Why We Lie Dorothy Rowe, 2011 Why do we lie? Because we are frightened of being humiliated, being treated like an object, being rejected, losing control of things, and, most of all, we are frightened of uncertainty. Often we get our lies in before any of these things can happen. We lie to maintain our vanity. We lie when we call our fantasies the truth. Lying is much easier than searching for the truth and accepting it, no matter how inconvenient it is. We lie to others,

and, even worse, we lie to ourselves. In both private and public life, we damage ourselves with our lies, and we damage other people. Lies destroy mutual trust, and fragment our sense of who we are. Lies have played a major part in climate change and the global economic crisis. Fearing to change how they live, many people prefer to continue lying rather than acknowledge that we are facing a very uncertain but undoubtedly unpleasant future unless we learn how to prefer the truths of the real world in which we live rather than the comforting lies that ultimately betray us. We are capable of changing, but will we choose to do this?

The Truth About Lying Gird Graham

Scott, 2006-06-21 The Truth About Lying is a book about how and why people lie, how we respond when others lie to us, how to tell when someone is lying, and what to do about it. The book includes a questionnaire to determine your own Lie-Q Score: how much you lie. As the book illustrates, we lie for all kinds of reasons-to protect ourselves, gain an advantage, avoid punishment, protect other's feelings, escape blame, or get out of something we don't want to do. Though philosophers, religious leaders, teachers, and parents tell us lying is morally wrong-at some time, everyone does it. And in the last decade, we have seen more and more examples of lying in the daily news. The Truth About Lying provides a broad overview of the subject in a book that has become a classic. It begins with an overview of the pervasiveness of lying today and throughout history. Then, it discusses the range of lies,

reasons people lie, and different types of lies in different situations, using many stories from ordinary, respectable people to illustrate. The concluding chapters discuss how readers can deal with lying in their own lives.

The Truth about Lying Gini Graham Scott, 1994 The author of *The Empowered Mind* presents a fascinating look at the many reasons why people lie. Scott focuses on different types of lies we tell, and presents the stories of ordinary people who have lied to gain advantages in their careers, relationships, and other aspects of their lives.

Why Men Lie Linden MacIntyre, 2012-03-27 This latest novel from Scotiabank Giller Prize winner Linden MacIntyre, *Why Men Lie*, offers a moving and emotionally complex conclusion to the Cape Breton trilogy. Two years after the events of *The Bishop's Man*, we're introduced to Effie MacAskill Gillis, sister of the troubled priest Duncan. It's 1997, and Effie is an independent, middle-aged woman working as a tenured professor of Celtic Studies, but her complicated and often disappointing love life has left her all but ready to give up on the opposite sex. Then suddenly, a chance encounter with a man on a Toronto subway platform gives Effie renewed hope. J.C. Campbell is an old friend she hasn't seen for more than 20 years – an attractive, single man who appears to possess the stability and good sense she longs for. Effie met her last husband, Sextus, in her hometown of Cape Breton when the two were still children. As they grew older together, and started a family, she soon learned that when it came to other women, Sextus couldn't be trusted. After one

too many betrayals, Effie leaves him behind, and so when she and J.C. seem to hit it off, his relaxed, open demeanour is a welcome change. But after a happy start to their relationship, cracks begin to show, and J.C. proves himself to be just as unpredictable as the others: one evening Effie spots him in a seedy part of town, but he denies ever having left his house; when she notices a scratch below his eye, he lies about its cause, blaming it on the cat. Then J.C., a journalist, becomes unhealthily engrossed in a story involving a convict on death row, and he and Effie begin to drift apart. Although he still checks in sporadically and insists there's nothing going on, she soon learns he has a deeply personal reason for his covert trips to that seedy downtown street. In fact, it turns out there's a lot about his past that Effie doesn't know, and a lot he's still learning himself. While J.C. is busy chasing his own past, Effie is rarely able to escape her own. Family ties and hometown connections to Cape Breton mean her two ex-husbands – Sextus happens to be the cousin of her first husband, John – are constantly coming and going in a turbulent mess of comfort and commotion, while her grown daughter, Cassie, brings some unexpected news of her own. After all of her experience in relationships with men, Effie thought she knew all she needed to about what to expect, and how to maintain her self-sufficiency. Why do men lie?, she wants to know. But whether it's for love, for protection, or for more selfish reasons, Effie soon learns that no amount of experience can prepare you for what might resurface from the past, and for the

damage that might cause, emotionally or otherwise.

Lying and Deception in Everyday Life Michael

Lewis, Carolyn Saarni, 1993-02-05 I speak the truth, not so much as I would, but as much as I dare.... - Montaigne All cruel people describe themselves as paragons of frankness.' -- Tennessee Williams Truth and deception--like good and evil--have long been viewed as diametrically opposed and unreconcilable. Yet, few people can honestly claim they never lie. In fact, deception is practiced habitually in day-to-day life--from the polite compliment that doesn't accurately relay one's true feelings, to self-deception about one's own motivations. What fuels the need for people to intricately construct lies and illusions about their own lives? If deceptions are unconscious, does it mean that we are not responsible for their consequences? Why does self-deception or the need for illusion make us feel uncomfortable? Taking into account the sheer ubiquity and ordinariness of deception, this interdisciplinary work moves

away from the cut-and-dried notion of duplicity as evil and illuminates the ways in which deception can also be understood as a adaptive response to the demands of living with others. The book articulates the boundaries between unethical and adaptive deception demonstrating how some lies serve socially approved goals, while others provoke distrust and condemnation. Throughout, the volume focuses on the range of emotions--from feelings of shame, fear, or envy, to those of concern and compassion--that motivate our desire to deceive ourselves and others. Providing an interdisciplinary exploration of the widespread phenomenon of lying and deception, this volume promotes a more fully integrated understanding of how people function in their everyday lives. Case illustrations, humor and wit, concrete examples, and even a mock television sitcom script bring the ideas to life for clinical practitioners, behavioral scientists, and philosophers, and for students in these realms.

