Loss and Wonder at the World's End Laura A. Ogden,2021-09-13 In *Loss and Wonder at the World's End*, Laura A. Ogden brings together animals, people, and things—from beavers, stolen photographs, lichen, American explorers, and birdsong—to catalog the ways environmental change and colonial history are entangled in the Fuegian Archipelago of southernmost Chile and Argentina. Repeated algal blooms have closed fisheries in the archipelago. Glaciers are in retreat. Extractive industries such as commercial forestry, natural gas production, and salmon farming along with the introduction of nonnative species are rapidly transforming assemblages of life. Ogden archives forms of loss—including territory, language, sovereignty, and life itself—as well as forms of wonder, or moments when life continues to flourish even in the ruins of these devastations. Her account draws on long-term ethnographic research with settler and Indigenous communities; archival photographs; explorer journals; and experiments in natural history and performance studies. *Loss and Wonder at the World's End* frames environmental change as imperialism's shadow, a darkness cast over the earth in the wake of other losses.

*World of Wonders* Aimee Nezhukumatathil,2020-09-08 “A poet celebrates the wonders of nature in a collection of essays that could almost serve as a coming-of-age memoir.” —Kirkus Reviews As a child, Nezhukumatathil called many places home: the grounds of a Kansas mental institution, where her Filipina mother was a doctor; the open skies and tall mountains of Arizona, where she hiked with her Indian father; and the chillier climes of western New York and Ohio. But no matter where she was transplanted—no matter how awkward the fit or forbidding the landscape—she was able to turn to our world's fierce and funny creatures for guidance. “What the peacock can do,” she tells us, “is remind you of a home you will run away from and run back to all your life.” The axolotl teaches us to smile, even in the face of unkindness; the touch-me-not plant shows us how to shake off unwanted advances; the narwhal demonstrates how to survive in hostile environments. Even in the strange and the unlovely, Nezhukumatathil finds beauty and kinship. For it is this way with wonder: it requires that we are curious enough to look past the distractions in order to fully appreciate the world's gifts. Warm, lyrical, and gorgeously illustrated by Fumi Nakamura, *World of Wonders* is a book of sustenance and joy. *The Global Impact of South Korean Popular Culture* Valentina Marinescu,2014-09-24 This volume fills a gap in the existing literature and proposes an interdisciplinary and multicultural comparative approach to the impact of Hallyu worldwide. The contributors analyze the spread of South Korean popular products from different perspectives (popular culture, sociology, anthropology, linguistics) and from different geographical locations (Asia, Europe, North America, and South America). The contributors come from a variety of countries (UK, Japan, Argentina, Poland, Bulgaria, Czech Republic, Indonesia, USA, Romania). The volume is divided into three sections and twelve chapters that each bring a new perspective on the main topic. This emphasizes the impact of Hallyu and draws real and imaginary “maps” of the export of South Korean cultural products. Starting from the theoretical backgrounds offered by the existing literature, each chapter presents the impact of Hallyu in a particular country. This applied character does not exclude transnational comparisons or critical interrogations about the future development of the phenomenon. All authors are speaking about their own, native cultures. This inside perspective adds an important value to the understanding of the impact of a different culture on the “national” culture of each respective country. The contributions to this volume illustrate the “globalization” of the cultural products of Hallyu and show the various faces of Hallyu around the world.

*Man-Made Wonders of the World* DK,2019-10-08 Discover the most incredible man-made wonders, from Stonehenge to Burj Khalifa, with this unparalleled catalog of the most famous and intriguing buildings and monuments created by humans. Man-Made Wonders of the World features a range of structures from buildings to monuments, statues, and bridges, including the Golden Gate Bridge and Hoover Dam. It opens with a foreword by Dan Cruickshank and then takes the reader on a continent-by-continent journey, exploring and charting the innovations, ingenuity, and imagination employed by different cultures to create iconic buildings such as the Great Pyramid of Giza. This truly global approach reveals how humans tackled similar challenges, such as keeping the enemy out, in vastly different parts of the world, from the Great Wall of China to the defensive walls of Central American cities. Illustrations explain how the structures were built, while explanations cover the history, architecture, and unique stories behind their construction. Featuring breathtaking images, Man-Made Wonders of the World is a complete celebration of the world humans have built over thousands of years.
