. The fourth section looks at the social and political implications of environmental communication, with the final section discussing likely future trajectories for the field. The first reference Handbook to offer a state of the art comprehensive overview of the emerging field of environmental communication research, this authoritative text is a must for scholars of environmental communication across a range of disciplines, including environmental studies, media and communication studies, cultural studies and related disciplines.

*Joe Quigley, Alaska Pioneer* Cheryl Fair, 2020-01-10 In May 1891, Joe Quigley embarked on a journey north to try his luck prospecting for gold in Alaska. Although he had been wandering across America since leaving home at 15, this would be the biggest adventure, and the biggest risk, Quigley had ever taken. A project that began as genealogical research into a family's history, this biography traces the life of a fascinating character before, during and after the great Klondike gold rush. Deeply researched, including quotes from Quigley and numerous photographs, this book is more than another tale of the Klondike Gold Rush. It is an intimate look at the inspiring life of a pioneer prospector, who witnessed the exploration and development of one of America's most harsh, beautiful and captivating landscapes.

Hadrian Thorsten Oppen, 2008 Hadrian, a Roman emperor, the builder of Hadrian's Wall in the north of England, a restless and ambitious man who was interested in architecture and was passionate about Greece and Greek culture. Is this the common image today of the ruler of one of the greatest powers of the ancient world? Published to complement a major exhibition at the British

Museum, this wide-ranging book rediscovers Hadrian. The sharp contradictions in his personality are examined, previous concepts are questioned and myths that surround him are exploded. --Book Jacket.

**The Twin Horse Gods** Henry John Walker, 2015-06-15 The twin deities known by the ancient Greeks as the Dioskouroi, and by the Romans as the Gemini, were popular figures in the classical world. They were especially connected with youth, low status and service, and were embraced by the common people in a way that eluded those gods associated with regal magnificence or the ruling classes. Despite their popularity, no dedicated study has been published on the horse gods for over a hundred years. Henry John Walker here addresses this neglect. His comparative study traces the origins, meanings and applications of the twin divinities to social and ritual settings in Greece, Vedic India (where the brothers named Castor and Pollux were revered as Indo-European gods called the Asvins), Etruria and classical Rome. In the Bronze and Early Iron Ages of Vedic India, the young horse gods are seen to have markedly similar characteristics to their Greco-Roman counterparts. Quick to come to the rescue of those in trouble, the Asvins are ready to assist the old, the weak and the humble. Charting the parallels and correspondences between these ancient myths, Walker uncovers not a single, universal coda but rather a great variety of loosely related beliefs and practices relating to the sibling deities. He demonstrates, for example, that, just as the Dioskouroi were regarded as being halfway between gods and men, so young Spartans – undergoing a fierce and uncompromising military training – saw themselves as standing midway between animal and human. Such diverse and creative interpretations of the myth seem to have played a central role in the culture and society of antiquity.
