*Librarian's Guide to Games and Gamers* Michelle Goodridge, Matthew J. Rohweder, 2021-11-15 Helps librarians who are not themselves seasoned gamers to better understand the plethora of gaming products available and how they might appeal to library users. As games grow ever-more ubiquitous in our culture and communities, they have become popular staples in public library collections and are increasing in prominence in academic ones. Many librarians, especially those who are not themselves gamers or are only acquainted with a handful of games, are ill-prepared to successfully advise patrons who use games. This book provides the tools to help adult and youth services librarians to better understand the gaming landscape and better serve gamers in discovery of new games—whether they are new to gaming or seasoned players—through advisory services. This book maps all types of games—board, roleplaying,

digital, and virtual reality—providing all the information needed to understand and appropriately recommend games to library users. Organized by game type, hundreds of descriptions offer not only bibliographic information (title, publication date, series, and format/platform), but genre classifications, target age ranges for players, notes on gameplay and user behavior type, and short descriptions of the game's basic premise and appeals.

**The Clone Wars Campaign Guide** Rodney

Thompson, Patrick Stutzman, J. D. Wiker, 2009-01-20  
Bring your Star Wars Roleplaying Game campaign into the epic battles of the Clone Wars. This book includes new information for heroes on both sides of the war, including new talents, feats, prestige classes, and equipment designed to tailor characters to the unique feel of the Clone Wars conflict. More than just information for players, The Clone Wars Campaign Guide provides Gamemasters with descriptions and statistics for starships, vehicles, allies, opponents, and planets and features in-depth information on material drawn from Lucasfilm's new CG animated series, The Clone Wars.

**The Video Games Guide** Matt Fox, 2013-01-03 The

Video Games Guide is the world's most comprehensive reference book on computer and video games. Presented in an A to Z format, this greatly expanded new edition spans fifty years of game design--from the very earliest (1962's Spacewar) through the present day releases on the PlayStation 3, Xbox 360, Wii and PC. Each game entry includes the year of release, the hardware

it was released on, the name of the developer/publisher, a one to five star quality rating, and a descriptive review which offers fascinating nuggets of trivia, historical notes, cross-referencing with other titles, information on each game's sequels and of course the author's views and insights into the game. In addition to the main entries and reviews, a full-color gallery provides a visual timeline of gaming through the decades, and several appendices help to place nearly 3,000 games in context. Appendices include: a chronology of gaming software and hardware, a list of game designers showing their main titles, results of annual video game awards, notes on sourcing video games, and a glossary of gaming terms.

The Elder Scrolls V, Skyrim David Hodgson, 2011  
Covers Xbox 360, PlayStation 3, PC--P. [4] of cover.