Get the Truth Philip Houston, Michael Floyd, Susan Carnicero, 2015-03-24 Getting someone to tell the truth is an essential skill that very few people possess. In the boardroom, classroom, or our own homes, every day we interact with others and try to get the truth from them. People are often untruthful out of fear of negative consequences associated with divulging information. But if a person is made to forget the long-term outcomes of lying, he or she can be influenced to disclose sensitive information that's being withheld. The aim is to encourage the person to remain in short-term thinking mode, shifting focus away from the

long-term ramifications of telling the truth. As former CIA agents and bestselling authors of *Spy the Lie*, Philip Houston, Mike Floyd, and Susan Carnicero are among the world's best at detecting deceptive behavior and eliciting the truth from even the most accomplished liars. *Get the Truth* is a step-by-step guide that empowers readers to elicit the truth from others. It also chronicles the fascinating story of how the authors used a methodology Houston developed to elicit the truth in the counterterrorism and criminal investigation realms, and how these techniques can be applied to our daily lives. Using thrilling anecdotes from their careers in counterintelligence, and with easy-to-follow instructions, the authors provide a foolproof means of getting absolutely anybody to give an honest answer. *Get the Truth* is the easy and effective way to learn how to get the truth every time.

Anatomy of a Lie Diane M. Komp, 1998 *Anatomy of a Lie* offers a riveting, close-up look at lying, the moral epidemic that affects our faith, our marriages, our children, our relationships, our careers, and every aspect of our lives. With surgical precision, Yale Medical School physician and best-selling author Diane Komp probes the human soul to uncover the causes of our lies -- and the cure.

Liespotting Pamela Meyer, 2010-07-20 *GET TO THE TRUTH* People--friends, family members, work colleagues, salespeople--lie to us all the time. Daily, hourly, constantly. None of us is immune, and all of us are victims. According to studies by several different researchers, most of us

encounter nearly 200 lies a day. Now there's something we can do about it. Pamela Meyer's Liespotting links three disciplines--facial recognition training, interrogation training, and a comprehensive survey of research in the field--into a specialized body of information developed specifically to help business leaders detect deception and get the information they need to successfully conduct their most important interactions and transactions. Some of the nation's leading business executives have learned to use these methods to root out lies in high stakes situations. Liespotting for the first time brings years of knowledge--previously found only in the intelligence community, police training academies, and universities--into the corporate boardroom, the manager's meeting, the job interview, the legal proceeding, and the deal negotiation. WHAT'S IN THE BOOK? Learn communication secrets previously known only to a handful of scientists, interrogators and intelligence specialists. Liespotting reveals what's hiding in plain sight in every business meeting, job interview and negotiation: - The single most dangerous facial expression to watch out for in business & personal relationships - 10 questions that get people to tell you anything - A simple 5-step method for spotting and stopping the lies told in nearly every high-stakes business negotiation and interview - Dozens of postures and facial expressions that should instantly put you on Red Alert for deception - The telltale phrases and verbal responses that separate truthful stories from deceitful ones - How to create a

circle of advisers who will guarantee your success

Spy the Lie Philip Houston, Michael Floyd, Susan Carnicero, Don Tennant, 2013-07-16 Three former CIA officers share their techniques for lie detection, outlining methods for identifying deceptiveness as revealed by verbal and non-verbal behaviors from facial expressions and grooming gestures to invoking religion and using qualifying language.

Nine Lies About Work Marcus Buckingham, Ashley
Goodall, 2019-04-02 Forget what you know about the
world of work You crave feedback. Your
organization's culture is the key to its success.
Strategic planning is essential. Your competencies
should be measured and your weaknesses shored up.

Leadership is a thing. These may sound like basic truths of our work lives today. But actually, they're lies. As strengths guru and bestselling author Marcus Buckingham and Cisco Leadership and Team Intelligence head Ashley Goodall show in this provocative, inspiring book, there are some big lies--distortions, faulty assumptions, wrong thinking--that we encounter every time we show up for work. Nine lies, to be exact. They cause dysfunction and frustration, ultimately resulting in workplaces that are a pale shadow of what they could be. But there are those who can get past the lies and discover what's real. These freethinking leaders recognize the power and beauty of our individual uniqueness. They know that emergent patterns are more valuable than received wisdom and that evidence is more powerful than dogma. With engaging stories and incisive analysis, the authors reveal the essential truths that such freethinking leaders will recognize immediately: that it is the strength and cohesiveness of your team, not your company's culture, that matter most; that we should focus less on top-down planning and more on giving our people reliable, real-time intelligence; that rather than trying to align people's goals we should strive to align people's sense of purpose and meaning; that people don't want constant feedback, they want helpful attention. This is the real world of work, as it is and as it should be. *Nine Lies About Work* reveals the few core truths that will help you show just how good you are to those who truly rely on you.
