Victims of Nazi Persecution in the Channel Islands Gilly

Carr,2019-04-18 Victims of Nazi Persecution from the Channel Islands explores the fight and claims for recognition and legitimacy of those from the only part of the British Isles to be occupied during the Second World War. The struggle to have resistance recognised by the local governments of the islands as a legitimate course of action during the occupation is something that still continues today. Drawing on 100 compensation testimonies written in the 1960s and newly discovered archival material, Gilly Carr sheds light on the experiences of British civilians from the Channel Islands in Nazi prisons and concentration camps. She analyses the Foreign Office's treatment of claims from Islanders and explores why the islands' local governments declined to help former political prisoners fight for compensation. Finally, the book asks why 'perceived sensitivities' have stood in the way of honouring former political prisoners and resistance memory over the last 70 years in the Channel Islands. The testimonies explored within this volume help to place the Channel Islands back within European discourse on the Holocaust and the Second World War; as such, it will be of great importance to scholars interested in Nazi occupation, persecution and post-war memory both in Britain and Europe more widely.

Penicillin - The Waterloo of Corona Dr K Chaudhry, Nation inherited Malaria from British Rule. At India's independence during 1947, 22% population of nation was suffering from Malaria with 7.50 crore cases 8 lakh deaths every year. National Malaria Control Programme (NMCP) was launched in 1953 to combat Malaria, with 3 activities :- 1. Insecticidal residual spray (IRS) with DDT 2. Monitoring and surveillance of cases 3. Treatment of patients NMCT Programme rapidly brought down Malaria morbidity and mortality in India within a few years. Encouraged by success. NMCP was upgraded to National Malaria Eradication Programme (NMEP) during 1958. Massive resurgence of malaria occurred during 1976 with 64.6 lakh cases reported. Studies attributed malaria flare to :- 1. Poor health infrastructure 2. Lack of monitoring and logistics 3. Chloroquine resistant Plasmodium falciparum 4. Insecticide resistant vector Consequently during 1977, a modified plan of operations (MPO) was launched with a three-pronged strategy :- 1. Early diagnosis and prompt treatment 2. Vector control 3. Awareness and Action. Awareness generated through Information Education Communication

(IEC). Action enabled through Behaviour Change Communication (BCC). Community participation contributed to fruitful implementation. During 1984 Malaria cases declined to 20 lakhs with 247 deaths. For malaria in high transmission areas of the country, an Enhanced Malaria Control Project (EMCP) was launched with additional support from the World Bank during 1997. That was followed by Intensified Malaria Control Project (IMCP) launched with support of The Global Fund to fight AIDS, Tuberculosis and Malaria (GFATM) during 2005. Malaria control programme and other Vector Borne Diseases namely Kala-azar, Dengue, Lymphatic Filariasis, Japanese Encephalitis and Chikungunya were integrated into the National Vector Borne Disease Control Programme (NVBDCP) during 2002. New tools for malaria prevention and control were introduced under NVBDCP :- 1. Monovalent RDTs for Plasmodium falciparum detection during 2005 2. ACT during 2006 3. LLINs during 2009 4. Antigen detecting bi-valent RDTs for detection of both Plasmodium falciparum and Plasmodium vivax during 2013 5. Newer insecticides and larvicides during 2014-15. Global Corona Eradication Programme is proposed Replication of above National Programmes in India.

The Secret State Richard C. Thurlow, 1995-01-09 This is a history of the secret activities of the British government in response to threats to the nation's well-being and stability during the twentieth century. It is based on intensive and widespread research in private and public archives and on documents many of which have only recently come to light or been made available. The dangers perceived by the state

have been manifold and various, coming from within and from abroad. Anarchists, fascists, socialists, communists, the IRA, trades-unionists and animal activists as well as spies, terrorists and saboteurs have been the subject of undercover investigation, along with almost every large-scale movement from suffragettes to campaigners for peace and nuclear disarmament. The author describes the methods and people employed, and the mixed nature of their results. The British state has always seen itself as civil and liberal, but as Dr Thurlow shows it has sometimes been far from open. The government has had many weapons at its disposal, from public order acts, censorship, internment and proscription on the one hand, to covert operations, infiltration and manipulation on the other. Yet when examined in the light of new evidence, the activities of the state are fully comprehensible only in terms of those who comprised it. The author shows the tensions among the departments (between MI5, MI6, SIS and the Special Branch, for example), and the crucial part played by individuals whose motives were often far from what the government supposed them to be. This is an at times disturbing, at others almost comical, but always fascinating account. It throws light on the inmost workings of the state, as well as on the movements and people subject to investigation and action.
