Also covered are recently emerging media such as podcasting, blogs, and chat rooms. The last two volumes contain a thorough listing of journalism awards and prizes, a lengthy section on journalism freedom around the world, an annotated bibliography, and key documents. The latter, edited by Glenn Lewis of CUNY Graduate School of Journalism and York College/CUNY, comprises dozens of primary documents involving codes of ethics, media and the law, and future changes in store for journalism education. Through its extensive presentation of current information, this text also helps encourage students to get actively involved and engaged in the process of sports entertainment. Features: Present information from the field: A practitioner's approach. Most sports marketing texts are crafted using a marketing principles template. The organization and chapter themes of

these texts are often too similar to Principles of Marketing texts. Sports Marketing strives to depart from that practice by focusing on important conceptual, strategic, and actionable areas of the sports marketing function. Practitioner contributions come from the author team, and a high caliber roster of successful sports executives from media, marketing, and other areas of sports business. Industry experts highlights. Each chapter features an industry expert. Each expert was selected based on his or her knowledge and provided input on chapter content. The Insider Expert feature that appears early in each chapter gives biographical information on the chapter's industry contributor. Sports examples. Throughout the book, concepts are reinforced with examples of practices and events from the sports industry. A variety of sports, properties, and companies are used as examples to bring to life definitions and concepts presented. Put students' analytical skills into play: Critical thinking exercises, which are found throughout this text, require students to consider various situations faced by the sports marketers and sports executives. The end-of-chapter sports marketing cases put students in the role of decision maker, enabling students to apply knowledge and key concepts to business situations faced by actual sports brands. Expert insights. Each chapter concludes with Insider Insights, a question-and-answer feature with the chapter's industry contributor. In this feature, experts share examples of best practices from their experiences and opinions about trends in sports marketing. Preview the chapter's game plan:

Lead-in vignettes. Each chapter begins with a vignette related to sports marketing and the content of the chapter. The vignette describes a practice or occurrence that illustrates a topic appearing in the chapter, setting the stage for more in-depth coverage in the chapter. Get students ready for the big leagues: Career planning. Many students take a sports marketing course because they have a serious interest in pursuing a career in sports business. In order to help students plan for their future careers, the final chapter contains: -Information about different career opportunities in sports marketing. -Steps students can take to position themselves as job candidates. -Advice on career planning and management from a panel of the book's industry experts.
